

H. CANNELL & SONS'

(F.AHS. M.S.A.I.

ILLUSTRATED @ COMPLETE

LORAL

FOR

-#1897#-

SWANLEY, KENT.

The expense of printing and posting this Catalogue is considerable. We appeal to the recipients to kindly favour us with an order occasionally; if not, it must be suspended with sincere regret.

SWANLEY

Is 15 miles from London, on the London Chatham and Dover Railway. Eynsford is just one station further on, six miles from Sevenoaks. Both Nurseries adjoin the stations. There are above 24 trains per day from Victoria, Holborn Viaduct, and St. Paul's Stations. We should feel it a real pleasure in sexing all lovers of Horticulture any time during the week, except on Sundays and after 5 o'clock on Saturdays, when the Establishments are closed and no one admitted.

H. CANNELL & SONS

Have been honoured with the distinguished Patronage of

HENRY CANNELL, F.R.H.S., M.S.A., H.M.C.A.B (A Reprint from "Black and White.")

THE SWANLEY NURSERIES.

From the GARDENING WORLD, September 26th, 1896.
Swanley may be designated the head-quarters of the world-renowned firm of II. Cannell & Sons.
Not only is the home trade of this firm of huge dimensions, but the export business earried on with British dependencies, as well as foreign countries, is immense.
Naturally enough, a visit to such an establishment to anyone who possesses a knowledge of horticulture is at all times interesting and instructive. None know better than the Messrs. Cannell the desire for improvements upon existing forms of favourite plants, and none are more conspicuously in the vanguard of progress. conspicuously in the vanguard of progress.

A-2

The Greatest Triumph ever achieved = = = for Plants supplied by any Nurseryman.

SURELY THIS SPEAKS VOLUMES.

CANNELLS'
Chrysanthemums.

NONE TOUCH THEM.

For twenty years Mr. Mease has sent us open orders for the best new Chrysanthemums; the result is, during all this time he has taken more First Prizes and Trophies in the greatest contests than any other exhibitor, and last season he crowned his numerons victories by carrying off the two chief Golden Jubilee Medals and £30 offered by the National Society in the greatest race ever contested. He therefore now holds the proud position of Champion of the Champions, and as a mark of appreciation has kindly snpplied us with his photo as shown; and to all who wish for similar success, we should be glad to send catalogue and to communicate with them.

Own-Grown Kentish Perfect Golden SEEDS. SEEDS. SEEDS.

OF THE HIGHEST QUALITY.

ENGLAND'S GREAT VICTORY.

KENT IN PARTICULAR, OF WHICH ALL SHOULD BE PROUD.

We simply mention the seeds we grow and sell are such as we sent to the Chicago Exhibition, where they were officially tested side by side with thousands of the most celebrated, and their produce afterwards registered. Result—Ours were Awarded the Great Medal and Four Diplomas, on which it is inscribed "Perfect," and "Their Produce the finest yet attained."

This, after such a scrutiny, surely speaks volumes as to the value and importance of our seeds

and varieties.

DEAR SIR,

We are sure all would be delighted with our seeds, also with our nearly wholesale prices, and hope to have the pleasure of serving you and your friends. "Gardeners' Chronicle" says :--

Although our climate its damp, our home grown seeds, properly harvested and treated, are the best the world produces, and will keep their germinating power as long as seeds are expected to.

CHRYSANTHEMUMS AT SWANLEY.

HOW NEW CHRYSANTHEMUMS ARE PRODUCED.

Interview with Mr. H. Cannell, F.R.H.S., abridged from "Black and White," 10th October, 1896.

REPRESENTATIVE of Black and White went down to get some information on this subject from Mr. Henry Cannell at "The Home of Flowers," Swanley. For some time after his arrival he was content to wander about the 17 acres of ground with kindly guides and delight his eyes with such a wealth of flowers as is not often granted to the Londoner to see except in dreams. The Geraniums were at their best, and there were great sheets of radiant colour. In one secluded corner it was peculiarly pleasant to linger. This was the rockery, where water was plentiful, and cool green things enabled one to defy the prevailing heat. Wild Strawberries grew there, and a clump of Sea Pink and a big plant of the Vellow Horn Poppy. Wherever you went there was one infinitely refreshing thing—the innumerable tall hedges, which make a most delightful shelter, for there is wind among the leaves upon the sultriest day, while the sunlight silvers them as they tremble.

Mr. Henry Cannell is great ou all Horticulture. Special attention has been given to Begonias and Chrysanthemums; the former were everywhere in evidence, and were beautiful beyond words, and Mr. Caunell must enjoy the spectacle after a fashion whereof the keenest lover of beauty is incapable, for many of the loveliest varieties there seen were born, so to speak, under his hands at

Swanley.

But it was about Chrysanthemnms that the interviewer was chiefly curious, and especially about the raising of new varieties. Mr. Cannell showed a lot of seedlings from seed imported from Anstralia last year, and went on to explain that it is the simplest matter in the world. When you know how, to send Chrysanthemum plants to Australia so that they shall arrive there alive and flourish. Then he took a catalogue, at the interviewer's suggestion, and recalled some of the innumerable varieties which have been produced at Swanley. "And how do you set about raising new varieties?" Then Mr. Cannell picked a Fuchsia bloom, and splitting it down the centre, showed and described the whole structure of the seeding organs—the pollen-bearing anthers, the pistil to receive the pollen and conduct its effects into the seed vessels. Nature in the usual course performs all this by the aid of wind and iusects, and Mr. Cannell explained that it is here that the art of the expert steps in, and, by a judicious selection of the parent flowers, he influences the progeny to a very great extent and produces oceasionally a new variety which is an improvement in size, shape, colour, or habit on all existing sorts. Chrysauthemums are substantially the same as other flowers in formation, and a like process has to be performed, but, flowering at such a sunless season, other precautions have to be taken, the object of all heing to throw the whole vigour of the plant into its seeding organs. "It has been by perseverance to meet the desire for new kinds that we have become so especially known for the enormous improvements we have made. We are now sending back to Li Hung Chang much larger and more elegant flowers, of brighter colours, with more refined shapes, and plants of stronger growth than the first we got from China and Japan, where they are indigenous and esteemed as the national flower."

In reply to further questions by the interviewer, Mr. Cannell stated that anyone giving time and studied attention to the subject would be equally as likely to produce good results. It is very necessary to keep all the seeding organs perfectly dry, the pollen in the first place, and the other parts after that is transferred, by the removal of all damping petals. November is the month when most of the is done, as the majority of varieties flower then. The seed is sown in pans in February, and later on the seedlings are pricked out. By the time the Autumn comes the healthy plants—and those which are not healthy are rejected without ceremony—may have from one to three good flowers on them. These are examined, and, once in a hundred times perhaps, something that is

new and beautiful is found.

"And what comes uext? When do you proclaim your discovery?" "The plant is grown for two years, for, curiously enough, the cuttings taken from a most promising seedling may fail to produce blooms worth showing. But when we are perfectly sure that we have produced a valuable variety,

is exhibited at the principal shows, and after that we announce it, and seud out plants to

Chrysanthemum lovers in all parts of the world."

There the conversation as to Chrysanthemums came to an end, and here this account of the interview that produced it must likewise finish. For there is so much to see at Swauley that, to write without rigid limitations as to space would be to produce a quantity of matter which a single number of Black and White could scarce contain comfortably.

Now the cost of carriage of seeds and parcels are considerably lower in price, and goods can reach you in a few honrs and direct from us, possessing the best resources and stock, together with the largest and finest facilities for carrying on husiness successfully to all parts of the World, we are relying on our esteemed enstomers and their kind recommendations to still further enable us to add to our usefulness and reputation of our establishments,

HOW TO MANAGE PLANTS, ROOTED CUTTINGS, AND SEEDLINGS SENT BY POST.

HERE persons have the convenience and sufficient experience for nursing small plants, and enjoy seeing them grow, we strongly recommend their having them sent by post, as every care is taken to grow them in such a temperature, &c., that there is no risk ahout their doing well with a small amount of ordinary care, if the appended instructions are carefully followed.

It must be remembered that plants are like young children; they must be carefully looked after, fed, clothed, and trained in the way they should go, and a little common sense exercised to ascertain their requirements, and to guard against enemies. And should they be forgotten, and get with others of bad character, it is surprising how quickly they will partake of the same habits and disease, and will soon die in sorrow and disgrace. A sweet-smelling hot-bed rather on the decline is preferable, with the heat at about 65 degrees. When you receive a hox of rooted cuttings or plants, immerse them in water at the same temperature from one to two hours. When they are all refreshed, proceed to pot them into small pots, using nice, warm, sandy soil. See that the roots are separated and spread naturally out in the soil without injuring them, pressing the soil firmly. Place them in the frame, keep them shut close for a few days, be careful of damp, and admit air as they get established. Let them he slightly dried each day, hut do not allow them to flag from too much air or sun. And if a person possesses a stove, or even a warm greenhouse, there is no more difficulty in getting them togrow nnder an air-tight hand-glass or wooden box with the top covered with glass, than those of their own striking or raising.

ERNEST CANNELL.

NURSERIES, SWANLEY.

SEED FARM & GROUNDS, EYNSFORD.

NEW, GOOD, AND >> FLOWERS

ALL SPECIALLY RECOMMENDED FOR THE YEAR 1897.

JOURNAL OF HORTICULTURE, 23rd July, 1896.

Swanley is not unknown in the horticultural world. There is a "certain man" there named Henry Cannell, who has helped to make it familiar—a genuine gardener, who hy great energy and husiness aptitude has made the whole civilised world his market and himself famons.

NEW DOUBLE BEGONIAS FOR 1897.

RAISED AND SENT OUT BY H. CANNELL & SONS.

AURORA—A very pretty and pleasing variety; pale yellow, with a distinct Picotee edge of rosy pink; very regular; good double flowers. 12s.

COUNTESS OF ABERDEEN—Creamy white; large well-formed flowers; erect habit; a first-class variety. 10s.

LADY CARLISLE-A very pretty salmon-pink shade, mottled soft yellow; good dwarf habit; nice; distinct. 7s. 6d.

LADY GRANT—Very large and donble; massive; flesh colour; dwarf and free flowering.

MISS MILLIE ELVEY-Of a creamy shade; large and fine; very dwarf: late flowering;

a grand variety. 12s.

MISS SYBIL MAY—Rosy pink; distinct and fine. 8s.

REV. G. T. LITTLE—Medium-size flowers, and of the most intense fiery-crimson colour we have yet seen. Award of Merit. 10s. (Named by request.) SIR GEO. TRYON-A distinct and beantiful coloured variety; well-formed double flowers

of a rich clear salmon colour; free flowering, and forming into well-shaped plants. 12s.

J. B. POE-A fine rich erimson; flowers large, well formed, and very double; extra. 10s. (Named by request.)

NEW DOUBLE BEDDING BEGONIA.

CANNELLS' SCARLET-The medium-sized flowers are undoubtedly the best and mos snitable for hedding purposes, and it is with this object in view we introduce this variety. Of the clearest scarlet, good dwarf habit, and very free flowering. Where a mass of flower is required this cannot fail to give satisfaction. 1s. 6d. each; 15s, per doz.

NEW SINGLE BEGONIAS FOR 1897.

CAPTAIN BEDINGFIELD-Very large, of a brick-red shade; circular flowers, and of great substance.

CECIL COLE-Large and good, of a decided scarlet shade; fine flowers, and of leathery substance.

GOLDEN HIND-One of the finest yellows; large flowers; a fine improvement.

GRACE DARLING-A fancy variety; pure white centre, evenly margined with a clear lake shade; medium size beautifully-formed flowers.

MRS. NEWMAN-Large fine flowers of a pleasing and attractive shade of pink; a good exhibition variety.

SEYMOUR LUCAS-Splendid rich crimson, probably the finest; good shape, perfect habit; extra. 3s. 6d. each.

CANNELL & SONS

CHRYSANTHEMUMS FOR

JAPANESE. All our own seedlings.

1027. BARON TAIT-A more refined and deeper flower than Exmouth Yellow; beautiful clear, rich yellow; large and attractive flowers of a distinctive character; extra. Crown buds. 6s.

1028. CHAS. E. WILKINS-A very haudsome flower; long narrow petals somewhat resembling Sunflower, and equally as massive and deep; white, shaded pink, finishing off to a pleasing tint of

rosy pink; fine. Crown bud. 5s.

1029. ELLA CURTIS—In this we have a grand variety, and will be found indispensable for exhibition purposes; extra large hold flowers of a rich golden yellow, shaded light chestnut and bronze on the broad and fully expanded florets; good keeping qualities; a fine addition, and much admired wherever exhibited. Late crown hnds. 5s.

1030. ERNEST CANNELL-A splendid introduction, producing immense-sized and refined flowers of the most correct incurved form; colour a pretty shade of deep fawn margined soft red, reverse of petals creamy fawn, tinted deeper; quite distinct. Second crown buds; good culture. 6s.

1031. HAYDÉE FALBE-Of great size and depth; broad leathery florets forming into massive flowers of a bright chestnut with a soft golden reverse; distinct and effective. Second erown buds. 5s.

1032. LADY OPORTO TAIT-A fine novelty, and distinct from anything we have, and, although of a yellow colour, we have no hesitation in putting this forward as a most useful and attractive variety; splendid golden yellow, thick twisted broad petals; an aequisition. Crown huds. First-Class Certificate. 5s.

1033. LEONARD BROWN-Bright mabogany, reverse of petals bronze, broad petals; a

distinct and handsome novelty; free and effective. Crown buds. 5s. 1034. MISS STORER—A most delicate and prettily-coloured variety; fine large flowers of a pleasing shade of blush pink, lighter towards ceutre, and finishing off to a creamy shade; a refined

flower. Crown buds. 5s.
1035. ROBERT POWELL—A splendid variety, and a welcome addition to this class; fine well-formed flowers of a reddish chestnut, with a more golden shade to reverse of petals; good.

Crown or terminal buds. 5s.

1036. SIR WM. HART-DYKE-Of good size, full and remarkably deep flowers of a very rich yellow shade, more intense and effective than W. H. Lincoln, and we anticipate this to prove a most valuable variety for cutting and marketing purposes owing to the splendid colour, compact formation, and good lasting qualities of its flowers; very free. Crown bud. 3s. 6d. 1037. SWANLEY GIANT—Certainly producing the largest and finest incurved Jupanese flowers

yet introduced; very bold and massive petals, perfect globular formation, lilac-pink; grand. Crowu buds. 10s. 6d. Plants only in Spring.

NEW INCURVED.

1038. AUSTIN CANNELL-Possessing the same hold petals and formation of flowers as the well-known variety M. R. Bahuant; large, well-formed flowers, of a purple-maroon shade, reverse of petals lighter; good. Crown buds. 5s.

1039. LEONARD PAYNE—A decided improvement on Baron Hirsch; long, broad, incurving petals, of a reddish-mahogany, with a lighter reverse; a fine introduction, and an advauce. Crown

buds. 5s.

NEW POMPON ANEMONE CHRYSANTHEMUM.

1040. ERIC-In this we have a decided acquisitiou, and quite distinct to any other in this class; well-shaped flowers, good high centre, clear orange-buff outer florets, cushion of a deeper shade; good dwarf and compact habit; very free and effective. 3s. 6d.

NEW EARLY-FLOWERING VARIETIES.

Blooming from Jnne nntil the frost sets in, both are grand and useful additions.

1041. WHITE GRUNERWALD-A fac-simile of Mons, G. Grunerwald, and from which it is a seedling; pure white, fine flowers; very free. 3s. 6d.

1042. YELLOW GRUNERWALD—A heautiful yellow sport from the above. A most effective

variety for the border or conservatory. 3s. 6d.

NEW SINGLES.

1043. IRENE-A most beautiful and attractive novelty; large, open flowers, of good form. white, flushed pink, and which continues throughout its flowering period; dwarf, bushy habit; good for exhibition and general decorative purposes

MISS DOROTHY HAWKINS-A splendid introduction; colour a very soft pink;

greatly admired. 2s. 6d.

1044. MRS. E. STAINES-Of the purest white; florets long and well developed, forming into well-shaped flowers; good high centre; very free flowering; valuable for growing into specimen plants; useful.

1045. STAR-A scedling from the well-known variety Miss Rose; extremely floriferous, and forming into handsome plants; medium-sized flowers of a pink shade. Much admired when

exhibited at the Aquarium Show last November.

2s. 6d. each.

THE GARDEN, 31st October, 1896. Royal Horticultural Society.

Lady Oporto Tait (Jap.), a very handsome variety, and an acquisition to the front row on any board of cut-blooms; the colour is a deep golden yellow, the petals long and broad, being disposed in the way of those of Thunberg; it is of medium size. Several varieties of Chrysanthemiums, new kinds, were shown by Messrs. II. Cannell & Sons, Lady Oporto Tait, a fine golden yellow, with thick twisted pctals; and Robt. Powell, a bandsome flower, bronze and yellow.

National Chrysanthemum Society.

A. H. Wood, a pale yellow sport from Primrose League, large and spreading. Robt. Powell, a big solid incurved Japanese; colonr golden bronze reverse, inside carmine chestnut; was very fine. So, too, was Ernest Cannell, of ordinary incurved form, full and double; colonr pale ochreyellow. Another regarded as a promising novelty was Lady Oporto Tait.

GARDENERS' CHRONICLE, 31st October, 1896, Royal Horticultural Society.

Messrs. H. Cannell & Sons' Lady Oporto Tait, a broad floreted fancy Japanese with twisted florets, rich gold colonr. Award of Mcrit. Ernest Cannell, an inenrved flower of promising character.

THE GARDENERS' MAGAZINE, 31st October, 1896.

Lady Oporto Tait, a large Japanese variety with broad curling and incurving florets of the brightest gold colour. Award of Merit, R.H.S.

THE GARDENING WORLD, 31st October, 1896. Royal Horticultural Society.

The grand yellow incurved variety Ernest Cannell was in fine condition in Messrs. Cannell & Sons' exhibit.

NEW CHRYSANTHEMUMS.

VARIOUS RAISERS.

1140. BEAUTY OF ADELAIDE-A flower of large size, with long florets, incurving at the tips; colour pretty shade of manvc-pink; splendid exhibition bloom; good habit. Plants, 5s.

1141. BEAUTY OF SHOLING (Jap. Ref)—Deep bronzy-orange. 2s. 6d, each,

1142. BELLE MAUVE-One of the most distinct and lovely varieties ever sent out. Blooms very large, deep, massive, and of elegant form; the colour is a beautiful and delicate lavendermauve, quite clear, and minus of any shading whatever; will win its way into all collections. Crown bud. 5s.; cuttings, 3s. 6d.

1143. BUFF GLOBE-An introduction from Japan. A sport from Good Gracious; colonr a

pretty shade of chamois and fawn-yellow; very novel variety. 2s.; cuttings, 1s. 6d. 1144. CARRIE BELL (Jap. Inc.)—Colour delicate pink, a fine large exhibition flower of excellent form, long petals of medium width, intermingling and incurving in a charming manner; a splendid flower. First-Class Certificate. 5s.

1145. CRODA-A very large Japanese, after the style of G. C. Schwabe, but fuller and much darker, and brighter in colonr; a cross between G. C. Schwabe and E. Molyneux. Crown bud about

16th August. Plants in spring, 5s.

1146. CROWN OF GOLD-Brilliant golden-yellow Japanese. As the flower opens the outer petals fall over and reflex, gracefully intertwining; the inner petals, until they in turn fall over, remain closely incurved, creating a novelty of exceptional beauty. A most refined and striking novelty, absolutely distinct from any existing variety. Crown bud about 12th Angust. Plants in spring, 5s.

1147. CHRISTMAS GOLD (Jap. Inc.)-Rich golden yellow. This is a large globalar flower,

very late; it has everything in its favour. First-Class Certificate, R.H.S. 1s. each.;

1148. DENNIS SMITH-RYLANDS-Large Japanese flower of spreading form; florets long and graceful; colour very deep pink. Pinch early in March, and take second crown had,

1149. GOLDEN WONDER (Jap.)-A solid flower of extra large size and good form, the petals are long, broad, very stont, and slightly toothed at the extremity, making up a very full exhibition flower of very great merit; colour a beautiful clear golden-yellow, F.C.C. 5s.

1150. G. BROCKMAN-Large Japanese flower, with long florets; colour brilliant amaranth, with silvery reverse. Natural crown bud. Plants, 5s.

1151. GOLDEN TROPHY-An American of great promise. A large and bandsome bloom, full, incurving, and nearly globular; clear yellow, strong and healthy foliage; plants 23 ft. in height; described by the raisers as a most valuable variety. Plants only, 6s.

1152. H. J. PARK (Jap. Inc.)-This is another magnificent introduction, and sure to take a foremost place amongst exhibition varieties; the colour is yellow of a particularly rich shade, the florets of broad width; a very promising solid flower; good habit. First-Class Certificate. 5s.

1153. JAMES CORNFORD-Large Japanese Reflexed, with florets of medium width and good substance; colour a rich shade of cherry-carmine. Pinch early, and take first erown bud.

1154. J. H. WOODFORD (Jap. Inc.)-A deep massive incurving Japanese of splendid form and substance, the florets are of extra width, building up a superb exhibition flower; the colour is a lovely pink, shading off to almost white in centre; plant of good habit. First-Class Certificate. 5s.

1155. LADY NORTHCOTE-A first-class exhibition variety; blooms large, purest white, with a blusb base, very pleasing colour; the blooms are deep, massive, and of good form; from the early bnd it comes white, must be erown bad. 7s. 6d.

MRS. CHAS. KEYSER-A magnificent Japanese incurved, with pretty florets, curling and twisting in a most unique manner; large full flower; colour a rich canary-yellow; medium

habit. Pineb early in March, and take second crown bud. Plants, 6s.

1157. MRS. D. DEWAR-An immense Japanese flower of the most chaste description, with very long and drooping florets of great substance, prettily incurving and curling at the tips. Awarded Silver Medal for best seedling at Stirling Show, 1896. Of the purest white, and a grand acquisition to the exhibition varieties; strong grower, retaining its foliage well down to the pots. Plants, 6s.

1158. MRS. FISHER-Another levely Japanese incurved, with long narrow florets forked at

the ends; colour beautiful deep bronze. Pineh early in March, and take second bud. Plants, 5s. 1159. MRS. JOHN COOPER—A very striking crimson-red sport from the popular Japanese incurved Lord Brooke, possessing all the good characteristics of that fine variety. For exhibition it will be extremely serviceable, as the colour is badly wanted, while for market work it is invaluable for cutting late in the season. Special quotations for large quantities for market. Plants, 3s. 6d.

1160. MRS. K. A. LETTIS-A spreading flower of large proportions, with long florets of medium width; colour pretty shade of pink. Pinch early, and take second crown bud. Plants, 5s

1161. MRS. CATERER (Large Anem.) - A useful and pleasing addition to the large Anemone section, of the purest white; guard florets and disc alike in colour. For exhibition or as a decorative plant, this variety is equally well suited. A flower of the most refined and chaste description. Plants, 2s 6d.

1162. MRS. MALING GRANT-Tbis splendid novelty is considered the prettiest and most distinct introduction of the season; the blooms are deep and full, much in the way of Chenon de Leche, but of greater deptb : the bloom has a centre of yellow fawn, shading to salmon-apricot at

the base. Second crown had. 7s. 6d.

MRS. T. D. HATFIELD-A splendid compact bloom of good size and solid build;

colonr a beautiful clear yellow, and never reflexes. Height, 3 ft. 1s. 6d.

1164. MRS. J. B. BRYCE-A seedling from G. C. Schwahe, and it partakes much of the form, babit, and good growth of that variety, but the blooms are larger, yet have a more refined appearance; colour bright crimson, with an old gold reverse. Crown bud, good culture. 7s. 6d. 1165. MISS GRAHAM—Large Japanese flower, with long florets incurving and pointed;

eolour a beautiful light salmon-pink, passing with age to blush; strong grower. Pinch middle

of April, and take second erown bud. Plants, 5s.

1166. MISS HETTY DEAN-A fine addition to the Japanese incurved white varieties, with broad florets, and likely to be of great service on the exhibition table. Stop mid-March. Plants, 5s.

1167. MISS DOROTHY FOSTER (Inc.)-Deep silvery mauve, large size, and well

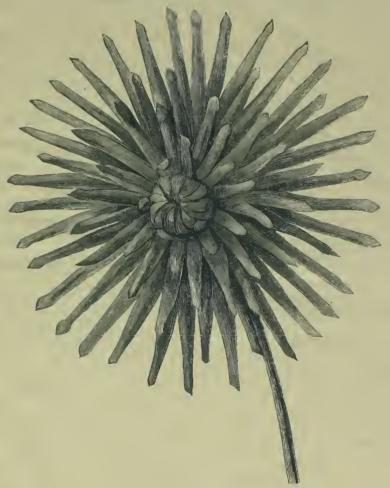

incurved. 5s. 1168 MISS VIOLET FOSTER-Silvery violet, large full flower; strong grower. Second crown hud. 5s.

В

- 1169. MISS FURSDON-A very striking variety of large size. The colour is a clear amaranth rose, with a silvery reverse. The outer florets are rather long, and droop in a charming manner; good full blooms of handsome appearance. Second crown bud; good culture. 5s.
- 1170. MISS LOUISE D. BLACK (Inc.)-Reddish-orange; solid compact bloom. Two Certificates. Plants, Is.; cuttings, 8d.
- 1171. MABEL MILLER (Jap. Anem.)-A very desirable addition to the Japanese Anemone section, being a bloom of large size; guard florets very long and pure white, with well-formed disc, yellow tipped white. Pinch early and take second bud. Dwarf hebit. Plants, 2s. 6d.
- 1172. MR. A. NEWELL-Large and massive flower of a distinct shade of rosy-purple, with silvery reverse; a very telling flower. Late erown bnd. Plants, 5s
- 1173. MR. W. STANDRING-A beautiful Japanese flower with broad florets; colour a rich ehestnut-red, and striking golden reverse; very promising. Strike late and take natural crown bud. Plants, 5s,
- 1174. MR. HUGH H. GARDINER (Jap. Auem.) Another pretty Japanese Auemone of large size, with deep rose guard florets, and disc high, tipped with gold; fine exhibition variety. First-Class Certificate. Plants, 3s. 6d.
- 1175. MASTER H. TUCKER-A very massive exhibition flower, with stiff creet florets of much substance; colour rich bronze, finshed with red; strong grower; dwarf habit. Plants, 5s.
- 1176. MONS. DESBLANC Large incurved flower of deal form, broad petals nicely incurving; colour rich buff, shaded rose; very distinct. Pinch early in March, and take second bnd. Medium habit. Plants, 2s. 6d.; cuttings, 1s. 6d.
- 1177. MIGNONETTE-A grand novelty, the most handsome variety of this class ever raised, surpassing all other plumed varieties; the thread-like florets are pale yellow in colonr, tipped bronze, twisting and curling nto a lovely globular head. First-Class Certificate. 2s. 6d.
- 1178. NEVA TEICHMANN-A very ste'late Japanese of the very deepest crimson, probably the darkest variety in existence. Crown bud about 12th August. Plants, 6s.
- 1179. PELMO-Bloom large Japanese, with semi-erect central and pendulous outer florets; colour a tender pinkish-fawn, the petals being tipped with gold; a most refined and beautiful variety. Crown bud. Plants, 5s.
- 1180. ROYAL SOVEREIGN-A very large spreading Japanese flower, with florets of immense length, incurving at the tips. Colour deep rich yellow; prononuced by all who have seen it to be a variety of great promise. Awarded First-Class Certificate, N.C.S., 1896. Plants, 6s.
- 1181. R. PENNINGTON-Large drooping Japanese, with broad florets of great length; colour a striking shade of light crimson-cerise. Pinch middle of April and take first bud. Plants, 5s.
- 1182. RENA DULA-Of the true incurved form; colour bright silvery-rose, with silverywhite reverse. This is a variety of great promise for exhibition; excellent dwarf habit First-Class
- 1183. TOFANA-A very large and deep Japanese; petals erect, giving the bloom a deep and globular appearance; colour deep amber-red, with bright yellow reverse; a striking variety. Crown bud. Plants, 5s.
- 1184. THE EGYPTIAN-An enormous incurved flower of great substance, with long petals, beautifully incurving, and rounded at the tips; colour deep velvety-red and quite distinct; good dwarf habit. Late buds should be selected, and four or five flowers allowed to each. Plants, 1s.; cuttings, 8d.
- 1185. VIOLET KING-A charming flower, with broad petals of pink, edged and striped violet; n very distinct variety, of good habit. 1s. 6d.
- 1186. WILFRED H. GODFREY-A distinct variety of great merit; the blooms are large, rich yellow, heavily shaded bronze-red; florets wide and of good substance, incurving to centre, except outer ones, which recurve. Crown bud and good culture. 7s. 6d.
 1187. WHITE ROCK (Jap. Inc.)—Long broad florets of great substance and beautifully
- incurving. 1s.
 1188. W. H. MORTER-A very useful Japanese variety; colour red striped golden, with golden reverse; very dwarf habit. Natural crown bud. Plants, 5s.
- 1189. WHITE SWAN-May best be described as a large and improved White Louis Boehmer. The blooms are of the purest white, and are beautifully covered with hurs, making it at once an attractive and lovely variety. 3s. 6d.; cuttings, 2s. 6d.
- 1198. YVONNE DESBLANC-A very large pearly white of the truest incurved form; petals of fine substance, neatly incurving, with rounded ends; very dwarf habit. Comes good on any bad. Plants, 2s. 6d.; enttings, 1s. 6d.

NEW CACTUS DAHLIAS FOR 1897.

RAISED AND HIGHLY RECOMMENDED BY H. CANNELL & SONS.

AUSTIN CANNELL-All those interested and devoted to Cactus Dahlias well remember the admiration created when we first exhibited the variety Robt. Cannell at the Crystal Palace several years ago, which was then decidedly the finest newly-raised cactus-shaped variety, and surpassing the good old Juarezii, that we re-introduced. It is, therefore, with much pleasure that we announce our success in having raised the above named, producing its fine spiky-formed petals to a still higher degree of perfection, and we anticipate it to even surpass the engraving. It is certainly the finest variety both in shape and habit yet seen, and will help to carry this class to a much higher degree in the estimation of all lovers of flowers. Of a many pink or rose colour, very

pretty. 10s. 6d.

G. DAYRELL REED—Of a charming rosy red shade, quite an attractive colour; petals very pointed; a general favourite. 4s. 6d.

MISS DUTHIE—Of the loveliest and richest colour of old gold in the whole family of Dahlias, quite a pure self colour, and admired by all. 4s. 6d.

MRS. E. CANNELL-We anticipate this to prove the prettiest of all this class-clear yellow with three parts the length of each petal being shaded with a most pleasing tint of light soft red; quite Cactus shape; distinct. 7s, 6d.

MRS. H. POMEROY-Ground colour yellow, but at the base of florets and towards the

points beautifully rayed with a rosy mauve shade; very distinct and pretty. 4s. 6d.

MRS. WYLLIE-Quite a new shade of fawn-yellow, exceedingly pretty, well-pointed petals; certainly the best in this colour. 4s. 6d.

POMPON VARIETY.

ILLUMINATOR-For cutting purposes and general decoration this cannot fail to be of great service, flowering most abundantly, and of a more decided red shade than Cannell's Gem; long useful flower stalks. 4s. 6d.

NEW CACTUS DAHLIAS FOR 1897.

VARIOUS RAISERS.

AFRICAN-Deep velvety-crimson, outer petals fiery-red; every petal much curled; stems long; very free, 4 ft.

BRIDESMAID Delicate shade of rose, passing in centre to pale primrose, extreme point of petals showing a tinge of green; well formed; excellent. 3 ft.

CINDERELLA—Bright purple, deepening to a rich velvety shade in centre; a beautiful

flower; early. 4 ft. CYCLE—Rich ruby-red, paler at tip of florets; quite distinct; one of the best yet raised; long

talks and every bloom perfect; much admired. 5 ft.

DR. JAMESON—Velvety-crimson or maroon, slightly tinted purple towards outside of flower; florets quite pointed. 4 ft.

ENSIGN-Bright carmine or crimson-lake, of good size; fine form; a free flowering variety that will become a great favourite. 5 ft.

FLOSSIE—Pale coral pink, tinted towards centre with primrose; a pretty combination of colours; exquisite flower. If ft.

HARRY STREDWICK—Rich, fiery crimson-maroon; long narrow pointed petals; fine for

exhibition or cut flowers. 4 ft.

JESSIE Palest pink, shading to white; a beautiful variety, of dwarf, sturdy growth. 2 ft. MRS. ALLHUSEN-A pretty shade of deep rich rose, passing to ereamy-white; much admired; quite distinct florets. 5 ft.

MRS. KINGSLEY FOSTER-Rich golden-amber, very clear and distinct; true cactus shape; useful for cut flowers or exhibition, 3 ft.

NIL DESPERANDUM-Long twisted petals, dark orange, shading off to a darker colour,

almost red 5 ft. 3s. 6d. PRINCESS ENA-Yellowish-orange or amber in the centre, outside a lovely tint of orange-

red; one of the prettiest, deeply-built flowers. 3 ft. PURPLE KING-Rich clear purple, free and erect flowering, quite distinct; fine for cutting.

STARFISH—Pure orange-searlet or coral red, without shading, every petal perfectly curled and pointed; for exhibition it will be indispensable; has every good property. 4 ft.

THE QUEEN-A pure snow-white eactns, beautifully pointed and twisted; long stiff stems free flowering. 4 ft.

7s. 6d. each, except those priced.

NEW DAISY.

BELLIS PERENNIS, THE BRIDE-This Daisy is so unlike all others of its family; its whole growth is large, truly gigantic, fine large flowers three times the size of the ordinary old white, even when grown in pots in a cold frame in Winter and Spring. It has stems 10 inches long, flowers pure white and beautifully serrated, very full and striking. For bedding it is altogether far away from others, and pronounced by all to be a great acquisition. It should be in every garden, however small. It flowers all through the Antumn, and in Il. C.'s opinion it is of great value. 3d. each; 2s. 6d. per doz.; 18s. per 100.

THE GARDENERS CHRONICLE, 23rd May, 1896 .- TEMPLE SHOW. Mesers. Cannell & Sons had furnished a bed ontside with their fine pure white flowered Daisy, The Bride, that made an attractive mass of snowy flowers.

THE COMING PLANT

JOURNAL OF HORTICULTURE, 21st May, 1896.—TEMPLE SHOW. A large display of flowers came from the Narseries of Messrs, H. Cannell & Sons. First were Gloxinias, large, varied, and well-grown. Then there were spikes of the new Mignonette alba, followed by Caruation Mrs. H. Cannell, and a charming collection of fancy Pelargoniums. Messrs. II. Cannell also furnished one of the outside flower beds with a striking mass of the new Daisy—The Bride.

new Daisy—The Bride.

JOURNAL OF HORTICULTURE, 30th April, 1896.

DOUBLE DAISY (THE BRIDE).—We have received from Messrs. Canuell & Sons flowers of this new Daisy. They are very large and pure, borne on stems ranging from 7 to 10 inches in length. The variety is worth growing in pots for greenhouse decoration, apart from its obvious adaptability for Spring bedding.

THE GARDENERS' MAGAZINE, 16th May, 1896.

DAISY (THE BRIDE) is a very fine form of the "wee modest crimson-tipped flower," and baying regard to its vigorous growth, freedom of flowering, and the large size of the

DAISY (THE BRIDE) is a very fine form of the "wee modest crimson-tipped flower," and having regard to its vigorous growth, freedom of flowering, and the large size of the individual blooms, should become a general favourite for planting in the mixed border. Messrs. Cannell & Sons, by whom the variety has been introduced, send us blooms, which rauge between 1½ and 1½ inches in diameter and have stont stalks 9 inches in length.

NEW GLOXINIAS FOR 1897.

RAISED AND HIGHLY RECOMMENDED BY H. CANNELL & SONS.

MISS TUDOR—Distinct and good, large and well-shaped flowers; white, spotted rosy-red.

MRS. AVORY—White ground with a rose coloured margin; very effective and beautiful.

PRINCE OF WALES—A grand introduction, flowers perfectly erect of the finest form and

PRINCE OF WALES—A grand introduction, flowers perfectly erect of the finest form and substance; large and very freely produced, of a beautiful and effective reddish-crimson shade; good strong flower stems, robust habit, and forming into splendid specimens; fine bold foliage. An Award of Merit.

PRINCESS OF WALES—Of a neat and attractive appearance, and much admired wherever exhibited; medium size but well-formed flowers of a snowy-whiteness, evenly margined on lobes, with a bright orange-crimson shade, thus forming a splendid contrast; for the edging of groups and intermixed with ferns this will be found indispensable.

2s. 6d. cach.

CANNELLS'

NEW SINGLE ZONAL PELARGONIUMS FOR 1897.

ALL OUR OWN RAISING.

KING OF CRIMSONS—Bright glowing crimson, enormous broad flowers of the finest shape and substance; bold trusses, vigorous grower; a grand variety for the winter season.

MRS. POLE ROUTH —
Mottled salmon, deeper towards centre for correct formation of flowers and perfect habit; we consider this the finest variety we have yet sent out. We exhibited at all the principal Chrysanthemum Shows during the past season, and owing to its exquisite shape and pleasing colours was the most generally admired.

SIR HENRY IRVING— A soft rosy-unagenta of a pleasing and attractive shade, grand flowers of perfect formation, tree flowering, dwarf habit; a decided acquisition.

MRS. WALTER PAR-TRIDGE—Producing the largest flowers in the salmon coloured section, of an intermediate shade of soft salmon, occasionally mottled during the winter months; enormons trusses; habit good.

SIR JAS. KITSON—The boldest flower in the purple-magenta class, large distinct white centre, good bold trusses, and freely produced; good habit; a grand addition.

THE GARDEN, 23rd May, 1896, Temple Show

Messrs. Cannell staged a collection of remarkably good *Pelargoniums*, and a collection of *Gloxinias*, large healthy plants with fine foliage and a great profusion of excellent flowers; also some fine *Calceolorius* and *Cannus*, the former being especially brilliant and perfectly clean and also free flowering.

MISS ETHEL WILSON-Shaded white ground with a deep reddish salmon coloured centre; fine bold flowers; dwarf habit.

3s. 6d. each: the set for 20s.

GARDENERS' CHRONICLE, 9th November, 1895.

Messrs. H. Canuell & Sons had a large table magnificently furnished with sprays of Zonal Pelargoniums of bright colour. -N.C.S. Show

"A.D." in JOURNAL OF HORTICULTURE, 27th August, 1896.

When the other day looking through the really marvellons collections of Pelargoniums which Messrs. Cannell & Sons have at Swanley, where they seem to be in perpetual bloom, I could but think a sight of these by gardeners and amateurs generally would wonderfully stimulate their culture. Some have flowers so large that even Mr. Cannell's watch laid over them still left a margin of petal beyond. Colours, too, are indescribable and exquisitely beautiful, and all, too, first rate bloomers. It is only when looking over a great collection, such as at Swanley—literally one of the finest in the world—that we can realise the great improvements which have been made,

The GARDENING WORLD, 22nd August, 1896.

It would not be too much to say that amongst all the subjects which receive such enlightened and skilled attention by Messrs. H. Cannell & Sons at Swanley, Zonal Pelargoniums occupy one of the foremost places, even at the present time, although it may be regarded as being between the seasons. The show is magnificent, and admirably illustrates the pitch of excellence to which the popular flower has been brought by this enterprising firm. The size of the bloom trusses is astonishing, as is also that of the individual pips It may well be imagined that a house such as this affords a brilliant spectacle. We were informed by our guide that all the varieties in front of us could be confidently recommended for winter work, as no variety is sent out until it bas been tried both as a summer and winter bloomer. Our visit more than ever convinced us that, after all, the good old "geranium," as so many cottagers love to call it, is as yet unsurpassed for decorative value, and that in Messrs. H. Cannell & Sons we have some of its most skilled and successful cultivators and improvers.

NEW DOUBLE AND SINGLE VARIETIES (CONTINENTAL).

This class is now assuming such characteristic features and pleasing colours that due prominence should be given them, not only for the distinct and novel departures, but also for the pretty shades of colours, regular markings, and decided improvements; the Souvenir de Mirande type is well worthy of being grown by all lovers of the Zonal.

SINGLES.

DR. MARMOTECK-This variety is very distinct owing to its colour and marbling, both flowers and trusses are large, the lower petals being violet-tinted carmine, marbled white towards the centre of flowers, upper petals white marbled violet edgin off to a carmine shade.

LA VIENNE—Vigorous habit; trusses and flowers large; pure white veined and marbled red.

the edges being of a bright red.

MME. CADEAU—Vigorous and free flowering; fine flowers, pure white, entirely marbled.

spotted and blotched bright magenta.

MME. CORALIE BAJAC-Grand trusses; a most exquisite combination of colours, the entire centre of each flower is white, and then gradually attaining to a soft violet, deepening to a bright carmine at edges of petals.

1s. 6d. each.

DOUBLE, PICOTEE EDGE.

MME. ALCIDE BRUNEAU-Splendid habit and growth; large trusses and long flower stalks; large, well open flowers, undulating petals, milky white, regularly and evenly edged, bright rose, toning off to a rosy-lilac tint; quite distinct. 2s.

NEW REGAL PELARGONIUM.

PERSIMMON-A sport from the well-known and much admired variety Ed. Perkins, and we have no doubt it will soon claim universal admiration owing to its pleasing and intense orangescarlet shade of colour; flowers very massive and bold, of thick leathery substance and beautifully undulated, from 7 to 9 petals in each individual flower; euormous trusses, vigorous but dwarf spreading habit; a real acquisition. Awarded Two First-Class Certificates. 5s. each; 42s. doz.

GRAND AND DISTINCT NEW PANSIES.

SENT OUT AND HIGHLY RECOMMENDED BY H. CANNELL & SONS.

DUKE OF WELLINGTON—A magnificent deep lemon yellow self, with bold well-formed dark purple blotches. This flower has fine colour, good substance, and almost perfect form, and sure to become a great favourite.

WATERLOO-An immense creamy-white self, with splendid massive glossy, violet-hlack blotches; a grand competition flower.

THE IRON DUKE-This is a fine clear lemon yellow self of immense size, with large violet-purple blotches; one of the prettiest coloured flowers ever offered.

SIR JOHN COLBORNE—Large massive splendidly formed purple hlotches, margins cream, upper petals purple, edged white; a grand flower.

GENERAL PICTON—Large reddish-purple blotches, margins golden yellow, suffused reddish purple; upper petals golden yellow, edged purple.

QUATRE BRAS-Another beautiful white self, with fine circular blackish-purple blotches, and quite distinct from Waterloo.

DUKE OF BRUNSWICK—This is a flower of immense size, with large purple blotches; margins white, streaked rosy-purple; top petals white, branded purple, edged white.

Extract from THE GARDENER'S MAGAZINE.

Some Pansies of exceptionally clear and bright colours have been sent us by the raiser. All the flowers were of fine shape, good size, and on stout long stems; Duke of Wellington is clear lemon-yellow, with violet-purple colouring; the Iron Duke is somewhat similar, but of a deeper colour; Sir John Colborne is very handsome, a rich golden yellow colouring surrounding the large areas of reddish purple that shades at the margins to violet-purple; Waterloo has narrow margins of pale buff surrounding the splendid violet-black patches. These new Pansies are very pretty, and will no doubt in time become great favourites.

NEW AND CHOICE FERNS,

ADIANTUM ELEGANS CRISTATA - A prettily crested form of A. elegans, being of free growth, and the fronds semi-erect; it should prove a most useful and distinct variety. 2s. each. ADIANTUM TENELLUM - A graceful form of the cuncutum type, of free and compact growth. A desirable variety to our list of Maidenhair Ferns. Award of Merit from R.H.S.

ASPLENIUM DRUERYII-This splendid novelty was obtained from A. Baptistii, but is quite distinct from that variety, the pinnœ terminating in a broad convolute crest. This is quite a new development in Aspleniums, and should prove a modern acquisition. First-Class Certificate

from R. H. S. 3s. 6d, each,

PTERIS BIAURITA ARGENTEA-A free-growing Fern, closely resembling P. argyrea, but, unlike that popular variety, the frouds are of a firm texture, which renders it much more useful for decorative purposes; and, as it comes true from spores, should prove a useful addition to our arket plants. Award of Merit from R.H.S. 2s. each.
PTERIS SERRULATA GRACILIS MULTICEPS — A slender form, producing market plauts.

myriads of gracefully arched fronds; beautifully tasselled. A splendid variety for suspending in

pots or baskets. First Class Certificate from R.H.S. 2s. 6d. each.

PTERIS WIMSETTII—This is unquestionably one of the most useful Pteris yet introduced. It is beautifully crested of a pleasing colour, and quite distinct from any other variety. As a decorative Fern, and for market purposes, it will stand unrivalled. Award of Merit from R.H.S. 1s. 6d. cach. (Special price for quantities.)

CROTON MAYII-This may be described as a narrow leaved variety of Weismanii. It is of free growth, the long narrow leaves being beautifully marbled and spotted with golden yellow. As a table plant it is one of the finest Crotons we have. Award of Merit from R.H.S. 3s. 6d. and

THE INVALUABLE NEW ROSE.

WHITE MARECHAL NIEL—Highly recommended by the introducer as a first-class novelty. Stock plants have flowered heautifully while in our Nursery during this Autumn, and we are convinced this variety will give great satisfaction. Dwarfs, in pots. 5s. to 7s. 6d.

SAINTPAULIA IONANTHA RUBRA,

SAINTPAULIA IONANTHA RUBRA-New variety of this neat Gesneriacea, with deep lilac-red flowers, and which comes true from seed. Although this colonr may not by some be considered quite equal in beauty to that of the type, the first new departure from it will still interest everyone who has seen or grown this charming little plant. 2s. 6d. each.

NEW AND RARE HARDY PLANTS.

ANEMONE LORD ARDILAUN-A gigantic Honorine Joubert, perhaps a little taller stronger stems, larger foliage, and of great texture; has also a double row of petals. All desiring a splendid border plant should have this. 2s. 6d. each.

ANEMONE PULSATILLA ALBA-Flowers white, produced in great profusion on short stems; cusily grown, and well adapted for the rockery and front row of the border. 3s. 6d. each.

ANEMONE SYLVESTRIS FL. PL.—Flowers perfectly double and pure white, are large and resembling Chrysanthemums. A most beautiful and useful herbaceons plant, well adapted for cutting, mixed borders, and margins of shrubbery. 3s. 6d.

AQUILEGIA STUARTI-Very dwarf flowers, large and much expanded; the sepals of a deep rich blue with a pure white corolla. A finer plant than A. Glandulosa, and easier grown.

1s, 6d.

ASTER PURPURIMUS-Dwarf, compact habit, forming complete bouquets of deep purple

flowers, blooming early in autumn. 1s.

COREMA COURADI-A distinct and beantiful shrub; it forms a much branched, spreading bush, 2 ft. high, having dense, short, needle-like foliage; the flowers are of a pleusing shade of

purple, early in spring. 2s. 6d.

ASTILBE CHINENSIS—Distinct from all others of this family; erect branching stems, terminating with pretty feathery plames of pink flowers; found of a moist situation. 2½ ft. 3s. 6d.

ACTINELLA GRANDIFLORA-Close growing lanccolate leaves, forming rosettes and

large yellow flowers on short stems; easily grown, quite hardy. 2s. 6d.

ADONIS WALZIANA—Flowers large, yellow, in early spring. 2-3 ft. 3s. 6d.

ANEMONOPSIS MACROPHYLLA—Flowers produced in loose racemes, and are large. exterior sepals purple, interior sepals lilac, summer-flowering; prefers shaded position in loamy or peaty soil. 3s. 6d.

CIMICIFUGA JAPONICA—Large ornameutal foliage, and long compound racemes of white flowers. 3-4 ft. 1s. 6d.

CHRYSANTHEMUM MAXIMUM (G, H, SAGE)-()nc of the most distinct hardy Marguerites; flowers large and abundant, pure white; florets deeply notched; habit good.

DENDROMECON RIGIDUM—A very interesting and pretty Californian plant of shrubby habit, belonging to the Poppy family; flowers large and very strong, of a bright yellow colonr; summer blooming. $2\frac{1}{2}$ -3 ft. 7s. 6d.

GERANIUM SANGUINEUM ALBUM-A fac-simile of the ordinary U. Sunguineum, but with pure white flowers; prostrate growing; dense mass of foliage literally covered with white flowers; very free growing. 2s. 6d.

GEUM HELDRECHI—Large, rich. orange-coloured flowers in late spring, growing vigorously

iu almost any soil or situation. 1 ft. 1s.

GERBERA JAMESONI-Although not quite hardy, it may be grown as a pot plant; flowers are of a bright orange-scarlet colour, and produced in great profusion. $1\frac{1}{2}$ ft. 5s.

GNAPHALIUM GRANDICEPS-(Australian Edelweiss)-A remarkable and beautiful

HEMEROCALLIS AURANTIACA MAJOR-Magnificent new species; one of the finest plants for ordinary garden enlture introduced for many years. The habit of the plant is very vigorous, the foliage rises to a height of 2 ft., and is of a deep green, the flower spikes are strong. bearing as many as 12 flowers in succession, which are very large, some 7 to 8 in. across, of a rich orange yellow, quite distinct. The plant is perfectly hardy, and we have every confidence in recommending it. The plant is described and figured in the Gardener's Chronicle for July 20th, 1895. where on page 62, Professor Baker states that it "is the finest Hemerocallis I have seen." First-Class Certificate, Royal Horticultural Society. 3s. 6d. each.

HEDYSARUM MULTIJUGUM-The most beautiful of the family; pretty pea-shaped

flowers of a bright crimson-purple colour; quite hardy and perennial. 1s. 6d.

HYPERICUM MOSERIANUM TRICOLOR—Λ very handsome shruhby plant; leaves greenish yellow on green ground; margined reddish yellow flowers with scarlet stamens. 3s. IBERIS SEMPERVIRENS var. "LITTLE GEM"—Of close compact habit;

flowers white; well adapted for planting in sunny parts of the rockery. \(\frac{1}{4}\) ft. \(\frac{1}{8}\).

INCARVILLEA DELAVAYI—Flowers are produced in long spikes, trumpet shaped, resembling those of Allamanda; of a bright rose colour, 2 inches across; a splendid introduction. 21 ft. 5s.

LOBELIA, LORD ARDILAUN-The finest yet raised, and the most richly coloured; a glistening crimson-scarlet. 3 to 3\forall ft. 1s. 6d.

SCABIOSA CAUCASICA ALBA—A perpetual bloomer, commencing in June and continuing until cut down by the frost; flowers of the purestwhite. 2½ ft. 2s. 6d.

SIDALCEA MALVÆFLORA LISTERI—Hardy, easily grown, splendid for cutting, and of a most charming shade of colour—flowers of a most lovely satiny pink; distinct from all others in cultivation. 2s. 6d.

SIDALCEA MALVÆFLORA LISTERI.

ILLUSTRATED

LORAL GUIDE

FOR 1897.

Our system of transmitting Plants, Cuttings, and Seeds through the post to all parts of the world, is emphatically pro-

nounced, by all who have had experience of it, to be of the greatest benefit to all lovers of the garden.

Potted Plants at the very lowest price consistent with best strains, correct naming, and size.

> A remittance is requested from unknown correspondents. To all who accompany their orders with Cash we offer liberal treatment.

All Cheques to be made payable to H. CANNELL & SONS, and crossed Martin's Bank. SWANLEY, KENT. Post Office Orders to be made payable at SWANLEY, KENT. Sums under 5s. can be remitted in Stamps.

When a variety of Plants is ordered (except those advertised at a cheaper rate), extra kinds will be presented to partly compensate for Carriage.

THE TRADE SUPPLIED ON OUR USUAL TERMS.

Morticultural + Establishment,

SWANLEY, KENT.

SEED FARM, EYNSFORD

(L. C. & D. Railway), both adjoining the Stations.

few Important words to all Friends and Customers.

The proximity of the rail to the nursery -the London, Chatham, and Dover Railway Co .- is worthy of attention, as this line, being in immediate connection with all the others out of London, enables us to ensure rapid transit to all parts.

The whole machinery of our nursery is constructed to carry on a large and rapid trade of the best and most serviceable plants and seeds in cultivation, at the very lowest possible prices consistent with quality, and we heg that every lover of the Garden will

them, and we promise that they shall not depart without seeing something bighly interesting.

Although every care will be taken in the racking and sending of plants, seeds, &c., risk of every description must be borne by the ourchaser immediately they are delivered

to the Railway Company.

Every article is charged at the very lowest price, therefore no credit can be given. Our object is to give the ready-money huyers the advantages they are really entitled to. It may happen that prices lower than ours may sometimes be quoted. This invariably means false economy in a variety of ways-good things must be looked after by good men, who must be fairly paid, and good strains are only procured by unceasing labour and care.

Full instructions as to the proper mode of forwarding must accompany each order, as it is calculated to expedite transit of goods, and save vexations mistakes. All goods are advised the same day as forwarded, and the invoice posted as soon as possible afterwards.

Say by what rail. Please to write the address plain and in full on each order. No eomplaints entertained unless made immediately on receipt of goods. 2.3 A

The greatest care is exercised, and utmost liberality shown when the selection of sorts is left to us.

It is particularly requested that all small orders be accompanied with remittance to avoid the necessity of Booking.

Returned Empties .- As all Carriers refuse to receive these nuless prepaid, and they are usually so much damaged during transit that when they reach us they are nearly useless, all packing material will be charged as low as possible, and CANNOT BE ALLOWED FOR IF RETURNED.

We have taken more prizes for Fuchsias than any other Firm at the great London shows, and will send every particular how to grow, show, and get the first prize for them, for three stamps.

All orders by post will be dealt with precisely as if given personally. As the season advances, and the New Plants become cheaper, so are the prices lowered accordingly; and those who send above their value will have additional plants put in to make up the full amount.

It often happens that we are sold out of rooted cuttings of some varieties, and plants are shaken " out of pots to complete orders, consequently plant price must be charged.

When plants are publicly advertised by us, the usual trade allowance will not be made.

To avoid delay and disappointment, all business communications must be sent direct to the firm, addressed "H. CANNELL & SONS," otherwise they will remain unnoticed. Telegraphic address. "CANNELL, SWANLEY.'

All Cheques to be made payable to H. CANNELL & SONS, and crossed Martin's Bank, Swanley.

As the numbers shown against the plants herein are altered annually, it is particularly requested that the Edition of the Catalogue from whence such numbers are selected be quoted in ordering, so as to avoid mistakes.

We have every facility for keeping a large stock of everything enumerated in this Catalogue, and are therefore determined to adopt the system of quick sale and ready money All who enclose remittances will be most liberally dealt with.

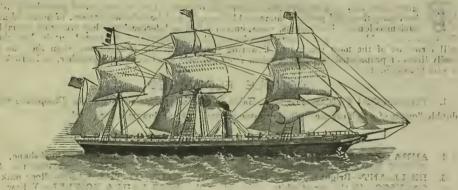

The Home of Flowers is open for business, &c., from 6 o'clock a.m. until 6 p.m., and 5 o'clock p.m. on Saturday. No visitors admitted on Saturday evenings and Sundays. Closed on all Bank Holidays.

Customers are particularly requested, when sending orders for friends (with their own), to do so on separate papers, with each address written plainly, to prevent mistakes.

WHEN SPECIAL QUOTATIONS ARE GIVEN, CUSTOMERS ARE KINDLY REQUESTED TO MENTION SUCH.

CANNELL &

Importers and Exporters of all New and Choice Florists' Flowers to and from all parts of the World.

FOREIGN AND COLONIAL NOTICES.

Plants and Seeds are despatched to India through the Indian Parcel Post, and also by the

ordinary mail. Customers will kindly notify by which service they wish their parcels sent.

In America: Australia, India, and Cape Town, the general expression amongst both the trade and amatcurs is "None are so successful in exporting plants as Cannell & Sons," consequently we need hardly say our trade has increased to a very great extent.

When Plants are received abroad let them lie in milk warm water for a half-hour, without removing the packing from the roots; then unpack and put in pots, according to size being careful to shade from the sun until they make fresh growth.

ALL ORDERS MUST BE FULLY PREPAID.

"CANNELL, SWANLEY, ENGLAND." Telegraphic address,

1-2

OUR FOREIGN TRADE.

E have now so perfected the system of sending plants and seeds into the most remote parts of the world that success is no louger an uncertainty.

AUSTRALIA, NEW ZEALAND, INDIA, AND CHINA.

S there any difficulty in getting plants and seeds out alive and in good condition to the most distant parts? No, none whatever. We have exported thousands of cases with far more success and less expense to those furthermost parts than has ever been done before. The main thing to ensure success is to let us have the order early, giving us time to prepare the plants, and to send at the exact and best time, and in all cases the way of packing had better be left entirely in our hands. Our post system for most things is certainly preferable, but such as Azaleas, Camellias, Fruit Trees, &c., should be left to us. Chrysanthemms we grow many thousands, especially for foreign trade; and there is hardly a show but what the plants that we have sent out are not figuring most prominently.

IMPROVED PLANTS.

Nothing is hailed with more joy by all lovers of Florieulture than gradual and marked improvement in our Florists' Flowers from year to year. Changes without attractiveness are of little or no value; new colours and stout dwarf growtb are qualities immediately sought for. We should be glad to hear from any amateurs or gardeners baving new and improved varieties of plants (also vegetables, see Seed Catalog...e) enumerated in our Foral Guide; they must be a decided advance on all existing kinds.

ABU TILONS.

GO grow them they only require the ordinary cultivation of the Fuehsia, and if placed in a little heat early they will produce iunumerable quantities of bell-shaped flowers, of beautiful and various colours. For baskets, vases, button-boles, and decoratious, they are most valuable. They continue to bloom in an ordinary greenhouse all the winter, and if planted out in May they will form one of the most continuous flowering shrubs until the frost comes, when they can be easily lifted or propagated by cuttings taken from the hard wood early in September, and struck in a mild bottom heat.

DOUBLE FLOWERED.

1. THOMPSONI FLORE PLENO—Habit and foliage the same as the old Thompsoni; very double flowers of a rich orange, veined crimson; novel; for cut flowers a gem. 9d.

GENERAL COLLECTION.

- ANNA CROZY-Dccp pink, sbaded lilac.
- 5. BOULE DE NEIGE-White.
- BRILLIANT-Bright red, free; dwarf.
- CALYPSO-Of the purest white. 1s.
- CAPRIVI-Deep red shade.
- 9. CHRYSOSTEPHANUM (Couronus d'Or) -Distinct bright yellow, fine form.
- 10. CHRYSOSTEPHANUM COM-PACTUM- Dwarf and free, bright yellow.
- 11. CHRYSOSTEPHANUM GRANDI-1s. FLORUM-Golden-yellow sbadc.

- 40. SELLOWIANUM MARMORATUM
 —Most lovely foliage, 1s.
- 41. SAWITZI More variegated than Souvenir de Bonn, 1s, 6d.

ACHIME'NES.

HESE consist of small, scaly corms or tubers. Shake out the dry soil any time during the winter, and about March or April place three or four in a longitudinal position in a 6-inch pot, just below the surface, put them in a warm temperature, free from cold draughts, as they like plenty of heat, water gently until they get iuto full growth, and after flowering gradually dry them. The ordinary rich soil suits them, and if well cared for, they are splendid things for decoration all through July, August, and September. One of our 100-feet houses has again been a splendid sight. Tubers, from October to March, 3d.; our selection, 2s. 6d. per dozen.

- 1. AMBROSE VERSCHAFFELT-1s.
- 2. ADMIRATION-1s.
- 3. AZUREA

The prices quoted are for potted plants.

AGE'RATUMS.

MOST nseful class of bedding plant, flowering from June until October, and varying in height from 4 to 14 inches, the flowers are lasting and do not fade in colour, but continue the same throughout the flowering season.

- 1. BIJOU.
- 2. CANNELLS' DWARF—The dwarfest, 6d. each; 4s. per doz.; 20s. per 100, April, 16s. per 100.
- 3. IMPROVEMENT.
- 4. JOHANNAS PFITZER—A rich shade of colour.
 - 5. PERLE BLEU-Taller than No. 2.
- 6. SWANLEY BLUE—6d. each; 4s. per doz.; 20s. per 100; April, 16s. per 100.
- 7. ENFANT DE PARIS—The best white variety; dwarf, bushy, and effective.
- 8. TAPIS BLANC.—Dwarf and compact, white flowers; useful for massing.
- 9. THE ZOO. Habit compact and dwarf, bright shade of blue. A fine variety.
- 10. LE GEANT—Adapted for the centre of large beds and other prominent positions. Good strong habit, free flowering, and a rich blue tint.

All those not priced, 6d. each; 3s. per doz. Rooted little plante, 1s. 6d. per dozen.

Seeds, 3d. per packet.

UR bed of seedlings last year was again splendid. Planted in a good open situation, with deep rich soil, they would be sure to give a charm in every garden. Seed from this superb collection, 6d. and 1s. per packet.

So good are they that we keep no named kinds, but we have a quantity of splendid unnamed seedlings that will be sure to give satisfaction. It is impossible to find a more distinct selection, eonsisting of the richest coloured selfs and the most beautifully striped. 3s. per dozen, small; established in pots, 4s. per doz.

URIC ULAS

HESE are amongst the most charming sights we know of, and are certain to attract notice from those most oblivious to the beauties of flowers, their perfect form and wonderful colouring rendering them the eynosure of all eyes; whilst, in addition to their great leveliness, they possess that great desideratum in flowers-long-lasting blossoms,

Bego'nias, Tuberous.

N character they are very much like a potato. In winter place the tuners on the top of small pots, three parts full of soil, in some warm, dry, light corner of the greenhouse, so that they may be examined every week; and if they are found to be at all mouldy, they must be dusted immediately with sulphur. Out of this hairy-like tuner, as spring approaches, a small red bud will show forth from the centre; then re-pot into a good, rich, light peaty soil, just leaving the hud visible, and in about a fortnight, leaves will begin to unfold, and another fortnight, in a nice warm moist temperature of 60°, blooms will be showing; and a month after this let the plants he shifted into 5 or 6-inch pots. In a month or six weeks the note will be filled with roots and if

month or six weeks the pots will be filled with roots, and if large plants are wanted, shift into a 7 or 8-inch pot, for deep, good firm potting, as per engraving, which it fully illustrates. Be sure that there are no green fly; if so, the hnds will drop off, but it is very seldom that insects attack Be very particular never to allow them to become dry; if so, they are injured for the season, and during hot, dry weather, give two waterings, and they will grow and bloom amazingly. Shade during the snmmer, but admit plenty of air and light-light is one of the great thingsjust shaded from the snn, only kept near the glass; no syringing, but occasionally a good drenching with rain water from a coarse rose; avoid dnst and cold draughts, administer weak liquid manure, and keep them growing as long as possible. Our Real Manure is unquestionably the best; if this is not at hand, diluted cow or horse manure. When the plants show signs of decay, lay the pots on their sides in some dry place, in December, sbake away all soil, and place the tubers on the top of soil in the pots before mentioned. A house can be kept in a blaze of bloom all the

For the full History, &c., of the Begonia, see Book by B. Ravenscroft, 1/2 post free

SEED SOWING AND SEEDLING RAISING .- First fill a pot or pan half full of some substance to make it porous for drainage, then cover over with moss, or something similar, to make a separation, and theu fill to within a quarter of an inch from the top of light, fine-sifted soil, previously charred or hurnt, so much the better, so as to kill all animal and vegetable life; press down level, and on it or indiff, so much the better, so as to kin an animal and vegetable file; press down level, and of it sprinkle the seed; place over this the smallest coating of the very finest cocoa-nut fibre and sea sand or soil, just so as to support the seed in their places. Keep in total darkness, with paper or glass over the top, in a temperature of 60° to 70°; as soon as they show signs of life above the soil gradually expose, and as soon as they have roots a quarter of an inch long, loosen round carefully, make small holes in similar-prepared soil in small pots. They are too small for manipulation; in fact, they must not he handled. Have a wine-glass of water, dip a pencil in it (nse it as a dihher), and by this means these small seedlings will be seed in the small seedlings will read son the handled. these small seedlings will hang to it, and can he easily placed into the hole previously made for them, gently press down, and place in a similar temperature for a few days afterwards; gradually expose and reduce from 60° to 50°, and keep near the glass. The sun, after Fehruary, must not he allowed to shine long on Begonias under glass, as they dislike extreme heat, sun, and cold; they delight in, and must be kept at, a medium temperature.

THE GOLD CLOCK AWARDED TO H. CANNELL & SONS.

THE GOLD CLOCK COLLECTION.

The highest and most important award yet given, and indicating the excellency of our strains.

BEGONIAS WITH SMALL FLOWERS.

214. LOUIS BOUCHET-Brilliant orange searlet; a most useful variety for bedding. 6s. per

WORTHIANA-Orange-scarlet, a favourite for bedding, and admired wherever seen. 215. 6s. to 9s. per dozen. Special prices for large quantities.

We have now a sufficient stock, and have also had sufficient experience of the Begonia as a bedding plant (our lawn beds and borders having been full of the best during the two last summers) to pronounce it as eminently suited to this purpose. Nor are we alone in this opinion; it is the general verdict. Seedlings make a lovely bed; hnt to have all the plauts of one regular height, shape, and colour, a Stock must be propagated as one would Zonal Pelargoniums. They can be propagated just like Dahlias, by cutting the Tubers at the eyes just after they have started. Plant the bulbs ten inches apart, and take them up when the frosts come. This is really all the culture needed. Begonia Worthiana has proved itself a good bedder of the small flowering section.

BEGONIA WORTHIANA.

The best beddin , varie'y in cultivation.

216. CASTANÆFOLIA-Although not a tuberous and purely evergreen variety, it makes a capital bed planted 9 in. from plant to plant. It has a very lovely effect, and, like the others, finds favour everywhere. 9d. each; 6s. per doz.

SEEDLINGS (SINGLE) FROM OUR FINEST NAMED COLLECTION.

No. 1 QUALITY—Selected to colour, and almost equal to named varieties. 12s. per doz.

No. 2 QUALITY—Selected to colour. 9s. per doz.; 60s, per 100 (dry tubers).

No. 3 QUALITY—Selected to colour. 6s. per doz.; 40s. per 100 ,,

MIXED-Suitable for bedding. 20s, per 100 (dry tubers).

Special Prices for large quantities.

SEEDLINGS (DOUBLE) FROM OUR FINEST NAMED COLLECTION.

1st QUALITY-Various colours. 18s., 24s, and 30s. per doz. (dry tubers). 2nd QUALITY—Various colours. 12s. per doz.; 99s. per 100 3rd QUALITY—Various colours. 8s. per doz.; 60s. per 100 MIXED COLOURS-For bedsing. 6s. per doz.; 42s. per 100. SPECIALLY SELECTED-3s. 6d. to 5s. each.

Many of these are equal to the named kinds, and none but a trifle inferior.

We have a stock exceeding in extent and quality to any house in Write us for quotations before placing your orders elsewhere.

We are now raising seedlings by thousands, and the result is, from our scientific hybridising, we have many of the finest (voted First-Class Certificates, and universally pronounced the finest doubles ever raised). We have at least 200,000 various bulbs, and all who wish to introduce a great feature into their Conservatories or Gardens should have our seedling doubles.

WINTER-FLOWERING AND EVERGREEN VARIETIES.

Our 100-ft. house during autumn and winter is a grand sight. No other kind can lay claim to so many advantages, as a winter-flowering plant, as this class, and none are more useful than the summer-flowering varieties.

217. ARGYROSTIGMA ELEGAN-TISSIMA — Foliage spotted silver; free, vigorous. 1s.

Mr. WM. BROWN, Maywood P.O., Victoria, British Columbia, Canada, December 17th, 1896. I got some Begonias from you when I was Gardener at Government House here. I took

two First Prizes with them every time I showed them (three times), one for specimens and one for best six.

BEGONIA GLOIRE DE SCEAUX.

SPLENDID WINTER BEGONIAS. DARK FOLIAGE.

304. GLOIRE DE SCEAUX-()ne of the most bcantiful; of upright growth, large, open, flat flowers of a soft silky pink, contrasting well with the rich bronze foliage. 1s. 6d. and

305. PRESIDENT BOURE-UILLES-1)ark foliage; large silvery pink flowers; very free. 1s.

SPLENDID FOLIAGE BEGONIA.

306. ARTHUR MALET - The richest coloured variety yet introduced; an improvement ou Louise Closon. 1s. 6d. each.

BOUVAR'DIAS.

F all plants the Bouvardia, in our opinion, excels for cut flowers, no matter whether for buttonholes, houquets, or table decoration; a spray of it is sure to be most prominent and pleasing, and the odonr of several kinds is deliciously refreshing, and if well grown they will more or less continue flowering nine months out of the year. They only need the ordinary course of enlivation of the winter-flowering Zonal Pelargonium; hitherto they have heen treated as a stove plant, whereas they only need a temperature not higher than 50° or 60°; and in the summer to have every attention like a specimen Chrysonthamure and on the first appearance of cold weather to be every attention like a specimen Chrysanthemum, and on the first appearance of cold weather to be taken in the honse, and when growing and flowering to be supplied with liquid manure occasionally.

SINGLE.

- 1. ANGUSTIFOLIA (species) Scarlet.
- 4. BOCKII-Deep coral, tube and hase of petals pure white.
 - 8. DAZZLER-Rich scarlet.
- HOGARTH—Good habit, scarlet.

 - 35. FLAVESCENS-Distinct yellow.

36. HOGARTH, FL. PL.-Light searlet-earmine.

37. PRESIDENT GARFIELD, syn. ROSEA FL. PL.—Pink flowers.

Flowering plants in Autumn, 1s. 6d. each and upwards. All those not priced, 1s.

BEDDING CALCEOLA'RIAS.

HE secret of having good heds of Caleeolarias is getting healthy green plants, perfectly free from insects. When planted out very early, good, deep, rich soil is essential, with a quantity of manure below the plant; this will prevent them going off as they usually do. The main thing is to grow them vigorously, by always having rich soil to root into. Too much moisture causes them to die off.

- 1. AMPLEXICAULIS—Lemon colour, good for large beds and borders, late hlooming. 6d. each; 5s. per dozen.
- 2. AMPLEXICAULIS ALBA (species)—ereamy white. 1s. each: 8s. per dozen
- ereamy white. 1s. each; 8s. per dozen.

 3. AUREA FLORIBUNDA Yellow; fine. 3s. per dozen.
- fine. 3s. per dozen.
 4. GAINE'S YELLOW Good hedder.
 2s. 6d. per dozen; rooted enttings in spring, 5s. per 100.
- 5. GOLDEN GEM One of the hest 2s. 6d. to 3s. 6d. per dozen; rooted enttings in spring, 6s. per 100.
- 6. PRINCE OF ORANGE—A heautiful variety. 2s. 6d. to 3s. 6d. per dozen.
- 7. SULTAN—Fine dark variety. 6d. each; 5s. per dozen.

Taken from cold frame in the spring at the usual reduced prices.

CAN'NAS.

HESE give a very heantiful and tropical aspect to pleasure grounds, by their stately growth and broad, massive foliage, relieved by rich erimson-searlet, orange, or yellow flowers during the late summer months; their foliage, comprising various shades of rich green, glaucous and chocolate-crimson leaf-tints, fits them admirably for effective groups, their appearance reudering them a striking contrast to other plants.

They are also invaluable for large pot plauts as portable specimens in pleasure-ground decoration, and equally so for summer groups in large conservatories, in which their great diversity of foliage appears to advantage, and they are very ornamental for any purpose. The following are the best for conservatory, porches, or standing in tubs, pots, &c.; about a garden they are grand objects, and for beds or single clumps are the finest flowering varieties of this family we ever had.

THE FINEST CANNA IN EXISTENCE.

97. KÖNIGIN CHARLOTTE—Very vigorous, with beamiful and massive foliage; very dwarf; the spikes, on which the individual blooms are arranged houquet-like, are very large, and stand out well around the foliage; the flowers are large with well-rounded petals, hright red, edged one-eighth of an inch wide with gold, the contrast of colour giving a novel and effective appearance to the plant. A grand variety for the conservatory and greenhouse. We have flowered and shown it all the year—lovely even in December and January. A ward of Merit, Royal Horticultural Society. 1s. 6d. Strong plants, 2s.

THE ORCHID FLOWERING CANNAS.

98. AUSTRIA—Musa-like light green leaves, numerous and fine stems, about 9 ft. high, the slender spikes emerging well beyond the foliage; flowers very large and compact, of a capary-yellow with a silver line, inside slightly dotted with brown. It flowers from April to December, and probably throughout the winter; magnificent for groups and a grand acquisition 4s. 6d.

CANNA.

99. ITALIA-Musa-like foliage, slighty recurvate, bright green and white bordered; stems from 5 to 9 ft. high; spikes gigantic, about 16 ins. long, with a number of flowers which are very large and measuring from 4 to 5 ins. across; searlet, streaked on the mag ins and tips with yellow. It flowers continually. 5s.

GENERAL COLLECTION.

GLADIOLUS FLOWERED.

 A. DE MONTEBELLO—Carmine, shaded orange, green foliage; distinct. 6.
 AIGRETTE—Foliage green, scarlet, occasionally edged golden-yellow; large. 2s. 6d. 3. ALPHONSE BOUVIER-Deep rich crimson, large well-shaped flowers; free and good. 1s. 6d.

 ALBA ROSEA—White, shading to pink in centre, large and broad petals. 1s. 6d.
 ALSACE, syn. LUTEA ALBA—Creamy white; a free bloomer; distinct. 2s. 6d.
 AMERICAN FLAG—Orange-scarlet, broad band of gold evenly margined on each petal, large spike, circular flowers. 3s. 6d.

7. AMI JULES CHRETIEN -Green foliage, soft chestnut-red; large; grand. 6s.

- 8. AMI PICHON-Velvety searlet, large and well formed, foliage green. 1s. 6d.
 9. AMIRAL AVELLAN (Vil.)-Bold flowers, clear yellow, distinctly spott d red, green 10. AMIRAL AVELLAN (Cr.)—Flowers very 1 rge, carmine-red, dark foliage. 1s. 6d.
 - 11. ANTOINE CHANTIN-A splendid variety; fine large flowers of a bright cerise-salmon
- shade, dark green foliage; dwarf and free. 1s 6d. ANTONIN CROZY-Of a rich crimson shade, fine spike, foliage dark green, eaged purple; effective and good. 1s.

13. AUREA—Pure rich golden-yellow; large and fine; green foliage. 5s.
14. AURORE—Splendid fine flowers, bright chestnut-red, deep green foliage; one of the finest. 2s. 6d.

- 15. BEAUTÉ POITEVINE-Glaucous green foliage, splendid large flowers of a glowing red.
- 16. CAPITAINE P. DE SUZZONI-Light greenfafoliage; large fine flowers of a clear yellow shade, slightly spotted. 1s. 6d.

17. CEUSIN JACOB-Green foliage, bright chestnut-red, edged golden. 1s. 6d.

CHEVALIER BESSON-Dark green foliage, of a rich cerise-salmon shade. 1s. 6d. 19. CH. HENDERSON-Clear green foliage; orange-red, shaded spotted crimson. 1s 6d. 20. COLIBRI-Char yellow, best of petals and centre of flowers reddish carmine, foliage green; distinct. 2s. 6d.

21. COMTE DE BOUCHAUD-Very fine; bright golden-yellow, spotted bright red; green foliage.

COMTESSE DE L'ETOILE-Vigorous habit; glaucous green foliage; splendid clear yellow, thickly spotted with soft red on each petal. 2s.

23. COMTE DE GANAY-Salmon shaded, edged yellow, green foliage: fine. 1s. 6d.

CONQUERANT-Large fine flowers; very bright amber, shaded deeper; good. CRIMSON KING-Clear crimson-scarlet, glowing co'our, large spikes. 3s 6d.

DIAVOLO—Grand flowers of an intense red; very fine. 2s. DIRECTEUR SIEBERT—Cinnabar-red; free; told foliage. 1s. 6d. 27.

DR. VERGELY-Fine green foliage; free; sulphur yellow, marked carmine 1s. 6d. DUCHESS OF YORK-Yellow, thickly spotted red, well-shaped flowers, deep green foliage; attractive. 2s.

20. DUKE OF YORK-Free and effective; vermilion-red, edged yellow, green foliage. 2s.

31. ED. MIEG- Orange-crimson; very large flowers; compact. 2s.

EGANDALE-Bronzy foliage, fine large flowers of a reddish shade; good. 3s.

- ETENDARD—Fine for massing; ver large; clear bright red. 5s.

 EXPLORATEUR CAMPBELL—Deep crimson, marbled earmine; large round flowers. 34. 1s. 6d.
- 35. FRÉDÉRIC BENARY-Long-pointed, foliage green; flowers of a rich crimson-red shade;

36. F. THOMAYER-Purple foliage; large fine flowers, clear orange. 1s. 6d.

GÉNÉRAL DE MIRIBEL-Rich apricot-salmon; large and well formed. 1s. 6d.

GÉNÉRAL DE NÉGRIER-Dark foliage; of a cerise-red shade; free. 1s. 6d. GEOFFROY SAINT-HILAIRE-Beantiful dark foliage, large flowers, bright orange-

red: good. First-Class Certificate. 1s. 6d. GERMANIA-Very dwarf, with massive foliage, bright crimson, edged and marbled

with yellow. Awarded a prize at Chicago. 2s. GLOIRE LYONNAISE—Deep canary-yellow, marbled and striped, in centre of petals

bright red: distinct 2s 6d. 42. GOLDEN QUEEN-Clear yellow, faint markings of red; large bold truss and flowers; good. 3s 6d.

43 HENRY IRVING-Clear orange-scarlet, broad bright orange border base of petals. 3s, 6d. INCENDIE - Bright orange, heavily margined and marked gold; very free and large. 3s.6d.

J. D. CABOS-Vigorous, green foliage, shaded purple-apricot; tinted flowers. 1s. 6d.

J. FARQUHAR-Fine flower, orange-carmine, yellow edging. 2s.

JOHN LAING-Brick-red, broadly margined vellow; large and well formed. 1s. 6d. JULES CHRETIEN-Dark green foliage, fine flowers and spike, rich erimson carmine 48. good.

KAISER WILHELM II .- Splendid large scarlet flowers; dwarf and free. 19.

L. E. BALLY-Green foliage, canary-yellow, spotted carmine; good. L'ECLATANT-Very large and fine; rich reddish carmine. 3s. 6d. 51.

MARCEAU- Large flowers of the most intense searlet colour; dwarf.

M. CLEVELAND-Fine flowers; free; elear red. 1s. 6d. 53.

MACMAHON—Orange, passing to cinnamon colour, yellow at base of petals 1s. 6d.

MARTIN CAHUZAC—Beautiful rich green foliage; fine large flowers of rich vermilion 54. 55. 1s. 6d.

M. H. DEBROUSE-A fine and useful variety. 2s. 56.

57. MISS SARAH HILL-Clear green foliage; fine flowers, amaranth tinted carmine. 1s. 6d. MME. BARRIE-Apricot-coloured flowers; very bold green foliage. 5s.

MME. CAMILLE-Sulphur-yellow, slightly dotted; handsome foliage. 1s. 6d.

- MME. CROZY-Green foliage; compact habit, flowers large and five; clear orangevermilion, edged and speckled gold. 1s. 6d.
- 61. MME. LA BARONNE P. THÉNARD-Orange, passing to rosy-salmon; colour quite distinct; foliage green. 5s.

(24)

- NARDY PERE-Lanceolate green foliage, distinctly shaded purple; clear orange-scarlet flowers. 1s. 6d.
 - ORIOLE -Clear yellow, faint markings of red; very effective; good. 2s. 6d. PANACHE-Superb flowers, velvety carmine-rose, shaded deeper; fine. 5s. 65. PAPILLON—Very large flowers, rosy-scarlet passing to rosy-carmine. 2s. 6d.
- 68. PAUL BERT-Dark foliage, shaded chocolate and purple, circular formed flowers of a glowing golden amber shade; very distinct; dwarf. First-Class Certificate. 1s. 6d.
 67. PAUL BRUANT—Splendid green foliage; spikes large and fine; magnificent flowers of

orange-red, tinted scarlet. 2s.

68. PAUL LORENZ-Dark foliage, rich coloured flowers. 2s.

69. PAVONIA—Canary-yellow, distinctly marbled and blotched carmine; large and fine. 2s.

- 70. PAUL MEYLAN—Rich bright a uber; fine large flower; good. 3s. 6d.

- spikes, dark green foliage; good. 1s. 90. SOUVENIR DE MDME, LIABAUD—Deep green foliage, reddish-cerise flowers; dwarf, 90.
- STAR OF '91-Very dwarf and free; bright amber, red shade. 1s. 6d. 91. STATUAIRE FULCONIS—Green foliage; fine flowers, of a bright red shade. 1s. 6d. 92. SUNSET GLOW-Bright salmon, with pale yellow band to each petal; very distinct; 93.
- 94. TREYVE MARIE -Carmine and salmon; flowers large and well opened. 1s. 6d. 95. ULRICH BRUNNER-Green foliage, flowers large and fine, deep red, shaded orange

First-Class Certificate. 1s. fine variety. 96. VICTOR HUGO-Dark purplish foliage, medium-sized flowers, deep orange-red. 1s. 6d.

Twelve useful varieties, our selection, 9s. Other varieties can be supplied, list on application.

VARIETIES IN CULTIVATION.

Yes, lovely Carnations! No matter who, all like this flower; yet how seldom we see them in gardens! If once planted in ordinary ground they will grow. Cut out the flower-spike in August, cut a slit half-way through the wood of the side shoots, two inches under the lowest leaf

hearing the cut, dividing and replanting in good well-dug ground any time before Christmas, and another year's fine bloom is almost a certainty. For exhibition, they have to be planted in 8 or 9-inch pots, and placed under glass when in flower; their almost only enemy is wireworm, which must be destroyed. Good varieties, 9s. per dozen and upwards, our selection.

NEW CARNATIONS OF 1895-96.

BENDIGO—Large well-shaped flowers, distinct bluish purple: very vigorous. F.C.C. 3s. 6d. BRAW LASS—Haudson e form, rich bright rose; vigorous and free in growth. F.C.C. 1s. 6d. BRITANNIA -A superior yellow self; rich deep yellow, fine form and large. 3s. 6d. HORACE TRELAWNEY-A large full rose-coloured flower; fine variety. 1s. 6d. LADY RIDLEY—Creamy white, large and of exquisive form: vigorous habit. 1s. 6d. MRS. BARNEWALL ELLIOT—Grand salmou self. 1s. 6d.

MRS. ERIC HAMBRO—Pure white, of the largest size and of most perfect form. Award of Merit. 2s. 6d.

SADEK-Dark rose, admirable form, colour quite charming; of better form than Ruby. 1s. 6d.

YELLOW GROUND CARNATIONS AND

COWSLIP-A true yellow ground Picotee, the edge bright rose; handsome, vigorous. Award of Merit. 2s. 6d.

ERNEST EWIN-Dark orange ground, striped and barred vermilion; full flower. 1s. 6d. GEORGE CRUICKSHANK-Distinct and bandsome; large full flowers, orange-buff, flaked Award of Merit. 2s. 6d.

MRS. SEYMOUR BOUVERIE-Apricot-buff, flaked crimson; large and of fine form; vigorous. Award of Merit 2s. 6d.

SWEETHEART-Deep apric t yellow, beautifully streaked and edged carmine lake. 2s. THE DEY-Large well-shaped flowers of a rich buff colour, suffused and streaked rose; fine. 2s. 6d. W. M. THOMSON-Deep apricot-buff, marbled and edged blood-red; good form. 2s.

NEW MALMAISON CARNATIONS.

The following limited selection from an immense number of seedlings are of the highest quality, and are true Malmaisons in flowers, scent, and foliage. One feature of the new Malmaisons is their vigorous compact habit of growth, producing their flowers in the greatest abundance,
MRS. EVERARD HAMBRO—Has large massive flowers of fine form and of a deep carmine-

rose colonr. 2s. 6d.

SIR CHARLES FREEMANTLE-The flowers of this fine variety are of the largest size and of good form; the colour is a rich, deep rosy-pink. 2s. 6d.

THE CHURCHWARDEN—Very large and full; the flowers of a bright erimson-scarlet

colour. 3% 6d.

All of the above have received First-Class Certificates and Awards of Merit wherever exhibited, and bave been greatly admired

Carnations made safe against Wireworm, and also vigorous and doubly satisfactory.

Again, out of the many thousands of plants we grow, not one was lost during the last two seasons; a teaspoonful of our Mannre, mixed with six times the quantity of soil, and like quantity of soot, not only keeps them free and safe ull the season against sort, and the quantity of sort, not only keeps them free and safe all the season against this pest, but adds double vigour to the plants, makes the blooms considerably larger, and produced in greater quantity, and intensity of colour much increased. No one should ever fail to sprinkle some, and round every plant immediately after planting; it not only entirely keeps the pest away, but it makes the grass a lovely glauce us green. All would admire your Carnations, and everybody would be proud of their plants grown in pots. Should be used once a month; by strictly attending to this the quality of this family would be immense.

Cwt., 80s.: 56 lbs., 42s. 6d.; 28 lbs., 22s. 6d.; 14 lbs., 12s. 6d.; per 1b., 1s. 3d.

BORDER CARNATIONS.

CARDINAL WOLSEY—Yellow ground of the type of Victory, but greatly superior in form and colour; a great acquisition. First-Class Certificate. 2s.

DUKE OF ORLEANS—A distinct shade of yellow; the flowers of large size and fine form; plants of vigorous growth. First Class Certificate. 1s.

HAYES SCARLET—A grand scarlet self; superior to King of Scarlets, of the same vigorous habit; undoubtedly the best scarlet self yet raised. F.C.C. 2s.

KING ARTHUR—Of the most distinct crimson-scarlet; flowers very large, of the finest form; noble appearance in the border. First-Class Certificate. 2s. 6d.

LADY WANTAGE-A superb white self, very smooth petals, good formed flowers. 1s. 6d.

MEPHISTO—A lovely crimson of the colour of the Old Clove, but deeper; the flowers are of exquisite form. First-Class Certificate 1s. 6d.

MISS AUDREY CAMPBELL—Yellow self; very vigorous habit; flowers very large, of an exquisite shade of yellow; quite distinct. First-Class Certificate. 1s.

THE PASHA-Beautifully fringed petals of a rich deep apricot colour; a charming border Carnation, and one of the very best to cut for bouquets, where apricot or deep buff-coloured flowers are wanted. 1s. 6d.

THE HUNTER—A deeper shade of Mrs. Reynolds Hole, and a non-burster. 1s. 6d.

CROMBIE'S PINK-Fine deep pink self. 1s. 6d.

DUCHESS OF FIFE (Cocker)—A splendid shade of a delicate pink; vigorous habit; very distinct. 9d.

DUCHESS OF PORTLAND (J. Lamb)—Enormous flowers, edged and striped rose, does not burst; strong grower; a general favourite. 1s.

FAIR ROSAMOND—Pure white, beautifully striped bright carmine; extra large fine-form. 1s. FRED. CALLCOTT—Bright vellow with narrow coral-red edge. 1s.

J. L. TOOLE—Searlet, closely striped dark blood-red; full flower. 1s.

KELSO ABBEY-Deep buff, shading to terra-cotta, flaked rosy pink; very free and effective. 2s.

OLD COIN-Yellow ground, flaked with red and rose; very distinct. 1s.

PANORAMA-White ground, flaked and spotted rose-pink. 1s.

KETTON ROSE -Fine rose self, good for either pots or border; strong constitution; a grand addition to this class. 1s.

LANDSEER--Clear soft yellow self, flowers extra large; good for pots or borders. 2s. 6d.

SALAMANDER—Salmon-scarlet, large full flower, smooth petal; very distinct. 1s. 6d. BOECKLIN (Picotee)—Yellow with purple, heavy edge; of magnificent appearance; the first flowers bave a tendency to burst. 2s.

CHAMELEON (Faney)—Yellow with carmine and slate-grey, very rare colouring; fine. 2s.

CLIMAX (Picotee)—Yellow with pomegranate, heavy edge; large flower of elegant form. 3s.

EDELWEISS (Picotee)—Waxy-white, with well-marked narrow lilac edge; very double, ound-petalled semi-globular flower 3 in across. 2s.

round-petalled semi-globular flower, 3 in. across. 2s. ELSA (Fancy) - Peach-rose with eitron-yellow, very rare combination of tints; elegant. 3s. 6d.

FANCHON (Fancy)—Creamy yellow with steel-blue; very fine flower. 2s.

FIGARO—Deep cream colour, with purple, blood-red, and white; very large flower. 1s. 6d. FEUERZAUBER (Self)—Cinnabar scarlet of elegant form; plant semi-dwarf, and very free flowering; fine. 2s.

GNEIST (Fancy)—Anrora with steel-blue, striking blending of shades; excellent. 2s. LILY—Yellow, with steel-grey and anrora, very rare colouring; large flower; excellent. 1s. 6d

MIRABILIS—Lilac-rose-carmine with yellow centre; elegant flower, striking. 1s. 6d.

MONARCH -- Dark yellow with purple and blood-red; enormous flower; splendid. 2s. PARSIFAL -- Yellow heavy-edged Picotee, with coppery-crimson and purple, extremely un-

common colouring; full round flower, very remarkable. 2s.

PRESIDENT CARNOT (Fancy)—Yellow with aurora and steel-blue on white, uncommon

eolouring; pretty. 2s. 6d.

SANTUZZA—Very bright carmine-rose self; fine large flower, and extremely floriferons. 1s. 6d.

STAMBULOFF (Fancy)—Yellow with shining pomegranate-red; large; extra. 1s. 6d.

THE BRIDE—Canary-yellow, with broad white markings, delicate coloring; charming. 1s. 6d VENUS (Picotec)—Canary-yellow with rose, medium edge; fine flower, delicate coloring. 2s. 6d.

Those not priced, 1s. each; 9s. per dozen. Our selection, 6s. per dozen.

TREE OR WINTER-FLOWERING CARNATIONS.

HESE are now greatly sought after in consequence of so many being used all through the winter season in bouquets and button-boles; and in New York it appears they are even more extensively used than in England. Anyone that can grow Chrysanthemums can grow these, for they require just the same treatment, excepting liquid manure, which must be applied more sparingly.

BELINDA-Buff ground, flaked with bright red, full flowers; very distinct and attractive. 2s. 6d.

2. CANARY BIRD-Deep yellow, lightly striped with pink; fine well-formed flowers; vigorous habit. 3s. 6d.

49. WHIPPER-IN—Searlet, dark stripes;

large and free.

50. WILFRED H. GODFREY-Light apricot, edged and flaked bright pink; large. 1s. 6d. and 2s. 6d. each.

WINTER CHEER-Crin.son-scarlet. dwarf branching habit, very free flowering; fine for winter flowering.

52. W. ROBINSON-Fine searlet wellformed flowers; of good habit and very free 3s. 6d.

53. WM. WOOD-Rosy-pink. 1s. 6d.

54. ZENOBIA-Buff ground, heavily flaked and margined with deep erimson; large wellformed flowers. 2s. 6d.

55. ZOUAVE-Red; extra fine.

All those not priced 1s, each; dowering plants, 1s. 6d. and 2s.; seeds, 2s. and 5s. per pkt.

MALMAISON CARNATIONS.

SOUVENIR DE LA MALMAISON—Blush-white; large and full. 1s. to 2s. 6d. -I'ink, similar in every respect to the above, except in eolonr. 2s. 6d. ARTHUR WAROCOUE-Dark scarlet self; -MME good shape; dwarf habit; very free. 1s. 6d. to 2s. 6d. PRINCESS OF WALES - Rose-pink; a very pleasing colour. 2s. 6d.

Mr. Thos. WRIGHT, Thornton Dale Station, N. E.R., January 5th, 1897. I am pleased to inform you that with your plants and seeds I have again taken one of the First Prizes for the best kept stations on our system.

Mr. Manser, The Gardens, South Hill Honse, Bromley Common. You will remember my employer, W. Willis, Esq., sent me down last May for Cannas to fill a very prominent bed he wished planted with something nnique. I had £15 worth, they grew and flowered splendidly, and I should say they brought all the best well-to-do people round here to see them. Mr. Willis was much pleased, and thanks you.

M. P. MARMION, Esq., Brook Lodge, Culmullen, Dunshanghlin, July 13th, 1896. Many thanks for your kindness in sending me so many beautiful plants, which I fully appreciate, every way I can forward your interest in this country I will avail myself of.

Mr. W. J. PATTENDEN, The Gardens, Boston House, Eastbourne, December 26th, 1896. I received plants quite safely, and as fresh as though they had not been out of your houses hut a few hours, we cannot huy such plants for the price in Eastbourne.

G. L. B. CALCOTT, Esq., Solicitor, Leighton Buzzard, December 24th, 1896. 'All the cuttings you sent me last year struck, and for the second year in succession I have taken the First Prize and Medal at our local show.

CHRYSANTHEMUMS.

A PERFECT SPECIMEN OF AN INCURVED CHRYSANTHEMUM FOR EXHIBITION

E have much pleasure in announcing that we have been awarded Gold and Silver Medals by the National Chrysanthemum Society, never missing once since its existence.

OUR NEW CHRYSANTHEMUMS.

(For our New Varieties see Front of Guide.)

It has always been our aim and ambition to insure, so far as lies in our power, all our patrons being successful by specially preparing our stock, carefully selecting, and rapid despatch, so that they arrive in the best possible condition to go forward and win, if as in the present instance, proper after-treatment is adopted, they carry success wherever they go. This is observed and freely commented upon far and near,

and to make it perfectly clear we have only to refer to Mr. Mease's remarkable success with Chrysanthemums in the greatest contests both north and south for the long run of nearly 20 years. During this time we have, we believe, every year received and fulfilled an open order saying—"Enclosed cheque. Send me your selection of the best." The result is, these have assisted year by year in winning numerous trophies and the two Gold Medals and £30-the greatest coveted honours at the great National Jubilee Show-therefore he stands in the dignified position to-day of being champion of the champions, and we are delighted at his great and well-deserved success, for it goes far in confirming the high merit and value of our own seedlings, and the careful selecting from other raisers' varieties which we exercise. It should be borne in mind Pride of Madford, Australie, and Oceana are Australian-raised seedlings, and are the best yet introduced from that part of the world. What is in evidence is that our own raised seedlings have a distinct dwarf habit with flowers of great size, depth, and broad florets, attractive build, and possessing a beauty not so strongly developed in other varieties. introduce the following, feeling confident that they will carry those who grow them to victory, and that gold medals will follow wherever they are grown and exhibited.

Our yearly increase in the sale of both plants and cuttings arises certainly from the fact that all varieties (1,400) are planted out and grown in open, pure country fields, cut down early-not allowed to flower-large clumps removed and replanted near the glass and light; stock from these are perfect, and the secret why all those we supply carry success wherever they go; striking easily, growing quickly, and

producing larger flowers, and brighter colours.

We cordially invite all to

the oldest, finest, and best-kept collection in the world.

If any varieties worth growing are omitted from this Catalogue, please say, and if wanted they shall be immediately obtained and supplied.

NEW VARIETIES FROM VARIOUS SOURCES, 1897,

WITH RAISERS' DESCRIPTIONS.

1046. ADA BIRCH (small single)-Light soft pink, with white zone; wonderfully free and very dwarf bushy habit; very similar to Nora in every way, but of lighter shale. 2 ft. 2& 1047. ADA FOSTER (large single)-Deep bronze and yellow, a lovely shade. 41 ft. Plants,

1048. AGNES PAYNE (small single)—Yellowish terra-cotta, purc single. 41/2 ft. 25.

1019. ANNIE BUTTERS (large single)—Deep canary yellow; should not be taken on the early bud, as it is best in sprays. 3½ ft. 2s.

1050. A. J. BALFOUR (Jap. Inc.) - This is quite a novel shade, and will make a most attractive flower; the colour is a muslin rosc-pink, blooms of good size and substance, with broad petals; good habit. 4 to 5 ft. Crown bud. Plants, 7s. 6d.

1051. BEAUTIFUL STAR (small single)-Beautiful golden amber, reminder of a bright

glittering star. 3 ft. 2s.

1052. BESSIE RICE (small single)—Deep scarlet, pure single; bushy habit. 2½ ft. 2s.

1053. BUFF PRINCE (large single)—Rosy buff, shaded cream; good shaped flower. 3½ ft. 2s.

1054. C. A. OWEN (Jap. Inc.)—Seedling from Robt. Owen; a massive bloom with broad hooked petals; colour a rich golden bronze outside, deep yellow inside of petals; full exhibition size. Crown bud. Awarded First-Class Certificate. Plants, 7s. 6d.

(33)

1055. DELIGHTFUL (Jap. Ref.)-Pure white, of the finest form, the fairly broad florets drooping gracefully, the points being undulated; very full flower, showing no eye. A real gem. 7 to 8 in. in diameter. Early terminal had. 5 ft. Plants, 5s.

1056. DUKE OF WELLINGTON (Jap. Inc.)-Of enormons size and great substance, the massive incurving petals being quite \(\frac{3}{2}\) in. hroad; colour salmon-huff outside, the inside being a deeper shade of salmon. Terminal bud. Two First-Class Certificates. Plants, 7s. 6d.

1057. EDIE PAYNE (large single)—Deep rose, lined white. \(\frac{3}{2}\) ft. \(\frac{2s}{2}\).

1058. ELLA PICKERING (small single)-Rosy terra-cotta and yellow; very pretty even

flower. 21 ft. 2s.

1059. ELLEN SMALES (spidery decorative single)-Large pink shaded white. very showy and effective for table decoration, either single flowers or sprays. 4 ft. 2s. 1060. EVELYN FOSTER (large single)-Rose, shaded white; a heantiful perfect single.

 $3\frac{1}{2}$ ft. 2s.

1061. E. A. KIMBALL-Crimson and old gold; incurved Japanese. 2s. 6d.

1062. ELTHORNE BEAUTY (Seward)-Bright rose, silvery reverse, a very distinct and pleasing colour that will give tone to the exhibition hoard; easy grower. Crown bud. 5s.

1063. FRAMFIELD BEAUTY (single)-Deep rich velvety erimson flower of large size.

GENERAL MAURIC (Inc.)-Medium-sized flower of soft primrose colour, with a deep 1064.

yellow centre. First-Class Certificate. Edinburgh, 5s.

1065. G. J. WARREN-A most levely canary yellow sport from Mdme. Carnot. This heing the exact counterpart of the very best 'Mum in existence, viz., Mdme. Carnot, it needs but little description; but we must here mention the easiest way to grow these two is to take the shoots when 2 or 3 in. long, after they have made the first break, say end of May or June, root them in small pots, and re-pot into 6-in. pots, allow them to make one hreak; some of the best exhibition flowers will eventually be grown this way. We mention this in this particular instance because this being rather a long price, every one will be anxions to obtain the best results; but, as we have but one stock plant, and that had hut two flowers, it has not been sufficient to gain a eertificate. 21s. each, to be sent out in small pots in strict rotation, and not guaranteed till April. This sport originated at Balcombe Place Gardens, Sussex, and is named after the fortunate

1066. GEORGE BLACKBURN (Jap.)-Very large, full and deep flower, immense long and inbulated florets; colour a lovely deep golden yellow, outer petals slightly shaded rosy-purple. This will prove to be of exceptional merit; good grower. Second crown bud. Plants, 5s

GLADYS FOSTER (small single)-White with yellow disc; very free; hest not

disbudded. 21 ft. 2s.

1068. GEM OF EARLSWOOD (Anemone pompon)—Clear citron cushion, which is very even and bold, with rosy-hlush guard florets; one of the very best. This is hest on the third crown, or terminal, and is lovely in sprays, as it is very free. Has been awarded two First-Class Certificates.

1069. G. BUETTNER-Auother introduction from America, and one full of promise; pure

white, of fine form; capital dwarf habit. Plants, 3s. 6d.; cuttings, 2s. 6d.

1070. GOVERNOR MATTHEWS (American)—Large blooms of a pearl pink, with a finish like satin; a very promising variety. Plants, 2s. 6d.; cuttings, 1s. 6d.

1071. GEO. H. KERSLAKE (Jap.)—Large flower, long florets; colour white, heavily suffused pink; another grand introduction from the colonies. 5s.

1072. GEORGE SEWARD (Seward)-Dark orange, softened by lines and shadings of reddisherimson; long, broad, drooping florets, incurving at points; strong healthy grower; stop April.

1073. GOLDFINDER (Seward)-Soft primrose yellow; narrow interlacing florets; very

compact full flower; strong grower; stop in March. 5s.

1074. GLARING (Jap. Ref.)-Bright claret-crimson-new and distinct colour; a very large

flower of extra fine form and broad petals. 5 ft. Early terminal buds. Plants, 7s. 6d.

1075. GOLDEN NUGGET—This will be found quite an acquisition in form and colour; a true incurved bloom of large size and great substance; the florets are broad and blunt, and of the richest golden yellow; good dwarf habit. Crown bud. Plants, 7s. 6d.

1076. H. H. ASQUITH (Jap. Ref.)-Lovely rosy amoranth with light reverse; the long drooping florets streaked and tipped with white, centre gold; a very pretty flower. Crown bud. Plants, 5s.

1077. IALENE (Ref. Jap.) - Rosy violet. 1s. 6d.

1078. INVINCIBLE (Jap.)—A very large white; good form. 1s 6d.

1079. IDEALTY (Inc.)-Pearly white, tinted pink; good useful variety. 1s. 6d.

1050. INDIANA (America)—An immense bloom of globular form, clear bright pink; a very promising variety. Plants, 2s. 6d.; cuttings, 1s. 6d.

1081. IN MEMORIAM-A very handsome Japanese, raised last year; rich ehestnut, lightened with stripes of gold; long drooping florets of medium width, full deep flower; extra fine. Crown bud. 7s. 6d. each.

1082. JULIA SCARAMANGA (Jap. Ref.)-A rosy bronze Mons. Chenon de Leche; all who have seen that grand variety at its best must naturally have been struck with its beauty, so they will with this. Two were exhibited in the Gold Medal Championship class for 24, and one in the 12 Japs. which took the N.C.S. Jubilee Medal for best stand in Show. It also received the N.C.S. Certificate. Plants in spring, 7s. 6d.

1083. J. E. LAGER-Clear yellow, reminding one of Peter the Great. Blooms large and full, and being slightly hairy have a very soft and charming appearance. Should not be missed. Crown bud. Good culture. Plants, 2s. 6d.; enttings, 1s. 6d.

1084. JOSEPH BROOKES (Seward)-Rich orange, shaded crimson-scarlet; an immense flower, very long drooping and slightly twisted florets. One of the best of the season. 5s.

1085. JOHN NEVILLE (Seward)-Rich crimson-carmine, reverse deep old gold; long florets, which are twisted and drooping; sturdy grower; stop in March and take second bud. 5s.

1086. JAMES MOIR (Jap. Inc.)-Florets of medium width, loosely incurving, making up a full and handsome flower of excellent form; eclour bright golden-yellow; a decided acquisition. 4 to 5 ft. Crown bnd. Plants, 7s. 6d.

1087. KING OF BUFFS (Jap. Ref.)-This variety produces blooms of the very largest size, long spreading florets making up a flower of fine form and substauce; colour a lovely golden salmonbuff. Crown bud. Plants, 7s. 6d.

1088. LADY HANHAM-Golden rosy-cerise; sport from Vivian Morel. This is one of the most fascinating colours among Chrysanthemums, having slight shades of gold, old rose, ocbre, and cream, and is one of the softest and prettiest shades by gaslight of any known variety. Good plants in February. 5s.

1089. LORD JUSTICE LOPES (Jap. Inc.) - A beautiful silvery pearl-pink or salmon-blnsb. The drooping florets of this grand new seedling are 8 in. in length, the centre inenrying very similar to Viscountess Hambledon, a very sturdy grower 4 to 5 ft. high. Comes good on first crowns. Good

for 6-in. pots.

1090. LADY ISABEL (Jap. Inc.)—Lovely clear lavender blush. A large and massive flower, with very broad, smooth, wany petals, building up into a perfect globe. Winner of the Veitch Memorial Medal and £5 as the best novelty at the N.C.S. Great Jubilee Exhibition. Only two plants of this variety were grown in pots, and from these were cut the six flowers. The above is the raiser's description. Buds third week in August. 7s. 6d.

1091. LENAWEE-Light pink, immense flower. 2s. 6d.

1091. LENAWEE—Light pink, immense flower. 2s. 6d.
1092. LIBERTY (Jap.)—Golden-yellow; a grand flower. 2s.
1093. LORD MAYOR (Jap.)—Deep crimson with golden reverse; an immense flower of true
Japanese form; drooping florets. Crown bnd. Plants, 5s.
1094. LIGHTNESS (large single)—White, with rosy shadings; the end of petals turn down,
giving the flower a very pretty, graceful appearance. 3½ ft. 2s.
1095. MAGENTA (small single)—Pretty magenta, with silvery centre round disc. 4 ft. 2s.
1096. MISS WOLSELEY (large single)—Deep magenta; very large flower. 3 ft. 2s.
1097. MURIEL FOSTER (large single)—Deep terra-cotta, with yellow centre; one of the
dwarfest, largest, and most handsome of any known singles. 2 ft. 2s. 6d.
1098. MIDNIGHT (Jap.)—Crimson lake hairy variety. 2s.
1099. MISS ANNE GAUNT—Cross between Sundawer and G. W. Childs. A Japanese of

MISS ANNE GAUNT-Cross between Sunflower and G. W. Childs. A Japanese of great refinement; of the richest and purest golden yellow, with a slight tinge of velvety crimson on the edge of petals, making it very distinct; the formation of the flower is that of Sunflower, but broader florets; excellent grower; of fine habit; should be taken on second crown bud. This will become a standard variety. Plants, 5s.

1100. MISS MORLEY (Ref. Jap.) - A gem for cutting and decorative purposes; colour pure

white, centre pale primrose; very long broad flat petals; full flower; dwarf and sturdy babit, being only 2 ft. in height. This is an attractive variety. Plants, 3s. 6d.

1101. MISS ALICE ROBERTSON—Clear primrose-yellow; sport from White Christin. 9d.

1102. MELINA DUCHANEL—Large bloom of a clear bright pink; the florets are broad,

incurving at the tips; of good substauce. An extra five variety. Plants, 3s.; cuttings, 2s. 1103. MARSIA JONES (Jap. Anem.)—A pure white flower of the largest size when well grown; long spreading guard florets and high centre; a great improvement on existing varieties in this section. Dwarf habit. Crown bud. Plants, 3s. 6d.

1104. MRS. JOSEPH THOMPSON-Another large and handsome white. Florets of good substance, incurving and twisting into a deep bloom. Top in April. First-rate habit. Crown bud 7. about 20th August. Award of Merit. 1s.

1105. MRS. G. W. PALMER (Dockerill)—This is a bronze sport from the well-known variety Mrs. C. H. Payne. In this sport the objectionable colour, which often makes the parent appear coarse, is overcome, and we have an euormous bronze variety quite indispensable to the exhibitor. Stop in April and take second crown. 6s.

1106. SNOWDON (Nathan Smith) - An immense very pure white, with long straight florets, resembling an enlarged Avalanche; a back row flower of splendid proportions; easy grower; coming well ou second crown. 6s.

1107. MRS. S. C. PROBIN (Nathau Smith)-(Inc. Jap.)-Iu way of Mrs. II. Weeks, but florets are very smooth and of great substance; colour a clear pink; silvery reverse; good grower; extra fine. Crown bud. 7s. 6d.

1108. MRS. F. A. BEVAN (Nathan Smith)-Flesh pink; a very beautiful Japanese, with long tapering and drooping florets; a very deep and large handsome variety. Crown bud. 7s. 6d.

1109. MRS. BLAKE (Jap.) - Seedling from Viscountess Hambledon, of enormous size and plenty of substance; a magnificent flower, with long twisted florets of the purest white; one of the grandest whites in existence. Crown bud. Plants, 5s.

1110. MRS. HUGH FENWICK (Jap. Rcf.)-Colour a beautiful pale pink; long drooping florets of medium width, quite full to the centre; building up a flower of great depth and substance. Terminal bud. 4 to 5 ft. Plants, 5s.

1111. MRS. J. BEGGS (Jap. Iuc.)—One of the finest novelties of the season; the long, broad, twisted florets are of a delicate pink colour; lighter in ceatre and of fine substance, making up a massive exhibition flower, 9 in. in diameter and 6 in. in depth. Crown bud. Plants, 5s.

1112. MRS. ELLEN NEWBALD—Colour a lovely soft eanary yellow, with broad reflexing petals; a very promising flower for decoration and market purposes. Good habit. Awarded First-Class Certificate. Plants, 2s. 6d.

1113. MR. J. GOODYER (Jap.)-Colour buff yellow, shaded rose, reverse bronze; petals broad and long, incurving at tips, full deep flower, dwarf sturdy grower; good habit; fine for decorative purposes. Second crown bnd. Plants, 3s. 6d.

1114. MR. F. BREWER or Yellow Viscountess Hambledon (Jap. Inc.) - A yellow seedling from Viscountess Hambledon, with broader petals of great substance and of a buttery yellow with lighter reverse; a graud exhibition flower requiring same treatment as its parent. Dwarf habit. Plants, 7s. 6d.

1115. NEW YORK (Jap.)—White; a very full flower, good for exhibition. 2s. 6d.
1116. PICTURATUM—Golden yellow, beautifully striped and shaded red, quite a novel and attractive colour; invaluable for cut flowers and decorative purposes. Plauts, 2s. 6d.

1117. PORCELAIN—Blush piak, very beautiful. 2s.
1118. PRINCESS MAUD (small single)—Pure yellow, stiff stems; a beauty when left in

sprays. 21 ft. 2s.

1119. PONDEROSUM (Jap. Inc.)—This is one of the most massive incurved Japanese varieties ever raised; the colour is a lovely pearly-white, with delicate pink base; the florets are of medium width and regularly incurve, the bloom measuring 10 to 12 in ia diameter, and of great depth. Terminal bud. 6 ft. Plants, 7s. 6d.

1120. RED WARRIOR (American) - Rich and bright chestnut red, reminding one of W. W. Coles, but the florets are loager and more drooping. The blooms are larger, and much

more handsome. Plants, 3s. 6d.; cuttings, 2s. 6d.
1121. RUTH ELLIS—A lovely blush white of the largest size; in form a magnificent specimen of the highest type of the Japanese incurved. Good robust habit. Plants, 2s. 6d.; cuttings, 2s.
1122. ROBERT OWEN, JUNR. (Jup. Inc.)—A seedling from Robert Owen, of immeuse size;

the colour is yellow and bronze, of a very rich shade; petals are long, hooked, and of great

substance; same babit as parent, and requires same treatment. Plants, 7s. 6d.

1123. ROYAL STANDARD (Jap. Ref.)—A very handsome flower of the deepest crimson imaginable; long spreading florets of good substance and form, one of the finest Japanese ever raised, the blooms measuring 10 to 12 in. in diameter. First-Class Certificate. Crown bud. Plants, 10s. 6d.

1124. ROSE OWEN—A beautiful clear rose-piak, the petals being edged with white, more especially towards the centre; a globular bloom of large size, and true incurved type requiring little dressing; a decided acquisition both in form and colour. Awarded First-Class Certificate. 4 ft. Terminal bud. Plants, 5s.

1125. ROBERT BURNS (Jap. Anem.)-Another valuable addition to this class, the drooping guard florets being of a delicate blush colour with high centre of a creamy vellow; a good full flower. Crown bnd. Plants, 3s. 6d.
1126. SUNCLAD—Golden yellow, in style of H. L. Sunderbruch. 2s.

1127. STRESSA (Jap.)—Golden yellow; a grand flower. 1s.
1128. SIR JOHN WATSON (Jap.)—White, changing to pink with age; the petals: revery stout, twisted, and intermingling one with another; a magnificent flower; strong erect habit, 5 ft. Crown bud. Plants, 5s.

1129. TRAFALGAR --- Decorative variety; very dark maroou, almost black when first opening, and the shape and colour of Zulu Cactus Dahlia, only smaller; a sturdy bushy variety, only 1 ft. to 18 in high; one of the best dwarf varieties for small pots for market or facing groups ever

introduced; mid-season. In February. 2s. 6d. 1130. TESSA SHALDERS (Inc. Jap.)—A massive and high-built flower of the largest size, broad cupping petals which incurve to centre, very full and globular; colour white, suffused rosy

purple; very distinct; good grower. Second crown hud. Plants, 5s.

1131. VELMAR (Inc. Jap.)—Rose-carmine. 2s. 1132. VIOLESCENT—White, shaded lilae; extra fine. 2s.

1132. VIOLESCENT—White, shaded lilae; extra fine. 2s.
1133. VICAR OF BRAY (Jap.)—Blooms of great substance and heavy build; colour bright crimson with bronzy buff and orange shadings and golden reverse; the florets are beautifully interlaced, making up a very handsome flower of great promise. Awarded First-Class Certificate.

Crown bud. Plants, 5s.
1134. WARLEY PICKERING (large single)—Crimson maroon, with white dots round the

eye, very large handsome flower. 4½ ft. 2s. 6d.

1135. WINIFRED HULL (single)—Deep crimson; very large, heautiful flower.

1136. WESTERN KING—A superb new incurved Japanese of the purest white; the florets, which are of splendid substance, are long and beautifully finished to a tapering point; the lower florets slightly fall, as in the old variety Puritan; the blooms are both deep and massive, and are produced on stiff footstalks; habit and foliage good. The finest pure white in existence. 5s.; three for 12s. 6d.

1137. WILLIAM PAYNE (Fim. Pom.)-Bronzy orange. This is a very sturdy bushy grower,

only 18 in. to 2 ft. high; a gem for pot work, as every small flower comes double. 2s.

1138. WHITE EMPEROR—Sport from Emperor of China. 9d. 1139. YANOMA—Pure white; a very promising variety. 2s.

** CHRYSANTHEMUMS. **

CANNELL & SONS' Stock is the largest and completest in existence, and in the finest possible condition; will certainly give satisfaction in all parts of the world. As a proof they append the following:—

Unknown Correspondent's opinion of our Establishment.

We are sure all who have any love for the garden if they had the least idea of our character and position, stock and facilities, would be glad of full particulars. We have for nearly forty years been whony engaged in supplying the best gardens, all over the world, with all that is wanted. (See our list of Patrons, commencing with Her Majesty the Queen.) Our motto is, "Come and See." All who have come say like the correspondent, writing in the Bromley Telegraph—"Messrs. Cannells' Floral Paradise." After filling a column and a quarter with descriptions of our establishments, he says:—"1 finished my tour of the Hame of Horticulture, and the says. says:-"I finished my tour of the Home of Horticulture, and to say I enjoyed it is but a poor phrase to use. It is expressive, however, and as no description can do justice to the loveliness of the place, or variety of flora, I commend all who can to visit Messrs. Cannell & Sons. One thing they are sure to receive--converse from Mr. Cannell and his sons and the many gifted foremen."

Praise from Abroad.

Dr. THOS. C. BLANCHARD, Calle Doctor, Linares, Prov. de Jaen, Spain, 24th August, 1895.

I am much pleased with all you have sent me for many years. I highly appreciate your gran house, and will thank you to send on as usual the enclosed order.

CHRYSANTH

We were awarded the only Gold Medal

There are many we have seen and examined minutely - nearly every one that will be sent out some are good, and perhaps half-a-dozen will become standard kinds.

The following wise remarks are evidently the result of long and close experience:-

for an Honorary Exhibit in 1895.

Mr. Molyneux, lecturing on Chrysanthemums at Beckenham, said-"He warned beginners as to their selection of varieties, especially new ones, and new firms recommending so many fresh kinds that we never hear of afterwards. All should be on the alert, choosing those who are careful in selection and in supplying meritorious varieties."

I have frequeatly heard Mr. Shea make the same remarks; nevertheless, there is such a rivalry amongst the trade, that amateur raisers often ask as much as £50 for a new kind. This we feel is far too high, and must ultimately end like the Australian banks, so we are content with our own raising, purchasing others by the dozen or fifty from the trade, which we do perhaps more than any other firm. We send out what we feel certain will become favourites, such as E. Molyneur; Avalanche, and Sunflower, and we never grow them to an enormous size, but fairly, three flowers on a plant, and all must be short, thick-set habit, and bloom coming easily, if not they are thrown away. Several who have hought at high prices wish they could afford to adopt this plan.

CALVAT'S NOVELTIES OF -1896.

- 869. BARON AD. DE ROTHSCHILD(Jnp.)—Immense pure creamy white, with long petals. 2s. 870. BELLE DES GORDES (Inc. Jap.)—Brilliant rosy red.
- 871. CALVATS AUSTRALIAN GOLD (Jap.)—Enormous clear canary yellow. Class Certificate, N.C.S. 1s. 6d. First-

 - 873. DOCTEUR DUVIARD (Inc. Jap.)—Lilac, with paler reverse. 874. FLEUR GRENOBLOISE (Jap.)—Large flower, silvery white. FLEUR GRENOBLOISE (Jap.)-Large flower, silvery white, tinted lilac.
- 875. LE CHARTREUX (Jap.)-Immense flower, mauve with paler reverse, petals tipped yellow.
 - 876. L'EMINDRA—Creamy white, long florets.
- 877. MADAME ESCHENAUER (Inc. Jap.)-In way of Mrs. C. H. Poyne; blue with silver reverse
- 878. MADAME GUSTAVE HENRY (Inc. Jap.) Purc white, very strong grower. Award of Merit, R.H.S.; First-Class Certificate, N.C.S. 2s.
 - 879. MADAME J. CHAURÉ—Crimson red, with golden reverse.
 - 880. MADAME J. BERNARD—Golden yellow, long petals.
 881. MADAME J. SMEERS—Pure white, rather early.

 - 882. MADAME L. BOURGETTE (Jap.) Enormous brilliant rose colour, vigorous grower.
 - 883. MADAME MAILFAIT (Inc. variety)—Dark violet, paler reverse.
 - 884. MADAME MEEUS DE PROLI—Large Japanese of the purest white, very long petals.
 885. MADAME R. GRENIER (Inc. Jap.)—Pure white, petals extremely large.
 886. MRS. J. LEWIS (Ref. Jap.)—Pure white, very early. First-Class Certificate, N.C.S.
- Award of Merit, R.H.S. 2s.
 - 887. MA PERFECTION (Inc. Jap.)-Pure white, very dwarf grower. F.C.C. 2s.

- M. A. CHARMET-Dark violet with paler reverse, tubular petals.
- M. ALFRED RECOURA (Inc. Jap.)-Bronzy yellow. 889.
- M. DELAMOTTE (Inc. Jap.)—Deep yellow. 890.
- M. DESIRÉ BOURDOIS (Inc. Jap.)-Crimson red, with golden reverse.
- M. EDOUARD ANDRÉ (Jap.) Large old rose colour, very large petals.
- 893. M. E. ROSETTE (Jap.)-Large long petals, rather early.
- M. HOSTE (Ref. Jap.)-Enormous flower; white, tinted rose and yellow. First Class Certificate, N.C.S. 2s.
 - M. VILLENEUVE-BUTEL (Inc. Jap.)-Violet, with paler reverse; a rather late variety. 895.
 - MONT ST. EYNARD (Inc.)-Golden yellow, large globular flower.
 - PERLE DAUPHINOISE (Inc.)-Golden yellow, petals regularly incurving.
 - 898. RACHAIS (Inc. Jap.)-Colonr old roso, golden reverse.
 - 899. REVE D'OR (Inc. Jap.)-Bright eanary yellow.
 - 900. SOUVENIR DE MA SŒUR (Inc. Jap.)-Liiac colonr, reverse pale mauve.
 - 901. SURPASSE GAMBETTA (Jap.)-Immense; colour brick red.
 - 902. VICOMTE ROGER DE CHÉZELLES—Yellow, striped red, long petals.

Those not priced 1s. 6d. each.

NEW VARIETIES OF 1896.

Sent out by H. CANNELL & SONS and proved to be good.

503. A. H. WOOD (Jap.)-A heautiful yellow sport from Primrose League, having a much broader petal than its parent, and constitutionally stronger; has been much admired.

buds. 1s. 6d. 904. AUSTRALIE (Jap.)-Producing massive, well-built flowers, beating the record in size of blooms. They come of enormous dimensions, and of a light rosy amaranth, with a soft silvery reverse. Crown bnd. Is. 6d. Four First-Class Certificates. 905. C. J. WHITTINGTON (Jap.)—Producing immense hold flowers, broad petals, very

rich amaranth, with clear silvery reverse; a grand variety. Crown bnds. 1s. 6d. 906. COL. CURZON (Inc. Jap.)—A seedling from the well-known variety Louise, in every way identical with its parent except colour, which is of a beantiful self-pink shade; fine flowers. Late erown. 1s. 6d.

907. G. CARVELL (Jap.)-Flesh colour, of a most pleasing shade; the hlooms are large and

fine; very distinct; dwarf habit. Crown huds. 2s.

908. JOHN APLIN (Jap.) -- A grand flower, and forming into a very refined Etoile de Lyon

eolonr rosy-pink; very broad florets. Crown hud. 1s. 6d.
909. MRS. A. H. WOOD (Jap.)—A lovely deep flower, the form of a well-grown Mme. Carnot, the lower half of the flower is white, suffused pink, the centre being pure white; very attractive

on the exhibition board. Early terminal. 1s. 6d.

910. OCEANA (Inc. Jap.)—One of the hest novelties of the year; very hroad incurring florets; heautiful large flowers of a rich golden yellow. We exhibited this variety, and it obtained four First-Class Certificates in one week. N.C.S., R.H.S., Sheffield and Birmingham. Crown bnd. 2s.

911. PRIDE OF MADFORD (Jap.)-A splendid variety; broad florets incurving towards the ceutre; rich rosy amaranth, reverse shaded silver; fine flowers. First-Class Certificate.

Strike cuttings early, and secure erown hud. 1s.

912. PRIDE OF SWANLEY—A very large Japanese variety, with long drooping florets, pure white, of mediam width, forming a deep globular flower. First-Class Certificate, N.C.S. 2s. 913. SYDNEY B. LEVICK (lne. Jap.)—Florets deeply grooved, and of a rich reddish crimson, reverse of petals golden huff; an aequisition. Terminal hud. 1s.

T. L. TURK (Ref. Jap.)-Bold deep dowers, colour pure golden buff. Crown bud. 1s 6d. 914. T. L. TURK (Ref. Jap.)—Bold deep flowers, colour pure golden buil. Crown but. 19 de. 915. WOOD'S PET (Jap.)—A lovely variety, the result of a cross between Swanley Yellow of Sunflower and Mons. Bernard, the formation of the flower is a fac simile of Sunflower, but of Sunflower and Mons. Bernard, the formation of the flower is a fac simile of Sunflower, but of a beautiful resy-amaranth in colour, with a silvery reverse; each petal having a graceful twist makes it most unique. Late crown. 2s.

H. Cannell & Sons' Floral

NEW MERITORIOUS VARIETIES FROM VARIOUS SOURCES OF 1896.

916. ADELAIDE RUSSELL (Dec.)-A distinct sport from Mon. Wm. Holmes, the colour being a beautiful golden-bronze; profuse bloomer, very useful for market and decorative purposes; good labit. Plants, Is.

917. ALICE M. LOVE (Inc. Jap.)—Long-pointed, lovely incurving petals of the purest
white. First-Class Certificate.

5s.

918. AMY SHEA (Jap.)-Large, broad reflexed petals; colour ruby-red, with a golden reverse; very distinct. 1s. 6d.

919. ANNIE TWEED (Single)-Dark velvety marcon, purely siagle, dwarf branching habit;

a good acquisition to the class. 1s.

920. A. PAYNE (Inc. Jap.)-Massive flower, with broad incurving petals of good substance,

inside of petals lovely shade of rose with silvery reverse. 1s. 6d.

921. ARONA-Seedling from Virian Morel. The blooms are large, of a rich yellow, shaded with bronze; the inside of the florets flushed und brightened with carmine. It may he best described as an improved Col. W. B. Smith, but the florets are of greater substance, and the bloom is a much better keeper. One of the best introductions of the season. Comes good from any bud. Two Certificates, R H.S. and N.C.S. 2s.

922. BARBARA FORBES-White, equal to the Queen of the Earlies, but the florets are of different form, and the blooms are somewhat larger; a lovely variety. First-Class Certificate,

N.C.S. 2s

923. BEAUTY OF TRURO (Jap.)-A yellow ground sport from the hairy variety Louis Boehmer, deeply flushed purple-bronze. 1s. 6d.

924. BELLEM (Inc. Jap.)—Bright pink. incurving petals of fine substance: a massive exhibition flower; one of the best pinks ever raised. Terminal buds. First-Class Certificate. 1s. 6d. 925. BONNIE DUNDEE (Inc.)—Orange inside of petals, lined and shaded rosy-bronze without, the back of petals edged yellow; a splendid globular flower, fine substance; the brightest shade of orange in the section; good habit. Terminal buds. First-Class Certificate, N.C.S. and R.H.S. 1s. 64.

926. CHITO—Clear yellow, full reflexed Japanese. 1s. 6d.
927. CECIL C. PRATT (Jap.)—Nankeen yellow, lined und tinted soft piak; long twisted petals booked ut points; grand exhibition flower; strong robust grower Crown buds. 1s. 6d.

928. C. E. JEFFCOCK (Jap)-Very refined; long petals incurving at the tips; colour rich

terra-cotta, suffused with crimson buff reverse, 2s.

929. COMMANDANT SCHNERDER (Scented Ref.)—Small reflexed flower, having the

some sweet scent as Progne; robust grower, free flowering; light purple amaranth. 9d. 930. C. W. RICHARDSON (Jap.)—One of the largest and most beautiful varieties yet introduced; long drooping and twisting petals, twisting and intermingling. 2s.

931. DOLLY (Pom.)-A very compact and beautiful variety, useful for exhibition or decoration;

pale canary-yellow. 9d.

932. DOROTHY GIBSON (Ref.)-A deep well-formed flower of the richest golden-yellow; handsome; the best addition made to this class for years; fiae sturdy habit. Crown buds. Class Certificate at N.C.S. and R.H.S. 1s. 933. DOROTHY SEWARD (Ref. Jap.)—Very large, full flower, and of great depth; bright

terra-cotta red, keeping its colour well to the last. Crown bud. 2s.

934. DR. BOND (Ref. Jap.)-A large reflexed flower; a considerable depth; colour bright canary yellow. 1s. 6d.

DUCHESS OF FIFE (Inc.)-An enormous flower of great depth and of good substance, beautifully shaded petals of the purest white; a back row flower, and a good companion to Chas. H.

Curtis. Late crown buds. First-Class Certificate, N.C.S. 1s. 6d.
936. EDITH TABOR (Jap.)—Large and handsome, broad drooping florets earled at tips; very fine lemon yellow, quite distinct; strong vigorous babit, medium height, and easy to grow.

First-Class Certificates awarded. 2s.

937. EMILY SILSBURY (Jap.)—A rival to Malle, Therese Rey, but much easier to grow, and a flower of more substance; pure white, with long drooping and gracefully curling petals; an invaluable exhibition variety, and good for market purpose; good on any bud. First-Class Certificate. 1s.

938. EUCHARIS (Single)-Pure white as Elaine, as free as a Marguerite, and of exquisite shape; the finest yet introduced. 1s.

939. EXMOUTH YELLOW (Jap.)—Full and deep, outer petals drooping in a charming manner; pure white, delicately shaded clear piuk; good habit, casy doer, highly recommended.

940. FRANK ASHMAN (Inc. Jap.)-Magnificent rich golden vellow, shaded and tinted bronze-red; splendid form and substance; the broad petals beautifully incurving, and forming

a perfect ball; terminal bude. 1s. 6d

941. GENERAL ROBERTS (Jap.)-Red, shaded carmine; enormous flowers, the lower florets of which are tubulated and spatulate, gracefully intermingling; on the crown of flower the florets are broad and flat; one of the largest; early terminal buds. 1s. 6d.

942. GENERAL ROCKE (Jap.)-Deep amaranth, silvery reverse. There are many of the

amaranth shade of colour, but none so pretty and distinct as this; of easy culture. 1s.

943. GEORGE HAIGH (Inc.)-A distinct sport from Robert Petfield, and closely resembles that variety in form and habit, but the colour is a lovely carmine-rose, shaded golden brouze; a splendid exhibition flower, will take a foremost position in its class. Crown buds. First-Class Certificate nt N.C.S. 2s. 6d.

944. G. LANGDON (Jap.)-Large, long and broad petals, slightly curling at the tips; colour

levely capary yellow; a flower of good substance. 2s.

945. HAROLD WELLS (Inc.) - A sport from Sir T. Lawrence, lovely creamy yellow, broader

petals than Golden Empress of India. 2s.

946. HELEN OWEN (Jap.)-Orange-yellow, shaded and tinted apricot; very long florets, twisting and intermingling, forming a massive flower; very distinct and beautiful. Crown buds. 1s. 6d.

HERBERT J. CUTBUSH (Jap.)-A unique flower, with long petals of medium width; 947.

colour deep red, heavily striped yellow; nseful exhibition variety. 2s. 948. H. T. WOODERSON (Jap.)—Massive flower, with long broad petals of thick leathery substance; style of Wm. Tricker, only much larger; colour soft rose, silvery white reverse. 2s.

949. H. CHEESEMAN (Jap.)—Crimson, tipped gold; making a grand flower. 3s. 950. H. WOOLMAN (Jap.)—Another of the best, with long twisting and curling petals, incurving at the ends; very large and deep flower; colour rich hronze, beautifully overlaid with

951. JAS. BIDENCOPE (Jap.)-Rosy amaranth, silvery reverse; broad florets, long and slightly twisted; large and handsome; terminal buds. 1s. 6d.

952. J. LYNE, JUNR. (Inc.)-An exhibition bloom of perfect form, and petals of the truest

type; colour a pleasing shade of light golden-bronze. 1s. 6d.

953. JOHN SEWARD (Jap.)-An immense flower, 9 inches across; bright canary vellow; constant easy grower. 2s. 6d.

J. PEARSE (Inc.)-Large flower of perfect shape; a distinct shade of light rose;

fine exhibition variety.

- 955. KATE WILLIAMS (Single)—A lovely rich golden-yellow, perfect in form and size; a grand bloom for exhibition: sweet-scented. First-Class Certificate. 1s.
- 956. KHAMA (Jap.) Carmine red, golden-bronze reverse; long petals of medium width, turning over and showing the reverse; full deep flower; dwarf and vigorous habit. Crown buds. 1s. 6d. 957. LADY BYRON (Jap.)—Pure ivory-white, shaded green in centre until fully expanded; an exceedingly handsome variety. 2s.

958. LADY ESTHER SMITH (Inc. Jap.)-Pure ivory white, broad incurving florets of good substance, grand and massive blooms. Will make one of the best whites, either in October or November; an excellent keeper: sturdy habit. Awarded Certificates. 1s. 6d.

959. LADY KENNAWAY (Oct. Flow.)-Beautiful pink, somewhat similar to the colour seen

in Baroness Rothschild rose; blooms are deep, and florets of medium width. 1s.

960. LADY RIDGWAY (Inc. Jap.)-Lovely salmon-buff, rosy red inside of petals; large dcep solid flower, massive build, beautifully incurving, petals tipped gold; splendid exhibition variety; terminal bnds. 1s. 6d.

961. LAGO MAGGIORE (Jap.)-The grandest and richest yellow flower yet introduced. In style the bloom resembles Sunflower, but in size and substance an immense advance upon that well-known variety. All who have seen this glorious flower pronounce it to be the most distinct acquisition of this colour yet brought into commerce; a most telling exhibition flower. First-Class Certificate. 2s. 6d.

961A. MADAME ROZAIN-A fine large flower of a slightly incurved build; colour pearly-pink,

long petals of fine substance. F.C.C. Plants, 6d.; cuttings, 4d.

962. MAGGIE SHEA (Ref. Jap.)-A very large flower, with broad petals slightly curling nt the tips; colour rich clear yellow, with a light primrose reverse; a valuable exhibition variety. 1s. 6d.

963. MARJORIE KINDER (Inc. Jap.) - Large, broad leathery incurving petals; colour rich yellow, lighter reverse. Is. 6d.

964. MATTHEW HODGSON (Jap.)-Bright crimson-red; a beautiful distinct and high-class flower, of medium size; good grower; very promising. Commended. 1s. 6d.

965. MILANO (Jap.) -A very large reflexed flower, with broad petals of great length; colour

cherry-carmine with bright bronze roverse, 1s. 6d.

966. MODESTO—Rich yellow; one of the best yet raised. First-Class Certificate, N.C.S. 3s. 967. MISS CLARA WALKER (Jap.)—Beautifully chaste and refined, with extremely long

tubular petals; large spreading form; colour purest white. 1s. 6d.

968. MISS FLORENCE LUNN (Ref. Jap.)—A true reflexed flower, and probably the most refined and distinct of its type; an important addition to this limited class; light amaranth; full deep flower. 1s.

969. MISS L. J. MATTES (Jap.)-Very handsome flowers, petals very long, erect, and tubular; inner surface of florets rich rosy-bronze, reverse being paler; habit dwarf; of easy culture.

970. MISS MARY GODFREY-Blooms are very deep and of beautiful form, of a lovely silvery-pink, edges being several shades darker; a distinct and lovely variety; habit strong and robust. 2s.
971. MISS MURIEL GOSCHEN (Jap.)—Large dense flower, with long earling and drooping

refined petals, building up a bloom of good substance and depth; colour soft yellow.

972. MISS PHYLLIS FOWLER (Inc.)—Large perfect flower of exquisite form and great depth, petals beautifully incurring, and pointed in the Princess style; colour primrose-yellow; late erown buds; a companion to Chas. H. Curtis. 2s. 6d.

973. MR. A. G. HUBBUCK-A magnificent flower with innumerable reflexed petals; colour bright shade of chestnut-red, with gold reverse; very distinct and telling colour. This is a bloom of large proportions, and will be invaluable to all exhibitions. 2s.

974. MR. B. HOOKE (Ref.)—A good addition to this class; beautiful chestnut-red, florets tipped gold; a lovely colour and a decided acquisition; good habit. Crown buds. 1s.

975. MR. G. HOLLINGSWORTH (Jap.)-A very distinct flower of medium size, long flat

petals notehed at the tips; colour soft shade of primrose-yellow. 2s.

976. MR. P. PURNELL (Inc. Jap.)—Charming compact flower, with shaving-like petals of much substance, pleasingly eurling, and forming a most unique bloom; a decided acquisition to this section; colour inside violet-rose with a silvery white reverse. 1s. 6d.

977. MR. W. LAYCOCK (Jap.)-A charming variety of great mcrit; large and of fine form,

florets long; very pale yellow but not of a creamy-white; plants only. 1s. 6d.

978. MRS. A. E. STUBBS (Single) - The most perfect form of a pure white exhibition single variety yet introduced; a very chaste flower, invaluable for decorative purposes. Two First-Class 1s. 6d. Certificates.

979. MRS. ARMISTEAD (Jap.)-White, striped and flushed rosy-pink; long narrow florets; full exhibition flower; a charming variety, having a delieate perfume of violets. Crown bud. 1s. 6d.

980. MRS. BRISCOE-IRONSIDE—Flesh pink, incurving, dwarf; a handsome variety. 2s. 981. MRS. CHAS. BLICK (Jap.)—A lovely pure white of fine habit; graceful long florets; a grand acquisition. Awarded several Certificates. Plants ready in March. 1s. 6d.

982. MRS. C. ORCHARD (Inc. Jap.)—Another distinct flower with broad incurving petals,

slightly hoisting; colour bright sulphnr yellow. 2s. First-Class Certificate, N.C.S.

983. MRS. COTESWORTH BOND (Ref. Jap.)—A distinct flower of large proportions; colour soft pink, shaded white; a very pleasing variety. 1s. 6d.
984. MRS. E. E. COOKSON (Jap.)—Deep crimson, flushed yellow on reverse of petal; florets very long, flat, and creet; makes a full deep flower; very large; good habit; fine grower. 1s.

985. MRS. G. CARPENTER (Jap.)—A lovely variety of a rosy-manue colour; the florets twist and intermingle, showing a silvery reverse; very fine. Crown bud. 1s. 6d.
986. MRS. G. GOVER (Jap.)—Large, with long and drooping petals slightly curling at the

tips; colour rich crimson, bronze reverse; fine exhibition bloom. 1s. 6d.

987. MRS. G. H. SMART (Inc. Jap.)-Large flower of the truest form; colour golden buff, inside of petals snffused red. 1s. 6d.

988. MRS. HARRY CHIESMAN (Inc. Jap.)-Chaste flower, with long and broad incurving petals, building up a flower of large proportions; colour pure white, slightly tinted green. 1s. 6d. 989. MRS. HERMANN KLOSS (Jap.)-As large as Etoile de Lyon, with similar broad, flat florets and high build; colour dark orange, flushed chestnut-red; should be grown strong and takeu

on second crown, as it is apt to come coarse. 2s. 990. MRS. HUME-LONG (Jap.)—An immense bloom, yet free from coarseness; florets very long, recurving and twisting from the centre in a most even manner; deep rose, lighter reverse;

distinct. 2s.

991. MRS. H. WEEKS (Jap.)—Beantiful pearly-white, shaded light pink; undoubtedly the largest as well as the handsomest flower yet raised. 2s.

992. MRS. JOHN FORBES (Oct. Flow.)-White; a lovely and most valuable variety. 1s. 6d.

993. MRS. JOHN SHRIMPTON (Jap.)—Perfectly distinct from any other variety; very constant, every flower coming good; golden buff, shaded and striped crimson-red; very telling colour. Crown bud. 2s. 6d.

994. MRS. PINKNEY (Inc. Jap.)—Massive flowers, petals very broad and long, rich deep yellow, best described as a great improvement upon *The Tribune*; good habit; strong grower. Late crown bnd. 1s. 6d.

995. MRS. RICHARD JONES (Jap.)—A very large spreading flower, with long reflexed petals incurving at the tips; colour of the purest white. This is one of the most promising white flowers of the season, and all growers should secure it. 1s. 6d.

996. OLGA TEICHMAN (Jap.)—Novel, reflexed; pointed petals of medium width; colour rosy-manye; a very distinct shade. 2s. 6d.

997. OLIVE OCLEE (Inc. Jap.)—One of the best incurved flowers of the truest form; large and deep flower, with broad petals of great substance; colour rich bronze, shaded yellow. Certificated at the R.H.S. and N.C.S. 1s. 6d.

998. PRIDE OF EXMOUTH—Will take a high place on the exhibition stand; blooms full and deep; colour from early bads pure white, later bads white, delicately shaded clear pink; good habit; of easy culture; one of the best. First-Class Certificate, N.C.S. and R.H.S. 2s. 6d.

999. PRIDE OF MAIDENHEAD (Ref. Jap.)—A magnificent flower; ivory white with lemon centre, long spreading florets of medium width; of great depth; grand exhibition variety. Crown buds. 1s. 6d.

1000. PRINCESS ENA (Hirsute)—This splendid novelty originated at the Royal Gardens, Windsor, and is a sport from *Hairy Wonder*; the *Princess* has all the good qualities of the parent, and a great advance, owing to its more pleasing colon—clear warm rosy pink; a grand acquisition. Award of Merit. 3s.

1001. PRINCESS MAUD (Inc. Jap.)—White, shaded pink; gracefully incurving florets; very solid, and forming a splendid flower; strong and healthy. Crown or terminals. 1s. 6d.

1002. QUEEN OF THE EARLIES (Oct. Flow.)—Specially recommended for decorative purposes or cut flowers for market. A capital keeper and of good substance; of the purest white; an advance. Plants only. 1s. 6d.

1003. REV. S. G. SCOTT (Jap.)—Large flower, with very long petals of medium width, curling and incurving at the tips, making a bloom of large size; colour inside of petals claret-red, with a very deep buff reverse. 1s. 6d.

1004. ROBIN ADAIR (Jap. Anem.)—Large fine-shaped flower; grand florets, blusb wbite, finshed lilac; centre florets lilac pink, shaded yellow. First-Class Certificate at N.C.S. and R.H.S. 1s.

1005. SIR T. LAWRENCE (Inc. Jap.)—Pure white, broad pctals; a grand exhibition flower, good on either bud. 1s.

1006. SIMPLICITY (Jap.)—Pure white, of splendid form. 2s. 6d.

1007. SUNSTONE (Inc. Jap.)—Straw yellow; a grand flower. 3s.

1008. TAM O' SHANTER (Jap. Anem.)—Λ lovely rosy lilac, with lighter shadings; gnard petals finted and twisted, the bigb cushion being edged yellow; good habit. 1s.

1008A. T. B. HAYWOOD (Jap.)—Pure white; very large handsome flower. This is especially good for growing in small pots for grouping. Plants 2s.; enttings 1s.

1009. VICAR OF EXMOUTH (Inc. Jap.)—Very broad florets; rich crimson amaranth, silvery reverse; habit stiff and sturdy; handsome and distinct. 1s. 6d.

1010. WALTER OWEN (Jap.)—Reddish crimson, bronze reverse; broad florets, slightly toothed; large full flower; a telling colour; fine habit. Crown or terminals. 1s. 6d.

1011. W. SLOGROVE (Inc. Jap.)—Said to be the best deep yellow up to date. First-Class Certificate at R.H.S. and N.C.S. Of easy culture. 1s. 6d.

1012. W. WRIGHT (Ref. Jap.)—An enormous flower, with long petals of medium width, making a flower of large size; colour bright pink, tinted primrose. $2s.\ 6d.$

1013. YELLOW ELSIE (Cannell), syn. GOLDEN ELSIE (Ref. Dec.)—A true sport from the pretty primrose coloured variety named Elsie. This is equally as useful, only of a decided yellow; very free. First-Class Certificate at N.C.S. 9d.

BOUTONNIÈRE, ÆSTHETIC, AND SPIDERY CHRYSANTHEMUMS.

Where refinement in decorations is desired these will now take the place of the Pompon and single-flowered varieties, and will undoubtedly occupy a position in Chrysanthemnums similar to the Cactus-shaped kinds in Dahlias, which have gained such well-merited popularity throughout the world. It is our full conviction that these light, graceful, and yet fantastic shaped Chrysanthemnums will attain a promiuent position in even a much shorter time, and owing to their lasting properties when cut, which is a great advantage, they will be eagerly sought after and used by every lady who admires something neat and nice for the decoration of the table. For huttonholes and sprays they are even a worthy rival to the Orchid, both in appearance and keeping qualities; no garden or greenhouse ought to be without them. See opinions of the gardening papers and the Press.

1014. MRS. FILKINS-Of Japanese form, medium-sized flowers prettily cut and notched; very free flowering; a bright golden yellow. Award of Merit, R.H.S.

1015. SOUV. DE MME. G. EYNARD (Dec. Jap.)-A most wonderful arrangement of colours, reddish chestunt tipped golden yellow, tip of each petal is twisted; very attractive and novel.

SILK TWIST—Of a rosy mauve and cream shade, full double flowers; pretty.

ALICE CARTER—Colour reddish brown, tipped with gold; distinct and novel. 1016. 1017.

1018. CENTAUREA—Deep orange yellow; very distinct.

1019. MRS. JAS. CARTER—Colour pale yellow, passing to white. 1019a. PIPER HEIDSIECK—Creamy white; mo-t profuse. 1020. BOUQUETERRE—White, tipped with yellow and rose.

1021. CHEVEUX D'OR-Rich golden yellow. 1022.

JITSUJETUI—Silvery piuk; very pretty.
KING OF PLUMES—Rich deep yellow, prettily cut and notched. Award of Merit. 1023.

WHITE ELKSHORN-Pure white; extra. 1024. COUNTRY OF GOLD-Yellow; very free. 1025.

YELLOW SULTAN-Golden yellow; very compact and dwarf.

1026A. MIDGET (Jap.)—Smallest and most perfect form of any flower; of lovely refined shape; innumerable small florets; colour white, shaded pink; very free and good grower, and has the most valuable property of flowering profusely all through December. Cuttings, 1s. each; rooted, 1s, 6d.

All those not priced, 6d. each

SIMPLY AN ANNOUNCEMENT.

We are on the best of business relationship and have special terms with all Trade-growers. Our orders for new varieties are already given for large quantities, so that we may have the first early plants, and thus enable us to despatch with our own all new kinds of other raisers in one package; and we further respectfully intimate to all those who wish their orders to be sent in first-class condition, that they should forward their commands as soon as possible after receipt of this New List.

CHRYSANTHEMUM CUTTINGS.

We have adopted quite a new system for the supply of cuttings, which we are sure will be much more satisfactory to the purchasers, and far more successful than those supplied in the usual way from plants which have stood close together with their long drawn-up enttings, and often from those not very healthy, whose colours have been strained to the utmost.

We now plant out our stock of young plants first week in May in the open ground, and cut them down the end of September, then lift them with large balls of earth and plant them in our earth-stage, close against the glass. They soon begin to throw up quantities of cuttings of a short sturdy nature, quite different to those from exhibition plants, and the difference is such that all growers who have seen our two houses, 100 ft. each, full of these roots, would decide never to grow from the over-worked old stools again.

LARGE-FLOWERING INCURVED VARIETIES

FOR CUT BLOOMS.

Those varieties marked with a (*) are those that have been exhibited, and were amongst the winning classes at the principal shows throughout England. All those with a (†) are the best for exhibition specimen plants. (a) Raised and sent out by H. C. & Sons.

Established Plants of all Chrysanthemums not priced, 6d. each. Cuttings, purchaser's selection, 2s. per doz., except those priced higher; our selection, 1s. 6d., 10s. per 100. Cuttings of new varieties at a proportionate price.

All are flowered yearly on purpose to keep them true to name. Always a large quantity of Stock Plants ready for propagating or for growing into specimen and flowering plants.

JAPANESE CHRYSANTHEMUMS.

SECRETS IN COMPETITION.

Although the Japanese do not require to be made as uniform as if they had been east in one mould, like the incurved and recurved, yet they require similar arrangement, so that they each present a regnlar and pretty form, whatever their natural shape may be. Massiveness and great depth of flower is most appreciated; flat hollow centres and undecided colours should be avoided. No model can be set np in this section as the one required. Yet whatever style of twisting, enrling, or recurving best suits the variety, to assist that growth of the flower to develop itself, and when done, it must be such as the eye will cause the tongue to say, "That is pretty; I like that variety." It generally follows, what pleases the public pleases the judges, and that is the secret of success.

EARLY-FLOWERING CHRYSANTHEMUMS.

ARLY flowering Chrysanthennums are making rapid improvement; we now give them more attention and grow them better. Our house, after the Carnations and Picotees were removed, and during August and September, was really a fine sight. It cannot he said we have nothing but Dahlias in the autumn, for these can he had in abundance; yes, for many continue throwing up flowers after the first lot are cut—so very different to the ordinary November kinds, and for bedding many of the varieties make a grand feature. Mr. Brown, the Superintendent, Hyde Park Gardens, writes ns:—"Madame C. Desgrange has again made the most attractive hed in the Gardens this season, and these are fast becoming a most important section of this family, but like all Chrysanthemums they require to be well grown, otherwise they will end in disappointment."

COUNTRY GROWN PLANTS AND CUTTINGS.

The difference between our country grown plants and euttings, and those grown and sold in or near London or other towns, is so manifest, that no comparison can he drawn. Trne, they like soot at their roots, but not to he covered with it, as they must he when grown in such a situation, and for the want of light are poor and drawn up; whereas ours are clean, strong, and healthy, and will root in half the time, and make s'ronger and healthier plants.

When ordering, please quote edition of Catalogue, as the numbers are occasionally revised.

CHRYSANTHEMUMS. SINGLE

If we were to print half the extracts from the various horticultural papers, and the letters from those to whom we have sent flowers, including some of the highest titled patrons in the land, they would fill many pages, therefore we are convinced the following will suffice to cause these most highly useful and easily grown flowers to be cultivated in every garden. They are little or no trouble to grow; produce more blooms, last longer in good condition, either cut or uncut, than the doubles. In persistency of petal the single Dahlias bear no comparison, neither do they for real beauty and use. Further, they have a nice perfume, and for all kinds of decoration will not only add a new charm, but fill our tahles with brightness and beauty up to and past Christmas.

CHRYSANTHEMUM (MARGUERITES) PARIS DAISIES.

(Golden and Silver Stars.)

This class is really one of the most valuable for cut flowers; with only ordinary care they can be had in flower all the year. During the winter they are indispensable, and if afterwards planted ont they make a splendid bed; if they have a fault at all, it is because they are too easily propagated. They were much admired by all visitors at the Paris Exhibition, and are extensively grown in the French parks as bedding plants. The fact of their never ceasing flowering makes them household flowers everywhere.

850. ALICE CROUSSE-Dwarf and very free; one of the best.

851. BRANCHING ETOILE D'OR Bright yellow; habit and free blooming are all that can be desired. It is, in our opinion, the most serviceable plant sent out for many years.

852. ALMA BRUGGEMANN — Flowers single, beautiful clear golden yellow, edged white.

853. CORONARIUM FRUTESCENS -White; splendid bedder.

854. CORONARIUM GRANDIFLORUM -Blooms all the winter.

855. ÉTOILE D'OR-Yellow; blooms nine months in a year. 1s.

856. MADAME FARFÆILLON.

857. MAXIMUM - Pure white, yellow centre; fine for cutting. 6d. eacb; 4s. per doz.

858. MINIATUM- Wbite.

859. PINNATIFIDA—Beautiful foliage.

860. SPECIOSUM (Leucanthemum)-Supposed to be the original variety.

861. ULIGINOSUM (Pyrethrum) -White, large yellow centre, blooms in September; a valuable hardy species, splendid for cut flowers.

6d. each; flowering plants, 1s. each.

SINGLE FLOWERED ANNUAL CHRYSANTHEMUMS.

These novelties were obtained by crossing C. coronarium on to C. carinatum, and will prove a valuable addition to this class, and also very useful for cutting and decorative purposes.

862. *CHIEFTAIN-Large, bright yellow, dark disc; fine.

863. DUKE OF YORK-Deep yellow self;

864. *ELEGANS - White, yellow centre;

865. GOLDEN GEM - A beautiful rich

colour. 866. *PRINCESS MAY-White with deep yellow ring round an orange disc; fine shape. 867. *SUNSHINE — Bright clear yellow,

golden dise, florets broad; large and fine

*Received an Award of Merit. 1s. cach.

DOUBLE MARGUERITE (CORONARIUM CLASS).

Blooms all the year.

868. aAURORA, DOUBLE (Caunell)-Bright yellow flowers, small and wonderfully neat and pretty; invaluable for cut flowers, and for button-holes not excelled by any other flowers. First-Class Certificate. 6d.; flowering plants, 1s. 6d.

THE FIRST CHRYSANTHEMUM SHOW IN ENGLAND was held at Norwich in the year 1825, and the names of the varieties exhibited were: - Tasselled Yellow, Clustered Pink, Yellow Cluster, Silver White, Yellow Flame, Early Blush, Changeable Pale Buff, Large Lilac, and Golden Yellow. How happy nurscrymen and gardeners must have been in those days, with so few and such casy names!

II. CANNELL & Sons have the largest collection of the oldest and newest varieties in strong plants or enttings always ready, and warranted true to name. Also every appliance for exhibiting them.

Extract from the "British Gardening."

"It is not generally known that Mr. II. Cannell, of Swanley, proposed that the 'National Chrysanthemum Society' should assume that title. The Society, as reported a week or two ago in this journal, was originally a local organization, but Mr. Cannell, with his characteristic farsightedness, saw a future before it if it would but adopt the title of the National Chrysanthemum Society. The then president scouted the idea and vigorously opposed it. Eventually, however, it was adopted, with the results already known—namely, that it has grown into a powerful institution with a very wide reputation."

H. Cannell, Senr., would be glad to propose those sending 5s. as Members of the above Society.

SULPHATE OF AMMONIA.

This will be found useful in the cultivation of the Chrysanthemum, more especially to swell out the buds, and give vigour to the whole plant.

6d. per lb.; 7 lbs., 2s.; 14 lbs., 3s. 6d.; 28 lbs., 6s.

SPECIAL PRICES FOR LARGER QUANTITIES.

J. B. WROE, Esq., Alexandra Road, Patricroft, near Manchester, December 17th, 1896. I am exceedingly pleased with the Chrysanthemums you sent. They are as usual excellent, altogether refuting the argument that northern growers ought to purchase from the north.

J. McNicol, Esq., Ottawa, December 11th, 1896.

With much pleasure I inform you that I took First Prize for best group of Chrysanthemums at our Show with the plants received from you. This speaks well for your plants and packing, which is the best yet seen.

Mr. O. BRASTER, Gardener to Lady Martineau, Edgbaston, Birmingham, December 14th, 1896.

Please send on the enclosed list of Chrysanthemum cuttings. All I have had from you beforehave done well. I gained First l'rize for large group a' our last Show (eight competitors).

For pulling out the green eye or centre, and deformed petals. Price 1s. 9d. each.

IVORY TWEEZERS.

All who wish to have their Blooms in Perfect Shape on the Exhibition Table must have these.

Post free for 3s. 6d.

AWARDED HIGHEST RECOMMENDATIONS BY THE R.H.S. AND N.C.S. OF ANY TUBES YET EXHIBITED.

PROVISIONALLY PROTECTED No. 7141, 1894.

For Exhibiting Chrysanthemums and other Flowers.

The Cup has one Brass Side Spring which enables the exhibitor to adjust his flower with speed and accuracy in the tube or Water Container. It also has a very simple arrangement to prevent the necessity of plugging. X The Tube or Water Container has also one Brass Side Spring which passes through a Flange fixed to the Showboard from the under side.

By using these Tubes the exhibitor can raise his flowers seven inches from the board, with instant adjustment.

Ordinary make and quality, in case complete, 17s. 6d.

We hope all exhibiting the produce, either from our Seeds, Plants, and Manure will kindly drop us a note as to quantity, &c., and sufficient specially printed cards will be immediately sent to affix to each exhibit.

Anyone having seedlings or sports, or newly introduced Chrysanthemums of a distinct character, are respectfully requested to send blooms and full particulars to H. Cannell & Sons, Swanley, whose collection is the largest, best kept, and most complete, forming a continuous bank of 1,200 feet, blooming lovely; beyond question the finest sight of this grand flower ever offered for public inspection. All are asked to "Come and See" during the season. Many thousands of plants specially grown for export to all parts of the world.

CINERA'RIAS.

HAT a splendid display these make when well grown! yet many have the idea that they are a dirty class of plants, and always infested with fly, but when they are so, it is nearly always because they have been starved and confined in an unfavourable, dry atmosphere, and often placed next to some other infected plant. When seedlings or young plants are potted, place in a close frame for three or four days until they recover, and afterwards expose during the months of September and October to all favourable weather, and even during the night with as cold a temperature as possible, just excluding the frost, and, as soon as the pots are filled with roots, supply with liquid mannre, and at all times well surround with a moist, airy atmosphere. This family of plants should be the king of the greenhouse all through the spring, for really we know of no plant so easily grown as the Cineraria, and very seldom we find it necessary to fumigate until just before they are coming into flower. (For other particulars, see Seed List.) are coming into flower. (For other particulars, see Seed List.)

First Prize at Royal Botanic Society's Show, Regent's Park.

DOUBLE CINERARIAS.

Seeds, 2s. 6d. per pkt.

E have one of the finest collections, and were awarded the Gold Medal at Ghent, Belgium, for three dozen of these double flowers, which surprised Their Majesties both King and Queen of the Belgians.

*MISS BATEMAN-Pure white. STANDISHII—Deep lavender; very free. THE QUEEN—Delicate lavender.

VITALBA-Greenish white, small flowers; rampant grower. 9d.

Those marked * the best for pots.

OLEUS.

THE FINEST COLLECTION EVER BROUGHT TOGETHER.

HE following are the best and most distinct that have been sent out up to the present. No other foliage plant can for a moment hear comparison with them, so vivid are the colours of some varieties. No greenhouse in the summer season is complete without these charming plants; rear them in a warm corner of a stove or cucumber-frame, and gradually expose them as the heat of the season increases; give them a shift as they become pot-bound, and a few stakes to tie them into a pretty shape, with a little liquid manure twice a week, which is all they really require, for no insects and very few diseases attack them. Heat and moisture, and root-hound plants near the glass, are the main things to insure good high colours.

We devote a 100-feet house to their growth, which is alone worth a visit to Swanley. Plants, rooted cuttings, and cuttings, sent by post to all parts of Europe. Seed, 1s. 6d. and 2s. 6d. per pkt.

The following variety is very distinct and pretty, shape of leaf quite away from any other:-

LA TETE D'OR-Lovely deep green, tinted pink, with a black blotch in the centre of the lcaf; this, with its exquisitely pretty shaped leaf, renders it a most distinct kind. 9d.

The best 24, and most distinct.

1. BEAUMARCHAIS-Very distinct, crimson, slightly tinged purple at base of leaf.

2. PETIT ROBERT - Distinct and at-

tractive; good habit.

3. COUNTESS OF DUDLEY-Beautiful colours and foliage, forming into a well-shaped

4. BECKWITH'S GEM - Splendid highcolonred foliage; distinct and effective.

- 5. VESUVIUS-The richest and brightestcolonred variety yet introduced for colonrs. 1s.
- 6. EMPRESS OF INDIA-Bold foliage. creamy yellow, suffused emerald green, and marked deep purple; ground colour deep magenta - crimson intermixed with maroon, almost black at the edges.

7. FAITH—Distinct and pretty; haudsome

plant.
8. ELEGANS—Large and beautiful foliage, forming into a well-shaped plant.

- 9. PRINCE ALBERT EDWARD Foliage serrated and deeply cut; large and bold pale chrome, splashed emerald green, and bright erimson lake.
- 10. HERMIT-Onc of the most useful black and dark green varieties.

- 11. JULES CHRÉTIEN-A combinatiou of blotches varying in colour from crimson, maroon-red to a bright yellow tint; distinct.
- MRS. R. CHRISTIAN—Au improvement on Ville de Dijon; very distinctly marked, and rich colouring; a charming variety.
- 13. DISTINCTION-Intensely dark and velvety.

 14. LORD ROSEBERY—Centre of leaf
- rich elaret-erimson, hlotched blackish maroon. broad margin of hright green.
- 15. DR JACKSON—Distinct in colouring; foliage of medium size, in the young growth heing of a golden-chestnut shade, and later on veined with deep rose: unique.
- 16. CLOTH OF GOLD-Clear yellow, shaded green, the nearest approach to yellow. ·
- 17. MATTERHORN-Light greenish primrose ground, blotched dark maroon.

18. LOUIS CHRETIEN-Beautifully

serrated, centre white with green edge.

19. HART'S CONQUEROR—A very splendid variety; the brilliaucy and strong growth of this variety elicits the admiration of all for exhibition or market.

HENDERSONII- A very and well-known variety.

21. RESPLENDENT - Almost black, handsomely marbled green, and scarlet-erimson colours; good habit.

22. CHARITY- A distinct and beautiful variety, green ground, blotched chocolate, maroon

and yellow; attractive.

blotched and spotted with maroon, red, yellow, and green. 24. ARTHUR WHITLEY-Colour intense

23. CONRAD ROSENTHAL - Curiously

ruby-purple, mottled higher colour; shape distinct; quite an acquisition; long leaf.

9d. each, except those priced; the set for 14s. Small plants, by post, 12s.; cuttings, 6s. After April, small plants, 10s.; cuttings, 4s.

BEDDING COLEUS.

BLACK DWARF-Colour rich glossy black. It is too dwarf in growth to be used with the ordinary Coleus; but wherever Alternantheras, Alyssums, or other low growing bedding plants are used in ribbon lines or carpet bedding this can be used with novel effect. 6d. each; 5s. doz.

REFULCENCE—A very useful dark-leaved variety. 6d. each; 4s. doz.

TAYLOR'S PET-Deep crimson-maroon, and when planted out turning to black; it is said to

withstand the cold much better than the well-known Verschaffeltii. 6d.

VERSCHAFFELTII—Rich erimson leaves, fine for bedding, plants should be plunged into pots very thickly, so that the pots are covered with soil, and by this means it makes a grand hedding plant. 5s. per dozen: rooted cuttings, 3s. per dozen; on and after April 1st, 2s. 6d. per dozen. VERSCHAFFELTII SPLENDENS ROBUSTA—Similar in character to above, but more

rohust. 6d. each; 5s. doz.; after April, 4s.

SPECIES.

AROMATICUS—Very fragrant.

26. FRUTICOSUS-The old Nettle Geraninm. Best for grafting on.

MDLLE, J. BELLEFOND

47. VILLE DE DIJON. 48.

6d. each; euttings, 3d. each; after April, 2d. each.

49. PINEAPPLE BEAUTY-The most remarkable variegation ever raised; strong grower and producing every leaf as the plant gains size, one half becoming a hright yellow, and the other red; strong and oval. 1s.

EXHIBITION DAH'LIAS.

E have been awarded Medals for many years past. Although we do not grow for competition, we have exhibited the largest and most complete collections, many of the finest flowers, and made the greatest display.

It should be distinctly understood that we grow above 1,000 plants of the Show and Fancy class alone to the greatest perfection; in fact, they form quite a grand feature in our Nursery, and the following list is unquestionably most complete.

When these are well grown they are one of the nohlest and most heautifully made flowers in cultivation, but to grow them well they must have an anxious and industrious master, for their wants are continual from June to September. They require a good deep soil, well

trenched, and full of manure. Obtain, about the end of April, wiry small-stemmed plants, shift them at once into 6-inch pots, keep them in a fmme with the lights only kept on at night; plant them out when the first warm nights in June arrive, well stake them as they grow, and cover the ground with four inches of stahle mnnnre, watering them overhead every day, or oftener if the weather he very dry, and thinning the lateral shoots out in the case of medium growers, but those with large flowers less, supplying the plants when making their flower buds with a soaking of liquid manure, hesides washing them overhead every night to keep thrip from the flowers. The above directions are for show purposes, and the following varieties are most constant, finest for exhibition, and also make a grand display in shruhbery borders where allowed to grow as they like.

For ten successive years we were awarded by the Royal Horticultural Society, South Kensington, Gold and Silver Gilt Medals for the hest and most complete collections.

BEST SHOW VARIETIES.

Spring Prices, 5s. per dozen, except those priced; our Selection, 4s. per dozen.

M.L. Flowers with ground colours lighter than that of the tips are show kinds, and are included with the self-colours in this class.

2s. cach.

BEDDING DOUBLE DAHLIAS.

216. LE COLOSSE—The size (7 to 8 in. across) the flowers attain is astonishing, and yet of good shape. Mont Blanc as a white variety comes large, but this is much larger, very freely produced, of a reddish colonr, long wiry flower stalks, vigorous hahit, and attains the height of $3\frac{1}{2}$ ft. All those who wish to have a surprise in their gardens should grow it. A gigantic show variety. 1s. each.

217. GRAND DUC ALEXIS—Very large bold flowers, thoular shaped petals, almost closed at opening; pearly-white tinged blash, deeper towards the tips of florets; distinct and unique. The engraving conveys a correct idea of the wonderful formation of this flower. 1s. each.

223. CARL MENDEL—Deep crimson-red, good shape and habit. 3 ft.

224. FLORA MACDONALD - Primrose-

yellow. 3 ft.

226. GEORGE THOMPSON—Pure yellow, profuse bloomer, well above foliage; hest of its class.

227. KING OF DWARFS—Dark purple. 228. PLUTON—Pure yellow, free and dwarf.

229. RISING SUN-Rich scarlet, at times tipped white.

SAMBO—Rich maroou, shaded black. SCARLET GLOBE—Bright orange-scarlet, producing in abundance small perfect flowers.

231. WHITE BEDDER-White; free and dwarf.

232. YELLOW GLOBE—Similar to the above in growth.

233. YELLOW PET—Pure yellow; free, dwarf and compact.

POMPON VARIETIES, QUILLED FLOWERS.

234. ALWINE — Pretty shade of pink, slightly shaded lilac.

BERTHA - Creamy-blush, orange and red; distinct.

BRUNETTE—Red, often blotched and tipped white.

235. DEEGEN-Deep clear yellow; distinct.

LE COLOSSE. (See page 66,).
(67.)

5-2

GRAND DUC A-EXIS. (See page 66.)
(68)

Spring prices, 5s. per dozen, except those priced; H. C. & Sons' selection, 4s. per dozen. Pot roots, 5s. to 18s. per dozen.

We are the Headquarters for the finest Roots.

DAHLIAS (SPECIES).

380. DAHLIA IMPERIALIS-It requires to be grown in a large pot or tab all the summer, and treated like the others until about Oetober, when it ought to be removed into a large conservatory, and when in perfection it will attain the heigh: of 10 to 14 ft., and produce an abundance of single papery-looking kind of flowers of a rosy white, and when in full bloom it has an unusually grand appearance. 2s.

381. ARBOREA-Attains a height of about 6 ft.; mauve-coloured flowers. Can only be compared to a gigantic Anemone. 2s.

ARGENTEIS FOL. MARGINATA - Silver-margined foliage, with rosy-purple flowers; ornamental. 9d.

SINGLE DAHLIAS.

HE beauty of our collection, covering just upon an acre, last autumn was a sight never to be forgotten by the hundreds that saw them. For show purposes the flowers must be medium-size, with broad rounded petals, so that they form a perfectly circular flower, with small disc; and these, when individually wired and made to stand out in a symmetrical bunch, present a grand sensational appearance when ranged in a Rose Box with moss.

SINGLE CACTUS-SHAPED DAHLIAS.

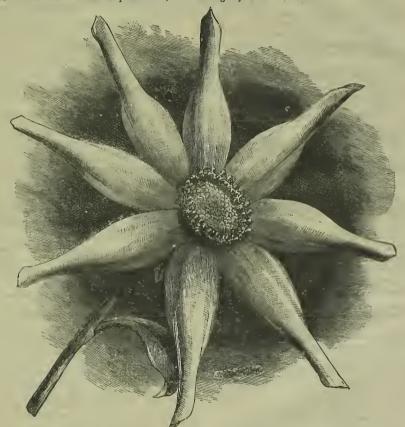

Special favourites with ladies, because of their remarkably graceful appearance. They have none of the formality and stiffness so characteristic of all the other sections.

ALICE LEE-Beautiful pink, shading off to white; one of the best. 3 ft.

383. ALTHEA—Deep glowing crimson; petals twisted and recurved. 3 ft.

ANNE OF GEIERSTEIN—Peach, flushed salmon; distinct. 3½ ft.

384. ARGYLE-Rich deep crimson, blooms slightly incurved. 3 feet.

SINGLE CACTUS-SHAPED DAHLIA, MARGUERITE.

BRUCE—Pale lemon colour of a beautiful shade. 3 feet.

BURNS—Buff ground, splashed with glowing crimson, florets curved and reflexed, 3 ft.

387. EARL OF RAVENSWOOD-Bright reddish terra-cotta; hushy habit; free. 388.

389.

GUY MANNERING—Creamy-white, sulphur shading; long, twisted petals. 4 ft. ISABELLA WARDOUR—Bright red; blooms rather flat. 4 ft. IVANHOE—Bright rose colour, with crimson band round centre, petals beantifully twisted 390. at the points, and slightly incurved. 3 ft.

KENILWORTH-Beantiful rose, streaked white; good form. 31 ft.

LADY ROWENA—Sulphur, tipped salmon-rose. 3 ft.

MARGUERITE—Certainly the best variety. Pure white, very light in shape and 392. eharacter, long stalks. In the formation of wreaths and crosses it will be found of great use.

MARMION—Glowing crimson-scarlet; showy. 3 ft.

393. MEG MERRILEES-Clear yellow petals, large and twisted. 31 ft.

NOVAR-Crimson purple, shading to magenta at the points of the florets. 3 feet. 394. PEVERIL-Deep terra-cotta; very frec. 3 ft.

QUEEN MARY-Purest white, with pale yellow disc twisted florets. 3 ft.

396. ROB ROY-Purple, with violet shading; medium size. 3 ft.

6d. each.

TOM THUMB DAHLIAS.

397. BANTAM—Dark scarlet. 11 in.

398. BOOTLES-Rich velvety red. 1 ft. 4 in.

400.

CANARY—Bright yellow. 1 ft. DAISY—Velvety crimson. 1 ft. 6 in. 401.

402. FAIRY-White, shading to pale mauve. 1 ft. 6 in.

403.

GEM—Clear bright yellow. 1 ft. 6 in.
GOLDEN FAIRY—Rich golden yellow; the best. 1½ ft. 1s.

404. HOOP-LA-Rich velvety maroon; self. 1 ft. 2 in. LILLIPUT-Light scarlet-tinted orange. 1 ft. 2 in. 405.

LITTLE NELL—Orange; good size. 1 ft. 6 in. MIDGET—Bright scarlet. 1 ft. 2 in. 406. 407.

MIDNIGHT-Deep velvety maroon; distinct. 1 ft. 1s.

408. MISS GRACE—Light orange. 1 ft. 2 in. PEARL—Deep manve; self. 1 ft. 3 in. 409.

TOM TIT-Orange-scarlet, light yellow ring round dise. 1 ft. 6 in 410.

539. EDWARD MAWLEY-Reddish crimson. 540. EMILY GIRDLESTONE-Orange-scarlet; real Cactos shaped, and of the best form.

- 541. ERNEST CANNELL-Real Cactus shape; fine large well-shaped flowers of a distinct shade of soft red, deeper centre; bushy habit; distinct. 3 ft. 6 in. F.C.C
- 542. ERNEST CHEAL-Award of Merit. Bright rosy-scarlet; fine shape flowers, with long pointed and twisted petals well above the foliage. 31 ft.
- 543. ERNEST GLASSE-Purplish magenta, true Cactus form, medium-sized flowers, petals pointed; very free. 4 ft. Two F.C.C.
- 544. F. BLAKE-Small pointed petals, medium-size bright magenta-crimsou shade, green centre; splendid habit. 1s.
- 545. GLORIOSA-A splendid variety; deep red, shaded scarlet, yellow at hase of florets, large fine formed flowers; distinct and grand. 9d.
- . HARMONY-Reddish-bronze, rather more yellow towards the centre; florets long, curled, and very pointed; very free. 3 ft. 1s.
- 546. JUAREZII-Most valuable and useful, its blossoms are of a rich scarlet-crimson. 4 ft. Must be thinned out to get fine flowers.
- 547. JOHN H. ROACH-Soft yellow, edged sulphur yellow, petals long and twisted, medium size; dwarf, free habit. 3 ft. 1s.
- 548. KENTISH INVICTA-Well-pointed florets; light chestnut, shaded red at buse of petals; dwarf and free; good.
 549. LADY H. GROSVENOR—Clear yellow, outer and older petals shaded buff.
- 550. LADY PENZANCE—Clear sulphur yellow, perfect in shape; the finest yellow. 9d.
- 551. MARQUIS-Deep rich velvety maroon or crimson, lighted up with a tinge of fiery crimson; the long-pointed petals. 4 ft. 1s.
 552. MAYOR HASKINS—The brightest-glowing crimson; the back of the petals are of a
- very pale red, and as the petals twist, they show this pale tint, and give the flower quite a tipped appearance. $3\frac{1}{2}$ ft. 1s.
- 553. MARY HILLIER—Buff-salmon, similar in form to Juarezii; very free, good habit, throws its flowers well above the foliage. 3 ft.
- 554. MATCHLESS-Rich deep velvety maroon; true Cactus type; the blooms are throwa well above the foliage. Awarded many Certificates. An acquisition. 9d.
- 555. MAY PICTOR—Colour pale yellow; true Cactus, with long petals beautifully twisted;
- very dwarf and free flowering. Awarded F.C.C. 3 ft. 556. MISS IRENE CANNELL-A lovely soft and pleasing shade of light peach-pink colour,
- shaded primrose towards base of florets; dwarf and free; charming. 1s. 557. MISS VIOLET MORGAN-Base of florets fawn or orange, shaded towards the edge
- with a delicate tone of pink. 4 ft.
 558. MRS. A. PEART—Creamy-white, true cactus shape; distinct. Four F.C.C.
- 559. MRS. A. BECK-Rich reddish salmon, petals very long and beautifully twisted; dwarf in habit, with flowers of medium size, &c.; wonderfully free. 3 ft. 1s.
- 560. MRS. BARNES-Pale primrose, gradually shading towards the ontside of the flower and towards the tip of each petal with the palest tint of rosy-pink; of exquisite shape, with long, twisted, pointed petals. 31 ft. 1s.
- 561. MRS. BENNETT-Soft crimson; a large, well-built flower; petals are broad but well curled, and show a very fine vein-like marking of a deeper tint. 3 ft.
- 562. MRS. GLOVER-Large fine flowers of a soft rosy-red, shaded orange; dwarf and free; distinct. 1s.
- 563. MRS. H. CANNELL-The most effective in its class, bright amber-shade; well-pointed medium-sized perfect-formed flowers; dwarf and compact; free. 1s.
- 564. MRS. HORNIMAN-Yellow ground suffused delicate pink, side margius of deep rosy-pink,
- medium size; very free; distinct. 4 ft. 1s. 565. MRS. C. TURNER—Bright yellow; large and distinct flowers, thrown well above the foliage on long stems. F.C.C., R.H.S. 3 ft. 1s.
- 566. MRS. LARKIN-An improvement on Beauty of Eynsford, bright amber-chestnut; free and effective; long flower stems; dwarf, bushy habit. 9d.
- 567. MRS. PORTMAN DALTON-Splendid dwarf bushy habit, vivid vermilion colonr, shading off to tips of petals to a rosy red, and occasionally tinted magenta. 1s.
- 568. PROFESSOR BALDWIN-This is a fac-simile of the old Juarezii, but much freer in bloom and lighter in colour, being of a bright orange-scarlet. 4 ft.
- 569. PURPLE PRINCE—Rich deep purple, sbaded bluish maroon; babit dwarf and compact; one of the best. Awarded Certificates. 9d.
- 570. ROBERT CANNELL Full-sized flowers; magenta, with a decided bluish tinge towards tips of petals; free and vigorous. 4 ft. F.C.C.
 - 571. ST. CATHERINE -A cadminm-yellow colour, or soft reddish amber; very free. 4 ft.

ROBERT CANNELL.

One of the most distinct real Cactus-shaped Dahlias yet introduced.

572. THE BISHOP—Bright coral red; florets long claw shaped, very pointed and curled, perhaps narrower and more curled than any variety; splendid. 3 ft. 1s.

POMPON CACTUS-SHAPED DOUBLE DAHLIA.

CANNELLS' GEM-An Award of Merit. The flowers are freely produced, small and neat, of a soft red shaded with orange; bushy habit.

DECORATIVE AND REFLEXED DAHLIAS.

The following are most useful and lovely for general garden decoration, and should be generally cultivated :-

573. APOLLO-Crimson-lake. 3 ft.

574. APHRODITE-Clear straw-yellow; very free; large.

575. BEAUTY OF EYNSFORD-Of a distinct shade of colour-soft huff, shaded, velvety cbestnut in centre; very free. 3 ft. 6 in. F.C.C.

576. BEAUTY OF WILTS—Soft terra cotta, shaded red, with long-twi-ted petals; very free.

Awarded Four F.C.C.

577. BLUSHING BRIDE-Blush white, fine flower, well above the foliage.

578. BRILLIANT-Bright fiery crimson, the back of each petal showing a purple tiut; a fine bold flower. 31 ft.

579. CANNELLS' BRILLIANT-Awarded F.C.C. wherever shown. Of the highest marooncrimson shade; medium size.

580. CANNELLS' FAVOURITE-Yellow-bronze or old gold kind of colour; free habit of growth; fine flower. F.C.C.

581. CHARMING BRIDE-Rose coloured tipped petals and pearly-white ground; attractive; fine free habit.

582. CONSTANCE, OR ARIEL — Pure white, valuable for wreaths, crosses, church decoration, &c. A good grower and very free bloomer. F.C.C. 6d. each; 4s. 6d. doz.

583. COUNTESS OF PEMBROKE—Attractive; of a delicate lilac colour. 4 ft.

DEAN HOLE-A glowing vermilion-searlet; good, vigorous, upright habit; very free flowering and effective.

585. GERMANIA-Said to be the prettiest-coloured of the whole family; colour white, shaded and tinged flesh, reminding all of that shade seen in La France Rose.

586. GLARE OF THE GARDEN (or FIRE KING)-Producing double the quantity of flowers of any other variety; small, dense, and brill ant are its flowers, with a lovely green foliage. 587. GLORY OF BRENTWOOD-Large dark purple flowers; very free.

H. CANNELL-Rich maroon velvety crimson, tinted purple at the points. 588.

539. HARRY FREEMAN-Of the purest white; useful.
590. HENRY PATRICK-Petals slightly recurved and twisted, pure white.

591. HONORIA-Pale amber; very distinct. 4 ft.

KAISERIN-Sulphur-yellow, outer florets tinged with lemon; very constant. 4 ft.

593. KYNERITH-A deep rich vermilion, lighter at base of florets. 4 ft.

LADY PRIMROSE—Pale yellow, tinged white; very distinct. F.C.C. LANCEOLOT—Similar in colour to Panthea; fine for entting. 5 ft. 594. 595.

596. LORD NELSON-Bright crimson-lake; a pretty formed flower, good size.

597. MAHALA SHERIFF-Pare white, large flower, broad petals; wonderfully free. 3 ft. 598. MAID OF KENT-Everyone admires it. Colour intense rich cherry-red, crimson ground, with pure white tips; very free. F.C.C.

599. MARCHIONESS OF BUTE-A fine improvement en Charming Bride; ground colour white, with rosy tips to petals; a charming combination of colours.

600. MILLIE SCUPHAM - The sweetest colour in Dahlias; light goldeu-bronze with a

richer hue near the ceutre of the flower; habit and freeness perfect.

601. MR. A. W. TAIT-Most peculiar and pretty. It is different to Constance in its serrated un-Dahlia like form and appearance.

602. MRS. G. REID (Lizzie Abbott)-Double flower, white, edged with rosy-lake, having the edge of the petals beautifully fimbriated. 31 ft.

603. MRS. GORDON SHAW-Beautiful rich erimson; free and effective. An Award of Merit. 4 ft.

604. MRS. HAWKINS-Free, close neat habit; rich snlphnr colour, tips of petals a lighter shade, and slightly tinted soft red; distinct.

605. MRS. H. CARTER-Large, open, broad flower, outside petals showing a slight tendency to cactus shape; colour lilac and white, with the most exquisite blush.

606. MRS. THORNTON-Fine large hold flowers; deep pink; soft magenta in ceutre: broad

flat petals; bushy habit. 4 ft. F.C.C.

607. MRS. VINCE—Pleasing and effective, lovely silvery-rose, flushed magenta; large. 3 ft.

608. PRINCESS CHRISTIAN—Of a beautiful shade of magenta, maroon at base of petals;

broad flat florets; dwarf, busby, and free. 3 ft. 6 in. F.C.C.
609. RED DRAGON — Glowing scarlet, hold flowers, a hright and effective golden-green centre; attractive; good habit.

610. REV. LOVELACE-Of a rosy-salmon shade, tinted pink and orange, bright chestnut at base of florets; free.

611. SALISBURY WHITE-Of the purest snow white, invaluable for wreaths, bouquets, and decorations of all kinds. 5 ft.

VULCAN-Bright reddish erimson, large and open; very free.

613. W. H. CULLINGFORD-Light chestnut, shaded red; dwarf and bushy; fine.

614. WILTSHIRE LASS-French-white, tinted blush: a most heautiful variety for cutting purposes, with long stiff flower stems. 4 ft.
YELLOW A. W. TAIT—Colour lovely; free bloomer, every flower standing up bold.

615. FLORET DAHLIA-A curious variety; may be called the Triple Dahlia; every petal or

quill is filled with another petal. 9d.
616. THE BLACK AND WHITE DAHLIA, MR. MILLER—Showy; small flowers, intensely dark, with a pure white blotch on each petal; most attractive and beautiful. 1s.
617. VIRIDIFLORA—Pure self green-flowered Dahlia. The flowers are Pompon size, double

and full petalled.

618. PERLE DE LA TÊTE D'OR-Very early, pure white, large fine flowers; very free, vigorous; most useful for borders, &c.; valuable for cutting purposes.

All those not priced, 6d. each.

DAISIES (BEL'LIS).

THE BEST BEDDING.

EW persons-gardeners in particular-have the slightest idea of the effect these have (when planted in lines like other plants) and their easy management, or they would fill their beds cvery antumn, and so have a grand display, equally as satisfactory, and with half the trouble, as the ordinary summer plants. With these and a few Violas and Primroses, every lawn can be made gay and beautiful all the early spring and summer months.

DELPHI'NIUMS.

DOUBLE AND SINGLE-FLOWERED.

HIS family is perhaps the noblest of all the hardy plants. Few bave seen the named kinds, those who bave not cannot form the slightest conception of their splendour. We have often been amazed at the intensity of their colours, and spikes of flowers averaging from one to two fect long. They should be in every garden, for if once planted beautiful flowers of all shades of blue may be cut four months in the year.

The undermentioned can be highly recommended as fine improvements:-

ALFRED HENDERSON-Violet, white centre; large. 5s. JAS. KELWAY-Deep velvety violet-blue, large white centre. 2s. JOHN THORPE-Deep brilliant blue, pure white centre : semi-double. 2s. 6d. 1s. 6d.

THE BEST DARK VARIETIES.

T is surprising what heautiful kinds, when well grown, there are in this list, which embraces all the best in cultivation; and the descriptions will be found the best in cultivation; and the descriptions will be found correct. Onr 100-feet house, filled with the entire family from their first introductiou, is a grand sight all through the summer and autumn at Swanley.

AN OLD FAVOURITE RE-INTRODUCED.

DUNROBIN CASTLE—A very distinct bedding variety, small dark foliage, producing an innumerable quantity of small coral-red flowers; when trained into standards it makes a lovely feature in all floral displays. 6d. each, 5s. doz.

- 1. ABUNDANCE-Bright red tube and sepals, rich dark purple corolla, shaded maroon; bright and effective; free. 9d.
- 2. AMIE-Sepals crimson, exceedingly long (21 ins.), very rich dark purple eorolla. 1s.
- 3. SALOPIA-Sepals crimson, corolla light purple, handsomely expanded corolla, 31 inches
- 4. ELEGANCE—Sepals erimson, singularly contorted or twisted, corolla deep purple, broadly striped with pale red. 1s.

WALTER LONG-Bright pale coralred tube and sepals, clear violet corolla, deeper in colour towards the edges; a very fine exhibition Fuchsia.

8. DELIGHT (Sankey)-Beautiful dark

corolla, sepals well reflexed.

9. EUREKA-Distinct; useful for decoration and market work; bright rosy-red tube and sepals, deep purple corolla, flushed magenta.

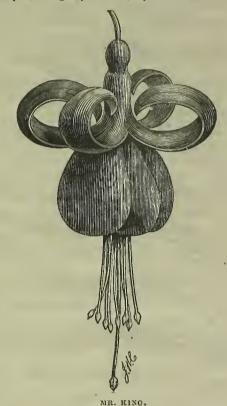

10. GAIETY (Sankey) — Very richly coloured, tube and sepals rich red, corolla

blackish satiny-purple; effective.
11. HERALD (Sankey)—Sepals long and well reflexed, corolla plum purple; a grand

- variety.
 12. MR. KING—Rich crimson-scarlet the, and sepals soft coral-red, corolla rich deep purple; fine habit; very free, medium size, well formed.
- 13. GENERAL ROBERTS Beautiful variety, of drooping habit, and will make a splendid (dark) companion to the well-known Mrs. Marshall. 9d.
- 15. PRESIDENT-Free habit, good form, flowers remarkable for their splendid substance, sepals well recurved, and tube of bright vermilion, corolla finely formed, and of a very rich
- 18. RESPLENDENT-Ore of the most perfect Fuchsias in the way of Lord Elcho; habit
- strong and vigorous. 22. EMPEROR - Red tube and sepals, maroon corolla shaded purple; useful for pillars.
- 24. SCARCITY-One of the most useful dark varieties; a splendid weeping habit.
- 25. LORD ELCHO-Fine bold flower, and if well grown very fine.
- 28. SPITFIRE-Sepals bright scarlet-red, corolla well-formed, deep magenta; showy
- 29. GAZELLE-One of the best habited dark varieties for exhibition.
- 30. LYE'S RIVAL-Red tube and sepals, rich violet-purple corolla; effective.
- 31. LORD LYONS-Corolla very large,
- 32. SIR BARTLE FRERE-Tuhe and sepals carmine, the latter reflexed; corolla large.
- 34. CHARMING-A very showy and effective variety; free and dwarf.

36. WAVE OF LIFE - Golden colonred leaves; rich scarlet tube and sepals, bright violet-blue corolla; dwarf.

37. IMPROVEMENT—Brilliant vermilion sepals, tube glossy carmine, sepals recurved.

38. LORD BYRON-Tube and sepals brighterimson, with large, open, bell-shaped, black corolla; fine habit, with sepals finely recurved.

39. ABD-EL-KADER-Flowers large and well produced; a very showy variety.

Young plants of all those not priced, 6d, each; larger, 1s, each.

Fuchsias with white tubes and sepals, and scarlet or pink corollas.

40. EYNSFORD GEM (Weston)-White tube and sepals, corolla fiery rosy-lake colour; without doubt the loveliest reflexed

Fuchsia in cultivation; strong and free. 9d. 41. GEM OF LAVINGTON—White tube and sepals, delicately tinted pale pink, very stont carmine corolla, flushed with soft violet; fine form, robust.

- 42. LADY DOREEN LONG Creamy white tube and sepals; deep pink corolla, suffnsed with pale violet.
- 43. LOVELINESS-Flowers large and stout, ereamy thhe and pale blush sepals, very long; pale violet-pink corolla, margined with carmine; can be highly recommended.

ANTIGONE-Tube and sepals white, sepals long; corolla soft orange-red 1s.

49. LYE'S EXCELSIOR - Creamy tube and sepals, stont and well reflexed, rich deep rosy magenta; corolla shaded carmine; a fine exhibition variety.

50. LUSTRE IMPROVED-Corolla large, bold, and colour intense; habit all that can be desired; a lovely Fuchsia.

54. BEAUTY OF TROWBRIDGE-Light

variety, and probably the best in cultivation.
55. WHITE SOUVENIR DE CHISWICK -Pure white tube and sepals, the latter long and holdly reflexed; corolla bright rose-pink and enp-shaped; habit of growth strong.

56. BEAUTY OF SWANLEY-One of the

prettiest light Fuchsias.

58. COVENT GARDEN WHITE-Superseding the well-known Arabella and Mrs. Lye; the best for market and decoration.

59. MRS. BRIGHT-A very useful and

distinct light variety.

60. MRS. F. GLASS-White tube and sepals, deep pink eorolla, tinted violet.

61. GRAND DUCHESSE Strong grower and a fine decorative variety.

62. DUCHESS OF ALBANY—Extra free flowering; good for any purpose.

63. ROYAL OSBORN-Tuheand sepals well formed and pearly white, corolla deep rosc.

64. MINNIE BANKS-Distinct; fine babit, free, and one of the best for any purpose. 1s.

GUIDING STAR—Said to be the most perfect variety in cultivation.

66. PRINCESS BEATRICE-Exceedingly pretty, tube and sepals waxy white, with a very pleasing, delicate, but bright pink corolla.

67. ROSE OF DENMARK-Corolla light pink, margined rose; babit rather strong, hlooms freely at the points.

68. ROSA BONHEUR-Blush-white tube, sepals well recurved, corolla rich rose, shaded carmine; free, ereet babit.

69. ANNIE-Large, good grower; one of the hest for drooping or hanging purposes. 1s.

70. ENGLAND'S GLORY-Fine bloom; great substance, strong grower; one of the best. 1s. Young plants of all those not priced, 6d. each; larger, 1s. each.

Fuchsias with scarlet tubes and sepals, and rose and mauve-lavender coloured corollas.

71. SWANLEY GEM-Frilled shape, free blooming, splendid babit. Tube and sepals eoral-scarlet, the latter very prettily reflexed; beautiful rose coloured corolla.

73. RHODERICK DHU - Corolla blue,

large, opening out à la crinoline; habit beautiful; free.
74. DISPLAY — Corolla deep rose, sepals

bright red; free and showy

75. GRACIEUX-Medium-size flowers, elear mauve-lavender corolla; free.

Young plants of all those not priced, 6d. each; larger, 1s. each.

Fuchsias with white tubes and sepals, and purple corollas.

76. ROSE OF CASTILE (Improved)-Very large corolla; perfect in shape; growth and habit strong; as highly coloured purple as Lord Elcho.

IMPROVED VENUS VICTRIX—See Fancy Fnchsias.

77. LADY HEYTESBURY IMPROVED -A very distinct and effective variety

78. PRINCE ALFRED-Splendid, a most profuse bloomer, a strong grower (must be well stopped when young), and one of the very hest.

79. LADY HEYTESBURY - First-class Fuchsia; one of the best.

Fuchsias with scarlet tube and sepals, and satiny-coloured corollas.

80. MR. RICHARD PEXTON-Pyramidal growth, and is in every way very fine.

81. THE LORD WARDEN-A first-rate

variety; corolla very distinct colour. 9d.

82. TULIP-Crimson tube and sepals, large and expanded, tulip-shaped corolla, rich purple.

Self-Coloured Section.

The last few years the following large and otherwise very interesting Fuchsias have been raised, and although their sepals and corollas are similar in colour, they are of a robust habit, free growing, and exceedingly showy.

MARINKA - Nearly a self-coloured variety; for forming into standards, vases, &c., one of the finest varieties known; very free and drooping.

83. ABEL CARRIERE-Fine and distinct; grown largely for the Paris markets.

AMIRAL GERVAIS-Almost a self-

colonred flower; bright earmine-red. 1s. 84. DR. SANKEY (Sankey)—Splendid; robust grower, dark-glossy foliage, large and long pendulous blooms of the richest rubyred and erimson shades. 1s.

85. FIREWORKS-Of a striking dark rubyred; a free blooming and attractive variety.

86. SEDAN—Nearly self-coloured. It is a short, thick-set variety, blooming very freely, and possessing a beautiful babit. Quite a favourite for market purposes.

87. MONARCH-Immense flowers; tube and sepals bright red, and of great length.

Young plants of all those not priced, 6d. each; larger, 1s. cach.

FUCHSIAS. YELLOW.

Varieties possessing coloured flowers of orange-yellow.

88. MR. H. ROBERTS-Corolla very broad graceful growth; sepals well reflexed; tube and sepals rose colour, deepening in the corolla into crimson of a dark distinct shade.

89. AURORA SUPERBA-Tube and sepals rich salmon, eorolla large, spreading; orangescarlet, suffused yellow; fine hahit, free; distinct.

90. EARL OF BEACONSFIELD-One of the best for decoration; very large clusters, and hlooms nearly all the year if allowed plenty of

91. MR. RUNDELL — Similar to Lord Beaconsfield. Beautifully shaped flower, the bold quick growth of its parent, with even more freedom of flowering; for general decoration a capital variety.

92. MRS. RUNDELL - A seedling from Earl of Beaconsfield. Very graceful. F.C.C

Striped Section.

96. LORD WOLSELEY--Well expanded corolla, soft rosy crimson, veined red and margined bluish purple, broad reflexed sepals of a deep red; fine flowers; good habit, constant. 1s.

97. BEAUTY (Sankey)-Tube rosy-red, sepals same colour but broad, corolla plum-purple, distinctly striped; distinct.

98, BLAND'S NEW STRIPED-Tube and sepals dark scarlet; eorolla, rich plum-eoloured purple, distinctly striped red and rose; pyramidal shape.

99. KING OF THE STRIPES-Distinctly striped with red; violet-hlue corolla; very free; vigorous.

White striped variety.

100. STRIATA PERFECTA-Corolla distinct; very free; tube and sepals waxy white; | striped

corolla bright carmine-scarlet, each petal distinctly

Single white corollas and scarlet tubes and sepals.

102. FLOCON DE NEIGE-Corolla large and well formed, white, sepals clear carmine.

103. TOURNEFORT-White corolla, striped red, brilliant red sepals.

104. CANNELLS'GEM-Habitvery dwarf;

foliage small and green; free.
106. DELIGHT—Pure white; tube and sepals bright crimson; eorolla large and hellshaped.

The twelve best varieties out for exhibition for 9s.

Double white corollas and scarlet tubes and sepals.

BALLET GIRL-One of the finest varieties yet introduced.

107. MOLESWORTH-Corolla pure white and very full; dwarf habit.

108. MADAME JULES CHRÉTIEN-One of the finest white varieties.

109. BUFFON-Corolla white, tinted rose, good habit; a decided acquisition. 1s.

110. PATRIE—Large open flowers.
111. GUSTAVE DORÉ—Medium slze, very free; sepals well reflexed; effective.

112. COL. DOMINE - Tube and sepals rosy lake, corolla very large and double; fine.

113. EDMOND ABOUT-Large blush white; very free, and double.

115. BERLINER KIND — As free and as

beautiful as Miss L. Finnis, but possessing a better and much stronger liabit.

116. FRAU EMMA TOPFER - Distinct and novel, tube and sepals rosy coral, corolla clear rosy blush, large and double,

117. DUCHESS OF EDINBURGH-One of the finest double whites yet raised, its dwarf habit and large blooms make it very desirable.

MRS. A. HUGGETT-A fine double 118. corolla, half the petals white and half earmine.
119. MISS LUCY FINNIS—Pure white;

very double; tube and sepals coral red; very free.

120. MRS. E. G. HILL - Large fine flowers, sepals very broad.

121. MEYERBEER-A very free flowering double variety; white, marbled carmine. 1s.

122. ELIZABETH MARSHALL-()ne of the freest bloomers; grand for market.

Young plants of all those not priced, 6d. each; larger, 1s, each.

Doubles, light rosy-red sepals and beautiful soft mauve corollas.

123. AUG. FLAMENG-Dwarf and free; corolla large purplish violet.

DE MONTALIVET—Small but very

double; light blue corolla, marked with carmine.

BEAUTY OF EXETER-It is a complete cross, or half-and-half between the light tube and sepal kiuds and the dark varieties.

Doubles, with scarlet tube and sepals, and dark purple and blue corollas.

AUGUSTE HARDY-Very large flowers, enormous eorolla, rosy-violet.

124. BOREATTON-Sepals crimson, corolla deep purple, full smooth regular petals. 1s. 125. PHENOMENAL—Producing fine large

126. CHAMPION OF THE WORLD-Colour of the most intense bright dark purple; one of the most remarkable for size. 1s.

EUGÈNE VERCONSIN-Very dwarf and free; short petals, rosy-white base of petals, remainder of a slaty-blue colour.

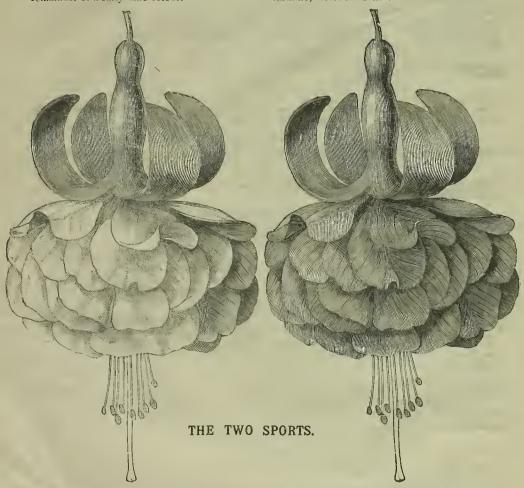

127. A. DE NEUVILLE-Reddish violet : large eorolla.

LOUIS FAUCON-Producing equally as fine flowers as Phenomenal.

128. COMTE LEON TOLSTOI — Very double, corolla large and well formed; blue black. 1s.

129. SIR GARNET WOLSELEY-A large and magnificent flower.

131. D'ORBIGNY-Reflexed sepals, bright earmine, violet-amaranth.

WHITE PHENOMENAL

9d. each.

ROSE PHENOMENAL.

6d. each.

-All lovers of these speak of Phenomenal as the King of the Doubles, by its strong growth, fine habit, and the gigantic flowers it produces, claiming everyone's admiration ou account of the rich colouring of the corolla. It has been our good fortune to come into possession of two sports from this wonderful variety, and which we now offer to the public, viz., Rose Phenomenal and White Phenomenal, the corolla of the former, instead of as in the original, being of a bright bluish-mauve, comes a light rose colour of quite a new tint; the second and last sport has pure white corollas, and in both cases they retain the same growth, habit, foliage, and also same freeness in flowering, as the parent.

132. M. ALPHAND-Large flowers, violet amaranth; a splendid variety for bedding out.

M. CH. POTIGNY - Short scpals, double corolla; bluc, shading to violet.

M. DYBOWSKI-Well reflexed sepals, double flowers of a clear rosy-lilac; quite a novelty.

M. E. VAUCHER-Enormous double corollas; deep violet, shaded blue, and marked carmine.

133. CRÉPUSCULE - Corolla distinctly striped with red; fine grower; one of the best.

136. ALPHONSE DAUDET - Beautiful dcep violet; flowers full and double.

137. AVALANCHE-One of the best habited double Fuchsias; very fine for any purpose.

140. MARVELLOUS-Full, double, bright blue corolla, rosette-like form, tube and sepals red.

142. M. BERAUD MASSARD-Purplish lilac; good flowers and habit.

LA FRANCE-Very double and of a beautiful shade of dark blue; sepals recurved and large, bright red.

Young plants of all those not priced, 6d. each; larger, 1s. each.

FANCY FUCHSIAS.

145. M. DUFAURE-Beautiful rosy lake, sepals white and red, large; pretty and distinet.

146. ALBA COCCINEA - Tube cherry. crimson, white sepals; corolla violet, mottled

147. THE PERFECT CURE-Scarlet tube, and sepals perfectly reflexed; a most extra-ordinary shaped corolla. 1s. 148. VENUS VICTRIX—The first true

varioty with white tube and sepals ever raised.

Sent out about thirty-six years ago. This variety must have come by a freak of nature.

149. IMPROVED VENUS VICTRIX -White tube and sepals, dark-purple corolla; very distiuct and offective.

150. ERECTA VAR. NOVELTY - Tube and scepals stained white, corolla light pink; flowers crect and well above the foliage.

151. PRESIDENT GREVY - Tube and schals coral-red, corolla soft manve-pink.

FUCHSIA. WHITE

152. COUNTESS OF ABERDEEN-A self white, the most distinct since the pure white corolla was introduced. In this we get a decided alteration; it has pure white tube, sepals and corolla. 9d. each.

All those not priced, 6d. each.

HYBRID VARIEGATED FUCHSIAS.

CLOTH OF GOLD - Leaves gold,

edged silver; an old favonrite. 1s.
153. AUCUBÆFOLIA — Large foliage,

variegated and blotched yellow.
- 154. METEOR — The lower leaves buffyellow, the npper ones rich crimson; first-class for a climber or small pots. Much used in the parks for bedding. 6d. each; 5s. doz.

155. SUNRAY-A fine and distinct decorative Fuchsia, being by far the best with red variegated leaves; quite ornameutal aud beautiful.

156. RUBENS - Greenish yellow in the centre and bordered golden-yellow, flowers double, very dark violet corolla, clear red recurved scpals.

Those not priced, 6d. each

HYBRIDS OF FUCHSIAS. VARIOUS SPECIES AND

157. TRIPHYLLA-Very distinct, of the Fulgens type; neat, dark, bronze-green foliage, and bunches of medium-sizo flowers of the loveliest brilliaut orange-searlet. 1s. each. Seed, per pkt., 1s. 6d.

161. SPLENDENS—Orange-scarlet flowers,

tips of sepals light green. 1s.
162. FULGENS—The fine old variety.
163. PROCUMBENS—A good basket plant, has small round leaves, and singularly unique blooms, succeeded hy bright magenta-coloured herries; very attractive during the winter.

164. BOLIVIANA GRANDIFLORA -

Very pretty and distinct. 1s.

167. PENDULÆFLORA - Flowers are produced in clusters from the axils of the leaves and the terminal shoots; rich crimson, shaded with maroou. 1s.

168. DOMINIANA-Large crimson tube;

good winter bloomer. 1s.

169. MICROPHYLLA ALBA ROSA -1s. 6d.

170. CORYMBIFLORA VIRGINATA -A light stem and flowered variety. 1s.

Young plants of all those not priced, 6d. cach; larger, 1s. each.

HARDY FUCHSIAS.

171. CORALLINA, syn. EXONIENSIS —Fine hardy variety for covering walls, and best for open gardens, richly covered in foliago and flower.

GLOBOSA-The good old variety raised many years ago; ouc of the best hardy kinds.

172. GLOBOSA VARIEGATA

174. HARDY HYBRID, No. 3-A most

abundant bloomer. For a mild climate and fine autumn months in England, it is a most valuable outdoor variety.

175. INTEGRIFOLIA-Useful for covering walls, &c.

178. MACROSTEMA GRACILIS. 181. RICCARTONI—A beautiful RICCARTONI-A beautiful variety, the hardiest of all the outdoor Fuchsias.

Young plants of all varieties, 6d. each; larger 1s. cach.

GLADI'OLI.

HE Gladiolus constitutes one of the finest features of the Flower Garden during the summer and autumn months for diversity of colour and general effect, either in masses or planted in clumps for horder decoration, backed by evergreens. It is also of easy culture, and will thrive in any ordinary deeply dug garden soil, with a liheral supply of manure. Early and deep planting is the secret of success.

CULTURAL DIRECTIONS.

FOR EXHIBITION PURPOSES.—Select an open situation. In Ootober, trench the seil 2 feet deep; use a liberal supply of old hot-bed or cew manure, well mixed with the soil. Commence planting the first week in March, and at intervale. Plant in heds of three rowe, placing the bulbs one foet apart and 4 inches deep. Stake as soon as the plante are eufliciently high, and mulch over the ground with half-rotted manure. As soon as the plante show bloom, stimulants are heueficial for the full development of the flowere; for this purpose, use our Real Manure once a week.

FOR FLOWER GARDEN DECORATION.—Plant during March and April in horders, in clumpe of three or five, at intervals of 4 or 6 feet, hetween Standard Roses, Dahlius, &c., or iu masses in the centre of large heds, or the hulbs should be taken up as soon as the loaves begin to fade; gradually dry them, clean them, put them into a paper hag, and place out of the roach of the frost.

HYBRIDUS LEMOINEI VARIETIES.

*ANDRÉ CHÉNIER—A great improvement

on Marie Lemoine. 6d. BOUSSINGAULT - Rose, lower petals marked purple-red; well-formed,

CASTELAR-Deep salmon and pale yellow, hlotches large purple-maroon, edged deep

CHEVREUL-Quite a novel colour, magenta shade, large hluish-violet hloteli. 6d.

DARWIN-Large, deep rose, bright purple hlotches, edged brouzy yellow. 6d.

DE CHERVILLE-Reddish cerise, shaded buff iuside, reddish salmon, shaded green, blotches yellow and purple. 6d.

DE HUMBOLDT - Grand spike, reddish rose, hlotebed maroou, shaded pale yellow. 91.

DUGUESCLIN-Deep salmon, red blotches on lower petals; fine flowers. 6d.

ÉMILE GALLÉ-Large, rosy violet, Bishop's purple blotch, lined yellow towards centre. 9d.

ETOILE POLAIRE-Deep yellow, blotches

brown; large. 1s. EUGENE LEQUIN-Naples yellow, lower

petals deep purple and yellow. 1s. *E. V. HALLOCK-Large and well-formed,

sulphur, large reddish crimson blotch, edged LAFAYETTE-Large, salmon, shaded yel-

low, large crimson blotch in lower petals. 6d. *LA FRANCE-Chamois, shaded salmon, two

lower petals blotched purple, pointed yellow. 6d. LAMARCK-Rich salmon, slightly marked

red, blotches crimson-yellow and red; fine. 6d. LEMOINEI-Colour creamy white, slightly tinted green, dashed with rich crimson-maroon;

TYDÆA GIGANTEA-Golden yellow, striped dark vermilion. 1s. 6d.

TYDEA LEONIDAS—Tube clear coral-red, lobes cherry-red, yellow, and vermilion. 1s. 6d.

GLOXI'NIAS.

Ours is the finest and choicest collection in England.

N our opinion these rank second to no other flowers for noble form and beauty. Our three 100-feet houses in June, July, and August are really a magnificent sight, and many have said "Well, this is alone worth our journey." Pot them into any ordinary good soil, and if kept close in a temperature of 55° to 70°, well shaded from all sunlight, and treated in the same way as warm greenhouse plants—free from cold draughts, and liquid manure once a week—the result will he a grand sight. A 2s. 6d. packet of our seed sown in January to May will give a splendid display.

Selections left to H. C. & Sons will be supplied at 15s., 18s., 24s., and 30s. per doz.; choice new varietics, 42s. doz.; unbloomed Seedlings, 5s. and 9s. per doz.

Our Exhibit at the Great Temple Show was acknowledged to be the fines' ever seen in London.

HELIOTRO'PIUMS.

THE BEST VARIETIES.

HE ordinary treatment of a Verbena. But very few persons have any idea that they are one of the best plants we possess, and will live for many years, producing an immense quantity of flowers all the year, yielding a most delicions perfume if planted out like a Grape Vine

- 1. ALBERT DÉLAUX—A vigorous and distinct variety, being distinctly marbled with yellow; constant.
- 2. COMTESSE DE MORTE-MART-Deep violet colour, large white centre.
- 3. JEANNE D'AMOUR An advance on Miss Nightingale; for general purposes one of the best.
- 4. MINA—Colour not very dark or light—medium; its value is its habit and freeness of flowering either in a pot or bed.
- 5. PATRIOT-Large pip; a very nscful variety.
- 6. PAUL PFITZER—Light variety, fine large truss; good shape.
- 7. PRESIDENT GARFIELD—An improvement on Jersey Beauty; bright mauve purple; distinct and useful.
- 8. PRIAPO Bishop's blue, with white eye.
- 9. PRINCESS DE SAGAN-Of a elear blue shade, white ecutre.
- 10. ROI DES NOIRS—Decp blackish pnrplc, white eye; very distinct.
- 11. SWANLEY GIANT A fine variety, for bedding or pots; massive heads of flowers; colour bright blue, and delicionsly fragrant.

HELIOTROPIUM QUEEN MARGUERITE.

12. THE QUEEN-Flowers nearly white, and very highly perfumed; a fine variety.

13. WHITE LADY—Nearly pure white, free-flowering, large heads of bloom; fine hahit.

14. FREIFRAU VON KONIG—A pretty variety, light silvery-manve flowers arranged in

graceful arching sprays; sweet-scented; attractive. 9d.

15. QUEEN MARGUERITE—The habit is dwarf compact. Suitable for pot or border culture, and of high value for cut-flower purposes. 1s.

6d. each; 4s. per dozen.

HELIA'NTHEMUMS (SUN ROSES).

No Plants are better adapted for dry rockeries or sunny banks than these; they are Evergreens, and always have a charming and attractive appearance; quite hardy, and, like shruhs, when established, live for many years without trouble. 6d. each; 4s. per dozen.

SEEDLING HOLLYHOCKS.

HOLLYHOCKS.

Splendid scedlings of various colours, that will bloom during the season, 6s. and 12s. per dozen. Named varieties, our selection, 24s. to 36s. per dozen.

IRIS.

hardy plants is now more generally recognised, and if their accommodating disposition with regard to soil and situation, the rich and varied colours of their flowers, rivalling in this respect the choicest of Orchids, their value as cut-flowers for decoration and the extended season of their hlooming, viz., from Christmas to August, &c., he taken into consideration, it must be admitted that no collection of hardy plants can have any claim to be considered a representative one which does not include a judicious selection of these plants. 4s. to 10s. per dozen.

For full description of all sections of this family, see our Autumn and Bulb Catalogue.

LANTA' NAS.

THE BEST VARIETIES.

HIS family is exceedingly pretty and of easy cultivation, only requiring the ordinary care of a Pelargonium; they bloom most abundantly eight months in the year; a fine substitute for the Verbena.

- 3. LA NEIGE-Purc white. 9d.
- 6. PLUIE D'OR-Light canary yellow.
- 7. RUTILANT-Deep yellow; dwarf.
- 9. NE PLUS ULTRA Rose-pink; fine bedder.
 - 10. FAVORITA-Yellow to brown-scarlet.
 - 11. DISTINCTION—Orange-scarlet.
 - 12. DON CALMET-Pink centres, peach.
- 16. ECLAT Rich reddish crimson and orange.
 - 17. PERLE POITEVINE-White.
- 19. MAGENTA KING Bright purplescarlet.
- 23. RAYON DE SOLEIL-Decp yellow.
- 27. DIADÈME—Rose, centre yellow.

All those not priced, 6d. each; 4s. pcr dozen.

- 16. FULGENS, syn. RAMOSA Intense scarlet. 1s.
- 17. FULGENS PRINCE ARTHUR-Robust form, very large light scarlet flowers; a decided acquisition. 1s. 6d. -
- 18. FULGENS VICTORIA—Rich scarlet, producing many spikes, very attractive, with large petals; a fine bed or border plant. 1s. each; 9s. per dozen.

19. SYPHILITICA-An old and wellknown border plant, with spikes of blue flowers 3 feet high. 9d.

د - ا در درا د

- 20. SYPHILITICA ALBA-A fine white form of the preceding. 1s.
- 21. APOLLO-Medium size, rose-purple. 1s. ARGUS - Blne-purple, distinct eye. 1s. 6d.
- 23. CERES-Crimsen-searlet; strong. 1s. 24. CHALLENGER-Rosy purple; large. 1s.
- 25. DON JUAN Mauve-purple; fine. 1s. 6d.
- 26. MAGENTA SUPERBA - Magenta, white centre. 1s. 6d.
 - 27. NIZZA-Rich, dark. 1s. 6d.
 - ORION-Crimson-searlet; fine. 1s. VESTA-Magenta, clear white eye. 1s.

The above Lobelias are the finest of the various hybrids of L. syphilitica, and being perfectly hardy rank amongst the best of our hardy plants.

AIMU'LUS.

BEAUTY OF SUTTON-In every way resembles the single kinds both in habit and growth, and also with the blooms, except it being a fine double flower. It has the merit of being more persistent, consequently makes a longer show, and in a border it is one of the best and most distinct. 9d.

PENCOMBE RECTORY—Very pretty, and for garden decoration both these are gems, and should be planted everywhere. 9d.

SINGLE, MIMULUS,

MAGNUM BONUM-Clear golden yellow, heavily blotched and spotted crimson.

MABEL - White ground, lobes heavily blotched erimson-maroon.

CLARA - Canary-yellow ground, crimsonscarlet blotch on each petal.

GOLDEN PHEASANT-A fine and attractive variety.

Seed, 6d. and 1s. per packet.

HYBRID MUSK

HARRISON'S MUSK-A grand variety; a great improvement on the old variety; delightfully fragrant,

Those not priced, 6d. each; 5s. per doz. Unnamed Seedlings, 4s. per doz.

Pansies.

HO does not like a Pansy? No one! It comes so quickly after the dull, dreary winter, and its colour and markings are so beautiful, that everyone exclaims, "I do like a Heartsease!" As to their culture, give them a good deep rich soil and open situation, and they will grow and thrive anywhere, and beyond replanting, will bloom eight months without attention. If the splendid colours and roundness of these could be seen, they would be grown in every garden.

Our selection, 4s. per doz.

All those not priced, 6d. each; 5s. per doz.

Seeds from the choicest varieties, 1s. and 2s. 6d. per packet.

Seedlings, 1s. per doz.; 7s. per 100.

Seedlings, selected, 1s. 6d, per doz.; 10s. per 100. Cuttings can be supplied during August and September at balf the price quoted for plants.

double flowers, cerise-scarlet; vigorous habit. 8. SOLEIL LEVANT-Bright silver varie-

gated foliage, rich scarlet flowers.

9. MARY ANDERSON-Dwarf and free. purple-pink flowers, silver variegated; pretty;

SELECT LIST OF PELARGONIUMS WITH COLOURED LEAVES. TRICOLORS.

- 10. MR. HENRY COX-Intensely bright markings, with a well-defined zone of rich crimson, and bright yellow margin. 9d. cach, 6s. doz.
- MASTERPIECE Fine broad zone, 11. very black; good habit; first-class. 6d. each, 4s. doz.
- 12. MRS. WALTERS A very highlycoloured zone, contrasting with a broad golden margin, deep green centre; distinct. 9d.
- 13. ADAM BASS-Dark zone, very broad and even; perfectly flat leaf; dwarf stordy habit; robust grower. 6d. each, 5s. doz.
- 14. PETER GRIEVE-Round leaf, high colour, good grower. 9d.
- 15. PRINCE OF WALES-Grand variety; colours exceedingly bright; one of the best. 9d.
- 16. SIR R. NAPIER-Fine grower, the streak of red is very bright; distinct.
- 17. MRS. TURNER Rather a coarser variety; vivid colours; one of the best.
- 18. MACBETH-A beautiful variety, habit dwarf and bushy, dark zone, bright scarlet ring, attractive. 9d. each, 6s. per doz.

WILLIAM SANDY-Dwarf; narrow inflamed scarlet zone.

20. ENCHANTRESS - Highly colonred, Vandyke zone, deep golden margin; a fine advance on Mrs. Pollock. 6d. each; 5s. doz. 21. SOPHIE DUMARESQUE—Effective.

22. LADY CULLUM -- A well-known variety.

23. MRS. POLLOCK-A well-known kind.

4s. to 6s. per doz.; 26s. per 100. 24. GOLDEN BRILLIANTISSIMUM — Similar to the old Brilliant; distinctly blotched yellow and white round margin, the remaining part light pea green, vivid scarlet flowers. For edging of heds a gem.

All those not priced, 6d, each: 4s. per doz.

SILVER TRICOLORS.

25. MRS. MILLER - A grand improvement, crimson and black zone, very even and conspicuous. 1s.

26. EMPRESS OF INDIA - Effective;

colour very brilliant. 9d.

- 27. MRS. LAING Fiue habit, large foliage, broad silver margin, inner zone of brilliant carmine; vigorous; a grand variety.
- 28. DOLLY VARDEN Foliage smooth and quite circular, the red bright and glaring. 29. PORTEUS-Attractive; bright carmine

zone, hroad white margin. 9d.

30. LADY DOROTHY NEVILLE—Small, hut highly coloured with ficry carmine. 9d.

- MISS FARREN—An improvement on Mabel Morris; vigorous.
- 32. LASS O' GOWRIE Margin white, broad zone of brilliant carmine-rose. 9d. each.
- EVA FISH-Rich lake-rose zone, large leaves, round and flat, margined with a broad band of creamy white; vigorous; distinct. 9d.
- MRS. CLUTTON-A stronger grower, one of the best for bedding; very effective.
- 35. CHARMING BRIDE-Large reflexed foliage; strong grower.
- 36. PRINCE SILVERWINGS Distinct and beautiful, silver and gold tricolor leaf.

ORNAMENTAL FOLIAGE VARIETIES.

37. A HAPPY THOUGHT-White centre, and green round the outside; habit dwarf and spreading; attractive.

38. FREAK OF NATURE-An improvement on Happy Thought, and very dwarf; its white variegation is most beautiful.

GOLDEN BRONZE.

E shall merely give the most distinct features of these, for it will be useless repeating their colours. They all have golden yellow discs, and are edged with the same colour, with more or less brown bronze, in the shape of a horse-shoe.

- 39. JUBILEE Fine bold leaf with hroad hand of deep chestnut, salmon-coloured flowers.
- 40. HER MAJESTY Very fine; large leathery foliage, with deep zone, and hright scarlet flowers.
- 41. ZULU—A great improvement on Black Douglas; one of the finest bedders.
- 42. SWANLEY BRONZE-Splendid broad band of chestnut on hright golden yellow.
- 43. BRONZE QUEEN—Good bold leaf; fine broad zone, the yellow very attractive; a splendid hedder.
- 44. MARECHAL MACMAHON-Bold leaf, broad zone, and colours bright.

- HARRY HIEOVER 45. GOLDEN Habit of the green variety of that name, thick and bushy; for small beds and front row a
- 46. DISTINCTION—A novel variety, the rich green leaf disc being circumscribed by a narrow zone, and the margin similarly crimped with a sharply notched outline.

47. WHITE DISTINCTION - Beautiful foliage, dwarf dense hahit, and bearing white flowers like Madame Vaucher.

43. BLACK VESUVIUS—A sport from the old searlet variety. The foliage is dark, the stem and flower stalks are coloured; flowers of a darker shade than the parent. Its chief attraction is its dark foliage.

All those not priced, 6d. cach; 4s. per doz.

YELLOW-LEAVED SECTION.

- 49. VERONA Beautiful deep vellow foliage and dwarf habit.
- 50. CRYSTAL PALACE GEM Wellknown.

51. CREED'S SEEDLING - Dwarf, ahnndant hloomer; bright searlet, small truss, and very profuse.

52. ROBERT FISH-Dwarf hahit, never exceeding 6 inches; for small heds and front rows the hestift !!!

All those not priced, 6d. each; 4s. per doz.

WHITE-EDGED VARIETIES.

53. BOULE DE NEIGE-A great improvement in this section; bushy hahit, broad white margined leaf, deep green centre; good in all seasons. 54. VARIEGATED PRINCE OF

ORANGE-Dwarf hahit, small foliage, orange scented. 9d.

55. LITTLE TROT-Searcely attaining 6 inches, hranching habit, leaves margined with broad hand of white; a gem for hedding.
56. VISCOUNTESS CRANBROOK—Com-

pact habit, broad creamy white edge, flowers cerise.

57. MISS KINGSBURY - A first-class bedder.

58. FLOWER OF SPRING-One of the best; cream-coloured variegation; splendid, thick, dwarf habit.

59. BRILLIANTISSIMUM - Great improvement on the good old Brilliant. For hedding a grand variety, and makes a solid line of scarlet.

60. DANDY-Very small-leaved variegated variety, exceedingly pretty; fine for edging.
61. MANGLE'S VARIEGATED—A fine

old variety; its pure white margin makes it very

conspicnons; a most useful kind for edging.
62. LADY PLYMOUTH (Graveolens fol.

var.)—A useful scented variety for bedding.
63. MME. SALLEROI—Very dwarf and compact; of regular growth and forming into well-formed tufts; never heen known to flower. 64. MRS. J. C. MAPPIN—White bloom

and pink eye; hahit and appearance is the same as Flower of Spring.

All those not priced, 6d. each; 4s. per doz.

VARIEGATED FOLIAGE WITH WHITE, PINK, & CRIMSON FLOWERS, &c.

65. PRINCESS ALICE—Very hright pink; attractive. 9d. 66. MISS GERTRUDE—Blush pink flowers; very striking.

LORD CARLINGFORD—Free growing, fine truss, colour crimson. 1s. SIR THOMAS LAWRENCE—Trusses of good size, magenta flowers; fine shape; 68. attractive

69. ROSAMOND WRIGHT-Bright rose-pink, round flowers, large trnss.

70. WHITE CLIPPER-Large round white flowers.

VARIEGATED IVY-LEAVED SECTION.

71. DUKE OF EDINBURGH—Growth free as the green varieties; broad white margin.
72. L'ELEGANTE—Leaves neatly margined white; blooms white. An acquisition as a

decorative plant, for hanging-haskets, pots, &c.

73. AUREUM MARGINATUM—Distinctly variegated with pale yellow; good grower.

6d. each; 4s. per doz.

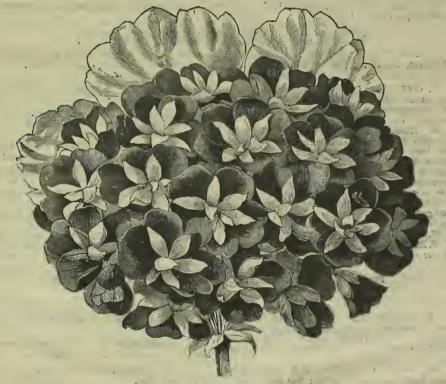

T. Wells, Esq., Cambridge, New Zealand, September 14th, 1896. I received the Chrysanthemum plants, they are strong and in prime condition, and I think every one will grow, and as far as I know are all new to Anekland.

Mr. Thos. Carson, Waipawa, Hawke's Bay, New Zealand, September 1st, 1896. I received the seeds in perfect order.

Mr. John Williams, The Gardens, Annestown, Tramore, February 14th, 1896. Chrysanthemnms to hand are by far the hest I have ever seen from a nursery-healthy, sturdy, and short jointed. I am greatly pleased with them.

SELECT LIST OF DOUBLE-FLOWERING PELARGONIUMS.

HE varions raisers have improved this class wonderfully the last few years—in fact, the strong growth is now superseded by splendid dwarf varieties, and frequess of flower equal to the single; these, with liberal cultivation, are sure to take a far more prominent place for decoration than hitherto, and for cut flowers we have nothing to equal them. The following in their respective colours are the best in cultivation. For novelties in doubles, see front of Guide.

DOUBLE NEW LIFE,

74. DOUBLE NEW LIFE—The flowers are double, with the centre florets white, thus forming a most conspicuous contrast. For cut flowers all the winter it will prove one of the greatest sensations. 9d. cach.

SEMI-DOUBLE GIGANTEA SECTION.

AVING several splendid varieties in this attractive section, we have placed them together for better reference. No doubt in a year or so we shall have sufficient new kinds to still further divide them according to colour; they all produce enormous semi-double flowers, in the way of the well-known Single Gigantea, Aurore Boreale.

75. COUSIN BÉLÉ—Pips very fine colour, deep salmon, shading off to a pure white margiu; effective. 1s.

BEAUTÉ POITEVINE, syn KING OF DENMARK—Producing its trusses just above the foliage on very strong foot stalks; large semi-double pips of clear salmon. 1s.
77. ETERANTHE—Semi-double enormous flowers and trusses; fine bold variety.

GUSTAV EMICH-Producing gigantic semi-double flowers; rich clear scarlet; a gem for winter flowering; dwarf habit. 9d.

79. M. ALPHONSE RICARD-Rosy scarlet; immense sized flowers; free blooming; good

babit. 1s.
80. M. BRUANT—Clear scarlet, semi-double, enormous sized trusses; for pot work or cut flowers one of the most useful.

81. M. D. REYDELLET—Distinct shade of soft cerise-searlet; semi-louble. 9d.

82. MME. CHAROTTE - A splendid acquisition; good dwarf spreading habit, producing enormous sized trasses, 6 to 8 inches across, of a mottled salmon shade; one of the most attractive

83. VILLE DE POITIERS-Light clear searlet, semi-double, cnormous pips aud trnsses; a

spleudid pot plant. 1s.

SCARLET AND ORANGE-SCARLET.

The Prices attached are for Plants in 60's, our selection, from all Classes of Doubles, 7s. doz.; do. in 5-inch pots, blooming plants, 12s. and 15s. per doz.

Cuttings, half the price of Plants.

85. GOLDEN GATE-Another addition to the much admired and sought after section of orange-scarlet shaded varieties;

quality. 1s.

86. RASPAIL IMPROVED — The most valuable Double Zonal in existence. Raspail has been for many years almost the only one grown for the market. This is a sport from it, and it is remarkable it should retain its characteristics exactly in every respect, excepting size of pips and trusses; these are huge and monstrous. Colour deep scarlet; for house and general decoration it is a beauty, and will certainly replace its parent. 9d. each, 6s. doz.

87. TURTLE'S SURPRISE (Sport from F.V.Raspail) - Resembling West Brighton Gem in the variegation of its stems; searlet, like its

parent; habit dwarf and spreading; exceedingly free. 9d. each.

- 88. GOLDEN RAIN—An advance in this section, beautiful well-formed flowers of very large size, clear orange-scarlet. 1s.
- 89. GOLDFINDER—Dwarf sturdy habit; free blooming, beautiful orange-yellow. 9d.
- 90. CALIFORNIE Large semi-double flowers of bright orange; very striking. 1s.
- 91. M. DE LATOUR Reddish scarlet, fine large trusses; effective.

92. LUDWIG FERCHL - Rich scarlet,

large; a fine variety.

93. F. V. RASPAIL - Deep scarlet, large pips, good form; compact habit; one of the best.

All those not priced, 6d. each.

For varieties with variegated foliage and double flowers, vide Collection

CERISE-SCARLET.

94. MATHIAS SANDORF - Light cerise, very distinct, grand trusses; free. 9d.

95. AUSTRALIAN GOLD - Soft cerisescarlet, tinted orange; distinct shade of colonr.

96. MRS. CORDEN - Soft rosy cerise, good form; free and effective; first class. 9d.

97. ERL KING - Light orange-scarlet; dwarf and free.

98. ALTHÆA-Rich cerise-scarlet flowers, large and beautifully formed; effective.

99. M. GELEIN LOWAGIE — Large pips; very free.

All those not priced, 6d. each; 4s. per doz.

REDDISH SALMON AND PINK.

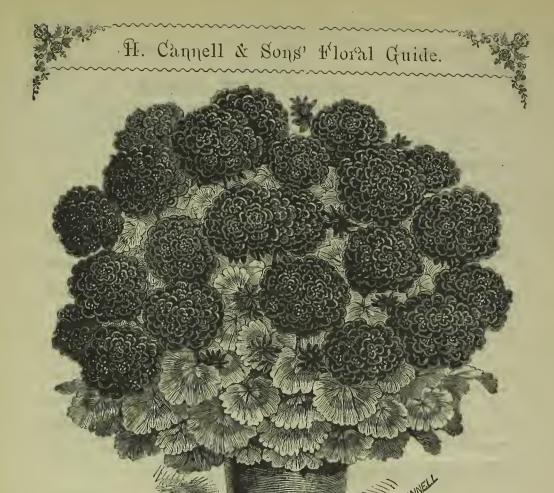

A NEW CLASS AND QUITE DISTINCT IN COLOUR.

100. RENOMMÉE NANCÉIENNE—Producing bold trusses of semi-donble flowers of a rosy-red shade, large white blotch covering onchalf of upper petals; habit vigorous, and making fine plants in small pots. 1s.

101. DR. MERGANT-Large white centre covering one-third of flower, with deep salmon-

pink margin. 1s. 102. ILLUSTRATION-Fine formed pips and bold trusses, of a mottled salmon colour; a cross with Mme. de Boudeville; very distinct. 1s.

103. SURPRISE-Very distinct shade of pink, with a large white centre; a cross with Mme. J. Chretien. 9d,

RASPAIL IMPROVED.

DEEP PINK AND ROSE-COLOURED.

104. JEANNE D'ARC — Most distinct; beautiful shade of light lavender-pink, distinctly spotted with deep pink; fine large flowers; good habit; quite a novelty. 1s. 6d.
105. MME. VANDREY—Producing fine bold trusses, of a beautiful soft lavender-pink

shade; very distinct. 1s.

106. AIMÉ HENRIOT-An unusual and difficult colour to describe, being of a pretty shade of old-fashioned peach-pink; flowers of beautiful form; trusses large; habit good. 1s. 107. H. M. STANLEY—Deep red pink;

full pips and enormous heads of bloom; dwarf branching habit; a grand acquisition. 1s.

108. L. CONTABLE-Of a very deep shade; fine form; very free, dwarf habit. 9d.

109. LORD DERBY-Both pips and trusses

large and fine, rich pink.
110. M. CARO—Of a beautiful and pleasing shade of soft lilac pink; fine bold truss and pips; distinct and pretty.

111. TENDRESSE - Soft satiny pink, flowers and trusses fine; habit good.

112. MME. BARNY-Beantiful rosy-pink, flowers and trusses very large; dwarf.

113. ROSA BONHEUR - Beautiful soft rose-pink, flowers very large; habit dwarf.

All varieties not priced, 6d. each; 4s. per doz.

PINK SUFFUSED

114. MME. DE LA RUE-A very rich coloured purple-pink, very intense, large trusses; attractive. 1s.

115. SIR HAMILTON-Producing enormons trusses of bloom, rich purple-pink. 116. GIROME-Colour highly suffused with

purple; very large flowers and trusses.
117. DUC DE MORTEMART—Large, bold round flowers, of a nearly self brilliant purplepink; very dwarf and free. 1s.

DEEP CRIMSON.

118. DOUBLE JACOBY-As regards col- | our of flower and habit, this variety very much resembles the well-known single Henry Jacoby; beautiful well-formed flowers of the deepest crimson; habit first-class; a most useful variety. for winter flowering. 1s.

119. COLOSSUS-As name denotes, this variety is the largest and finest in all respects;

rich reddisb crimson. 1s.

120. RAFAEL GARRETA—Splendid large bold flowers and trusses, beautiful rich colour; an acquisition. 9d.

121. LE CONGO-Deep shade, dwarf and

free; large trusses; growth and foliage very much resembles the bedding variety, West Brighton Gem; distinct. 9d.

· 122. SOMBRE HORIZON-Colour most intense, producing trusses of great size; babit very dwarf and bushy.

123. CRIMSON VELVET-Very dwarf and free.

121. CHAS. LALANDE - Intense crimson; flowers and trusses medium size; habit

125. GRAND CHAN FAIDEHERBE-Well formed, intense colour.

PURPLE-COLOURED.

126. G. CAILLEBOTTE - Splendid rich magenta, fine large trusses; dwarf habit. 1s.

127. A. ROUILLARD-Rich magenta; fine

large trusses; very effective. 1s.

128. CARDINAL LAVIGERIE - Of a distinct shade of magenta, part of npper petals orange; dwarf and free. 1s.
129. EDISON—Large bold flowers of a

beautiful mageuta shade.

130. ALSACE - LORRAINE - Very deep purple shade, bold trusses, and extra-size pips.

131. BOULE NOIR - Of a most intense sbade of purple, trusses large and round.

132. GÉNÉRAL BILLOT — Dwarf and branching, flowers large, fine shape, bright magenta, shaded orange in upper petals.

133. AGLAIA-Large well-formed pips;

dwarf and free.

All those not priced, 6d. each.

SALMON.

134. JOYFUL-Deep salmon centre, broad white margin, fine well-formed flowers; good branching habit; an advance on Gloire de France. 1s.

135. RAINBOW-A cross between a purple and a salmon-coloured variety, the two intermixed shades being produced in the one flower, and the colour varying according to the season.

136. LADY CANDAHAR - Intense deep self salmon, large full flowers and trusses; habit dwarf and branching; very floriferons. 1s.

137. DIÉGO PODDA-Large well-shaped flowers; intense clear salmon; dwarf habit; very fine. 1s.

138. MME. WETTSTEIN - Mottled salmon, with a distinct picotce edge; very attractive; good habit. 1s.
139. LORD TENNYSON—A glowing fiery-

lmon shade; very distinct and effective. 9d.

140. MME. JOUIS-Deep salmon centre, white edges, dwarf habit and free; distinct and attractive. 9d.

141. NYDIA-Flowers white, tinted cream, with a lovely high-coloured pinky-red centre, very striking; capital habit; very free. 9d. 142. RUY BLAS — Mottled salmon, very

deep centre; fine large trusses; dwarf branching babit; good. 9d.

143. MME. J. CAUSE-Salmon, mottled white, of a pretty shade.

144. VIOLET DANIELS-A bright selfcoloured variety; enormous flowers and trusses.

145. MISS FLOSS-A clear rosy salmon, changing to pink in dull seasons; habit very dwarf, free flowering.

146. M. PRESSE-Mottled salmon, at times almost white, with a margin of rose.

147. MAGGIE HALLOCK-Clear soft salmon, large and open, dwarf; fine.

WHITE. DOUBLE

148. THE PEARL-Fine trnsses of pure

white flowers; fine habit, very free, 1s.

149. LE DONON—Fine large trusses and well-formed flowers, slightly tinted. 1s.

150. BOULE DE NEIGE — Enormous

trusses, pure white, vigorons; for exhibition

purposes one of the best. 9d.
151. WHITE ABBEY—Dwarf spreading habit; fine open flowers, good form, and of the

purest white. 9d.

152. SNOWDROP - Pure white; habit, growth, and foliage the connterpart of West

Brighton Gem. '9d.

153. HERMINE-Large semi-double, very open flowers of the purest white; free and effective; the grandest of all double whites for winter flowering. 6d. each, 5s. doz.; larger,

154. MRS. GLADSTONE - Pure white shaded flesh-pink towards the centre, a pleasing and delicate combination of colours; fine bold trusses; splendid habit; grand for winter blooming.

156. HEROINE-The largest pip of any in this class, pure white; very fine.

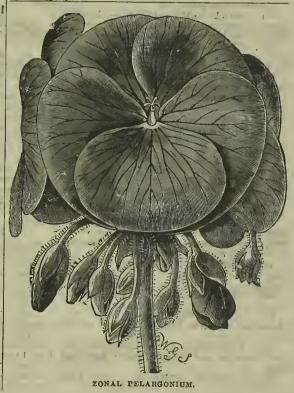

157. MADAME LÉON DALLOY-Fine; beautiful blush white; very free.

158. ROSÉE - White, occasionally very prettily tinted with rose on the edges of petals; attractive. 9d.

THE BEST ROUND-FLOWERING ZONAL PELARGONIUMS. SPECIALLY ADAPTED FOR POT CULTURE.

MHE Zonal Pelargonium is becoming more and more popular every day; vide reports in and around London of the stands of magnificent blooms that we have shown throughout the year, the autumn and winter in particular. Several 100-feet houses are filled with Pelargoniums always in flower, and many are so grand in the winter that they are unrecognisable even by the raiser; in fact, no other flower-not even the Rose-can for a moment be compared with our stand of trusses, many of the pips measuring 2 to 3 inches over, and as round as the engraving, and in some instances better. This may appear incredible, but whoever questions this are respectfully invited to Swanley, no matter the season. To keep plauts in good blooming condition throughout the year, all that is necessary is to keep two or three sets potted, say in March, July, and September, in good rich soil, with a plentiful supply of water, taking out the points of all strong-growing shoots, thus throwing the whole strength into the truss.

We are glad to say that immense strides continue to be made in this class,

DWARF DOUBLE ZONAL PELARGONIUMS.

159. WISHING GATE—A pleasing rosypink shade, large pips of fine form.
160. GONE COON—Deep pink; dwarf,

hushy habit; a little gem.

161. MISS BRIGHT - Lovely hright pnrple scarlet, hlooms large; fine shape. 1s.
162. LADY EMILY PEEL—Pink colour,

lovely; fine dwarf habit; free hloomer.

163. DR. BUTLER-Bright salmon.

164. LE CAMÉLÉON-Striped flowers, habit dwarf, very rarely higher than six inches from the pot, abundant bloomer. 9d.

165. JEANNE CANOOT-Of a beantiful shade of hlush; very dwarf and free.

AND SCARLET, &c. SINGLE CRIMSON

4s. doz.

PINK. M. COMMENT

in the pink and purple section; most distinct.

374. BECKWITH'S PINK-Without doubt will superscde all other pink varieties of the

376. MRS. TURNER - Bright rays of Master Christine type. 6d. each, 4s. doz., 24s. 100. purple predominating; a first-class variety.

DOUBLE-FLOWERED IVY-LEAF PELARGONIUMS.

T seems but the other day that there were no double-flowering Ivy-leaf Geraniums, yet now we have many and more double than a rose, all distinct, and many of them most valuable for cut flowers. Few people have an idea, and very few can form the slightest conception, what grand kinds we have in this family, and what splendid specimen plants they make trained on trellises; and what is more surprising, all have been introduced within the last few years; and, in fact, no class of plants has made such rapid progress in so short a time. The stands of cut blooms exhibited by us at numerous shows were a marvel for the acquisitions they contained, including many of the following varieties. Our selection in 60-sized pots, 5s. per doz.

377. QUEEN OF ROSES-Rosy-magenta, of a very pleasing shade; large, rose-like formed

flowers; good habit. 1s. 378. BEAUTY OF CASTLE HILL—Very pretty; enormous flowers of a soft rose shade, dark blotch in upper petals; free and effective. 9d.

2 feet in height; ricb purplish blue. 9d. GERANIUM SANGUINEUM. 6d.

GERANIUM PRATENSE ALBUM-A fine shrubbery plant, bold foliage, white flowers. 6d.

PENTSTE'MONS.

NE of the best hardy plants for mixed borders, which will grow in almost any soil, but the richer and more open it is the better. They will bloom abundantly from Jnne until October, and are very valuable for cut flowers, and bave been so much improved that they are now a very ornamental class of plants, and onglit to be in every garden.

The best Varieties out.

VILLE DE ST. DENIS-White, lightly tinted violet, carmine in centre; very large.

WEISSE-White, tufted.

PETU'NIAS.

T is surprising this family is not more largely grown, considering how easy they are to cultivate; and if well grown what grand things they are, both for decoration and exhibition! Treat them similarly to a Verbena. Choose nice young plants about March, or any time up to July, give them good shifts and rich soil, well stake ont, and you will be highly gratified, for some are certainly surprisingly large, and their colours not equalled by any other flower. The finest varieties ever offered. Seed saved from this collection, 1s. 6d. and 2s. 6d. per packet.

NEW DOUBLE PINK VARIETY.

MRS. CHAS. WILSON-Among the many double fringed pink varieties this stands preeminent. Very large flowers, and like a ball of fringe; colour deep rose-pink; dwarf habit and free flowering. 1s. 6d. each.

DOUBLE VARIETIES.

- 66. TOM TIT-Crimson, edged pure white; effective.
- 67. WM. BROWN White and deep rosy pink, very double and free; a useful and effective variety.

All those not priced, 1s. each; 9s. per doz.

HLOXES.

HESE are a splendid hardy class of plants. Some of them are lovely colonrs and perfectly distinct to any other flower, and for mixed horders or in shrubberies they are not equalled by any other plant. Some of their hlooms are almost a perfect circle. Their roots can be divided in February, and are quite hardy. Plant them in good, deep, rich soil in an open situation. To get fine exhibition hlooms, strong enttings must be taken and struck early in March. For cut blooms they are valuable, also very orunmental, and continue in bloom for a long time.

1s. 6d. EURYDICE—Deep yellow, distinct red edge. 1s.

HORATIO—Primrose-yellow, bright rose flake on margin. 1s. 6d.

LILIAN—Good yellow, distinct scarlet edge.

MRS. WALFORD — Clear yellow, slightly barred rose. 2s. 6d.

MRS. WHITBOURN—Deep yellow flowers, large, rosy-red edge; fine. 2s.

MRS. ROBERT SYDENHAM — The best yellow ground yet raised. 1s.

PRIMROSE DAME—Primrose-yellow, rosyred edge. 1s. 6d.

SCHLOSSER-Yellow and crimson.

STADRATH BAIL—Canary yellow, scarlet markings,

UNDINE — Primrose - yellow, narrow red margin; full and fine. 1s. 6d.

Those not priced 1s. each.

Seed of the above, 1s., 2s. 6d., and 5s. per packet.

Dodwell's Yellow Grounds, sent out under numbers, our selection, 6s. per doz.

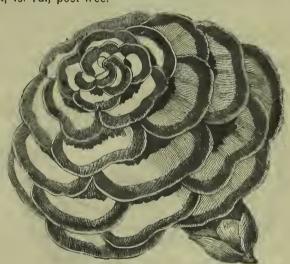

For History, Properties, and Management of Carnation and Picotee, see Dodwell's Book, 1s. 7d., post free.

PINKS.

PERPETUAL-FLOWERING PINK.

It carries a large flower, exactly like the old show Pink, on the top of every flower stalk (as seen in the engraving), similar to the Tree Carnation; a strong grower, and is the most useful.

6d. cach.

PERPETUAL-FLOWERING PINK.

PINK.

ERNEST LADHAMS—A most beautiful blush-white colour, wonderfully free and effective. F.C.C. A real gen always flowering. 6d. each; 5s. doz.

GENERAL COLLECTION.

WE have often thought, when we have stopped to admire their beauty, that if all were as fond of flowers as we are, these most beautiful plants would be grown everywhere. It must be remembered that their lovely little flowers are very different to the common rough-edged Pink; in fact, they are about the nicest hardy flowers of the whole garden.

ADA LOUISE—Rosy-purple lace.

ALBA MAXIMA—Large.
ALBINO—Very free; larger and of finer form than any other white yet known, may be described as a white carnation-pink. 1s

ANNE BOLEYN-A nacful variety.

ASCOT-Pink, dark centre.
BERTRAM-Red lace.
BERTHA-Dark red lace; very fine.

BOIARD-Bright red; extra large.

CLARA-Deep red.

DERBY DAY—Deep pink, heavily laced hright red; free habit. 9d.

DEVICE-Bright purple.

EMERALD—Red; large and full.

ERNEST-Rich ruby, large; one of the finest.

EURYDICE—Rosy red.

GEO. WHITE-Purple; large and fine.

GODFREY-Bright reddish colour.

HARRY HOOPER—Bright reddish purple.

HEBE-Very dark red.

HER MAJESTY-Has a strong perfume, is of the purest white; a decided acquisition.

HOMER-Deep rose.

HYBRIDUS FLORIBUNDUS-Rose self.

JESSICA-Red lace.

JOHN BALL-Dark plum-purple.

LANCER-Free, dark.

MASTER HARRY-White ground, heavy

and regular plum lacing; distinct. MODESTY-Rosy-purple; one of the best. 1s.

MR. HOBBS. MRS. LAKIN-White.

MRS. PETTIFER-Dark laced.

MRS. SINKINS—Pure white, large and full,

sweet-scented; a useful variety.

MRS. WAITE-Rosy-red. MRS. J. M. WELSH-A charming variety,

both in size and freedom of bloom; pure white.

THE RECTOR—Bright reddish purple.

TOTTIE-Bright red lace.

All those not priced, 6d. each; our selection, 5s. per dozen.

ROCK PINKS.

Very pretty for rockwork and herbaceous border; will grow in any ordinary soil.

CICERO-Pure white, beautiful and double. JULES FERRY-Soft rosy blusb, bright crimson centre; free and early.

STANISLAS - Deep pink, rich crimson centre; useful for cutting. 1s. each.

DIANTHUS MULTIFLORUS. (MULE PINKS.)

Perpetual-flowering Hybrids, very ornamental.

ABBOTSFORDIANA-Intense pink, finely

notched, very double. 9d. LADY CAMPBELL—A beautiful shade of pale pink; dwarf, free and compact. 1s.

MARIE PARE—Pure white. 1s.

MOSCATUS, MILLE HUIT CENT QUATRE-VINGT-UN (1881) - The flowers

have a powerful fragrance, are of medium size, with fimbriated petals of a rosy-lilac, deeper in shade in summer than in winter. 9d. cach, 6s. per doz.

NAPOLEON III.—Rich crimson; fine. 1s. ROSE PERPETUAL-Rich rosy-pink.

PERPETUAL FLOWERING DWARF DOUBLE MARGARET CARNATIONS.

TOM THUMB-These are most valuable for pot culture, bedding, groups, borders, &c., and will be highly appreciated by all lovers of the Carnation. The cultivation is quite simple, as they can be sown at almost any time of the year, but must be transplanted at once to the spot where intended to flower. If sown in March they require but very little more attention than many of the common summer flowers. Per pkt., 1s., 1s. 6d.

PICOTEES AND CARNATIONS, mixed. 1s. and 2s. 6d. per pkt. PICOTEES, mixed. 1½ ft. 1s. and 2s. 6d. per pkt.

TREE, OR WINTER FLOWERING CARNATIONS, saved from the best varieties. 2 ft. 2s. per pkt.

POLYAN'THUS.

Really first-class scedling gold-laced Polyanthus for garden decoration, nearly as good as named varieties. 6d. each; 5s. per doz. Ordinary bedding kinds, 2s. 6d per doz.

The difference hetween Oxlips and Cowslips is, the former hold their bloom more erect, the latter drooping.

(137)

POTENTILLAS.

DOUBLE-HYBRID VARIETIES,

N exceedingly free-flowering and ornamental group of Hardy Perennials, producing in great profusion for many weeks full double flowers, with petals of a rich velvety texture, varying from crimson and maroon to rich orange and yellow, many being striped, spotted, or margined. They will thrive in almost any soil or situation.

PRIMROSES.

OUR HYBRID PRIMROSES, OR FANCY POLYANTHUS.

LORD BEACONSFIELD VARIETIES.

HERE is no greater charm to the eye all through the spring than these. Although they are Primroses, they are totally different to what we are accustomed to see, being stronger growers, and their blossoms of an immense size and of great variety of colours. Many are of a lovely deep purple-coloured violet, and others approach a distinct shade of red, whilst the yellows and whites are most striking. Equally as good in their various colonrs as Harbinger, introduced by the Marquis of Exeter, and which has given such great satisfaction. Large flowering plants, 3s. to 4s. doz.; seed, 1s. per pkt.

DOUBLE PRIMROSES.

(PRIMULA ACAULIS.)

PURPLE — A fine variety: very rich and fine. 6d. each; 5s. per doz.

CRIMSON-VELVET—Very searce; splendid variety. 2s.

CLOTH OF GOLD—A splendid variety, with flowers rich lemon, large and full; perfectly distinct. 2s. each.

LILAC—Pale lilae, large, fine; early. 6d. each; 5s. per doz.

CROUSSEI FLORE PLENA—9d,
PLATYPETALA PLENA (Arthur Dumollin)
—Deep violet; distinct and very fine. 9d.
ROSE—Rosy salmon; distinct and very fine;

scarce. is.
SULPHUR—Pale sulphur; very early and

free. 6d. each; 4s. per doz.
WHITE—Pure white; early, large, very fine.
6d. each; 3s. per doz.

MUCH THE BEST PRIMROSE IN CULTIVATION.

HARBINGER—Although numbers of Primroses have been sent out, and justly admired, they can bear no comparison with this one. Harbinger leaves all white ones far in the rear; in fact, it is one of those marches past that seldom occurs—consequently, one of the good permanent plants, welcomed by all with delight and pleasure every year as the hopeful spring comes round. Awarded a F.C.C. 1s. each; 8s. doz. Seed, 6d. and 1s. per pkt.

PRI'MULA SIEBOLDI.

(CORTUSOIDES AMŒNA.)

HIS class of Primula are hardy, and in winter they die down to their fleshy roots, and beyond keeping them moderately dry they are no trouble until they are required to he pushed on for flowering, when they merely want the protection of a cold greenhouse, and potting in ordinary soil. Afterwards they can be kept out of doors.

Good plauts in various varieties, 6d., 1s., 2s. 6d., and 3s. 6d. each.

List on application.

PRIM'ULA, ALPINE SPECIES.

PRIMULA SINEN'SIS.

(CHINESE PRIMROSE.)

HE double-flowered varieties of this family rank amongst the most desirable of plants for the decoration of the conservatory or greenhouse during the autumn, winter, and spring months; and where cut flowers are in general request are specially valuable, as they retain their beanty for a long time when in a cut state, the flowers never dropping off as with the single-flowering varieties. The white kinds are very fine, and much used for bonquets.

ALBA PLENA—White, much used for cut flowers. 1s. and 1s. 6d.

ALBA PLENA FIMBRIATA — Fringed white; a beautiful variety. 1s. 6d. and 2s. 6d.

MARCHIONESS OF EXETER—The best of all Gilbert's seedlings; a great acquisitiou 1s. 6d.

Special prices for small plants during the autumn; for specimen plants, price on application. See our Seed Guide for list of the finest Single varieties, post free.

We have a large stock of the first-named variety—splendid plants in 5-inch pots, full of flower. For cut flowers more beautiful plants never existed.

DOUBLE PYRETH'RUMS.

Purchaser's selection, 9s. per doz.; our selection, 6s. per doz.

ERHAPS for ent flowers no out-door plants are more useful, for at the commencement of the summer they begin to bloom, and continue as long as the weather keeps open; like all other flowers, they delight in having pleuty of room, deep rich soil, plenty of manure, and a good soaking in dry weather; treat them thus, and the quantities of aster-shaped blooms will be immeuse all the summer and autumn.

2. ANDROMEDA—Lilae-rose, yellow centre.
3. ANEMONIFLORUM SANGUINEUM
—Rosy carmine, dnll white centre; dwarf.

APHRODITE—Pure white. F.C.C. 1s. 6d.
4. ARGENTINE—Pure white, flowers small.

VISTULA-Flesh. 104.

1s. each; 9s. per doz.

Although these cannot be supplied as outtings, plants transmitted by post to any part.

ROSES.

TEN ACRES-THOUSANDS IN POTS.

For full Descriptive List, see Autumn Catalogue containing all the Best Varieties in Cultivation.

PRICES OF ROSES WHEN THE SELECTION IS LEFT TO US:-

Standards and Half Standards, best sorts, and well varied, 18s. to 24s. per dozen.

Dwarfs on the Brier, extra strong good varieties, 9s. per dozen; £3 10s. per 100.

Dwarf Teas,
varieties, from open ground,
15s. per dozen.
Extra fine Plants in pots,
18s., 24s., and 30s. per dozen.

Hybrid Perpetuals, in pots, good strong plants, 18s. per dozen.

Amateurs selecting their own are respectfully requested to add to their orders a few supplementary sorts, lest by previous orders the stock of any particular variety should be exhausted, this being especially necessary late in the season.

Another secret in getting Roses to grow after removal, particularly Standards, is to prune well back and plant early in October, or as soon in November as possible. February and March are the best Spring months. By so doing young fibres are made at once before the cold weather sets in; whereas, if planted later in the usual way, they must stand without nourishment until the return of warm weather, and are often past recovery before it arrives.

ROSES FOR FORCING.

A large quantity of all the best kinds kept in pots, 12s., 18s., 24s., and 32s. per doz.

Our selection.

Also a quantity of Standards in pots for removing at any season. A list of kinds sent on application. A great quantity of well-rooted Dwarf Roses on their own Roots, in pots. A list of sorts on application.

Seedling Briers and Cuttings, 6s. per 100.

NEW ROSES.

HYBRID PERPETUALS.

BACCHUS (1895)-Crimson, shaded bright violet-maroon. A distinct improvement on the old dark H.P. Mrs Geo. Paul; a good medium-sized, finely-shaped flower; perfectly autumual. Dwarfs, 2s. 6d.; Standards, 3s. 6d.

BLADUD (1896)-A very distinct and beautiful light coloured variety, flowers large, very full and globular in shape, ontside petals silvery white, centre pale blush-pink. Will take a high place amongst exhibition kinds, and most useful for bedding purposes. Plants in pots, 5s.

CLIMBING QUEEN OF QUEENS—A pink autumnal of merit; a climbing form of Queen of Queens. 1s. 6d.

CLIO—Flesh-coloured, shaded rosy-pink towards the centre; large and globular. Dwarfs, 1s. 6d ELLA DREW (1896 - A sport from Duchesse de Morny. Light silvery-pink, peach shading; very distinct. As an exhibition variety it will take a promiuent position. Dwarfs, 3s. 6d.

HAILEYBURY (1896)—Beautifully refined round shape, colour of cerise erimson; has been

much admired. Award of Merit. Dwarfs, 3s. 6d.; Standards, 5s.

HELEN KELLER (1895)—A magnificent exhibition variety, perfect form; colonr hrilliant rosy cerise; petals large, sbell shaped, of great substance, full and fragrant; a lovely and distinct

rose; vigorous. Dwarfs, 2s. 6d.

LAURENCE ALLEN (1896)—Flowers are of large size, full, well built, high centre, colour clear soft pink with lighter shading, sweetly perfumed, growth strong and erect; very early and

free in flowering; very promising as an exhibition and garden variety. Plants in pots, 5s.

MARCHIONESS OF DOWNSHIRE (1894) - It is a perfect exhibition rose, always opening freely, and from its fulness continues a long time in good condition; colour beautiful satinpink, shaded with rose; flowers large and full, and excellent form. petals of great substance. Dwarfs, 1s. 6d.

MARCHIONESS OF LONDONDERRY-Flowers very large, ivory white, of great substance,

high centred. Gold Medal, N.R.S. Dwarfs, 1s. 6d.

MAVOURNEEN (1895)-Delicate silvery-white flesh, shaded rose; large and full; of great

vigour; free. Dwarfs, 3s.

MERRIE ENGLAND (1897)—Rosy-crimson, very distinctly striped silvery-blusb; flowers large, equal in size to others. As a garden rose this is beyond praise. Award of Merit, R.H.S.

Dwarfs, 5s.
MRS. FRANK CANT (1897)—Beantiful clear pink, the edge and back of petals silvery-white; flowers large, very full; perfectly formed and produced abundantly. Not only is it a valuable exhibition variety, but also one of the finest pot roses in enlitivation. Dwarfs, 10s. 6d. in November. MRS. R. G. SHARMAN CRAWFORD—Colour deep rosy pink, the onter petals shaded with

pale flesh; quite a new and unique shade, white at base of petal, and so distinct from all other n.r. roscs. Awarded the N.R.S.'s Gold Medal. Dwarfs, 1s. 6d.; Standards, 2s. 6d.

REV. ALAM CHEALES (1897)—An entirely new very large promy-shaped rose of extra-ordinary novelty and beauty of colonr. A pure lake, with reflexed silvery-white shaded back petals. An early and late bloomer; very vigorous; free. A show rose in a cool season. Plants in May.

T. B. HAYWOOD (1895)—May be described as a crimson-scarlet with black shading; large,

perfectly built-up Alfred Colomb-like flowers, late in flowering, continuing the n.r.'s into August; neat habit, splendid. Award of Merit. Dwarfs, 2s. 6d.; Standards, 3s. 6d.

TOM WOOD (1896)—A variety of great merit, either for garden decoration or exhibition. The colour is cherry red, pctals large, shell shaped, immense substance; flowers very large, full free branching habit, free flowering. Dwarfs, 3s. 6d.

WALTHAM STANDARD (1897)—Brilliant carmine, shaded scarlet and violet. A grand exhibition rose, and also one of the best for garden decoration. Plants in May.

TEA-SCENTED.

CLIMBING RUBENS (1897)-A valuable and welcome addition. The flowers are identical with the old bush variety, and from which Climbing Rubens has sported. It equals in every way the strong growing and free flowering properties of the well-known Climbing Niphetos, and will be even more valuable, being much more hardy. Plants in November, 10s. 6d. each.

EMPRESS ALEXANDRA OF RUSSIA (1897)—Rich lake-red, shaded with orange and fiery

crimson; very large, full, and globular; vigorous growth; quite distinct both in colour and habit

from any rose hitherto introduced. Plants in May.

ENCHANTRESS (1896)-Creamy white, slightly tinted with buff in centre; large, full, and globular; vigorous growth; a most distinct and effective Tea Rose, valuable for exhibition, decorative purposes, and pot culture. 7s. 6d.

FRANCIS DUBREUIL—Vigorous, large, beautiful in the bud, velvety crimson, of much merit.

Dwarfs, 2s. 6d.

MME. WAGRAM COMTESSE DE TURENNE-Vigorous, quite distinct in form, large; colour satiny rose, shaded flesh-pink; beantiful. Dwarfs, 2s.

MURIEL GRAHAME (1896)-A sport from Catherine Mermet; perfectly distinct; pale cream,

faintly flushed with rose, very constant in colour; one of the very best. Dwarfs, 5s. SOUVENIR DE LAURENT GUILLOT (vig.)—Large and full; beautiful China rose,

centre petals tinted yellow; beautiful. Dwarfs, 2s.

SYLPH (1895)—Ivory-white, tinted peach, 3s. 6d.

WHITE MARECHAL NIEL (1895)—A sport from M. Niel, producing fine creamy white

flowers, the plant in all other respects resembling the parent variety. Dwarfs, 5s. to 7s. 6d.

ZEPHYR (1895)—Sulphur yellow, changing to nearly white; large and full; very free and elegant. A most effective light coloured kind. Dwarfs, 3s. 6d.

HYBRID TEA-SCENTED.

BELLE SIEBRECHT (1895)—Bright rosy-pink; large, full, and beautifully formed, sweetly perfumed and very floriferous, originally exhibited under the name of Mrs. W. J. Grant. Gold Medal, N.R.S. Dwarfs, 3s. 6d.

KAISERIN AUGUSTA VICTORIA—Pure white, creamy centre; a very free and effective variety, good for exhibition; like a large Devoniensis. Dwarfs, 1s. 6d.

LADY HENRY GROSVENOR—Flesh colour; large, full, and globular; a free and

effective garden rose. Dwarfs, 1s. 6d.

MARJORIE (rob.)-White, suffnsed with salmon-pink; nseful for garden decoration and exhibition; valuable for pot culture and forcing purposes. Dwarfs, 3s. 6d.

PRINCESS MAY-Soft clear opaque pink; dwarf, fall, and globular; good foliage, vigoroas habit. Dwarfs, 1s. 6d.

BOURBON.

LORNA DOONE—Magenta-carmine, shaded scarlet; large, full, and globular; very handsome; a desirable addition to the late flowering kinds. Dwarfs, 2s.; Standards, 3s. 6d.

NOISETTE.

ALISTER STELLA GRAY-A variety which, whilst growing to a height of 18 feet in oue season, will produce large clusters of small brilliantly-coloured and perfectly formed flowers, and will meet a long-felt want. A really useful yellow cluster rose, and a worthy companion to Turner's Crimson Rambler. It flowers in the autumn as well as summer. Award of Merit, R.H.S. 2s, 6d.; standards, 3s. 6d.

GRAND POLYANTHA ROSE,

TURNER'S CRIMSON RAMBLER.—The plant is of very vigorous growth, making shoots from 8 to 10 feet long, with green grassy foliage, and marvellous heads or trusses, of pyramidal form of the brightest crimson colour, the blooms remaining on the plant for a great length of time without falling or losing their brightness. The N.R.S. Gold Medal, as well as numerous First-Class Certificates, have been awarded to this rose. Dwarfs, 1s. 6d.; extra strong, 2s. 6d., 3s. 6d., and 5s.

CHINA ROSE,

DUKE OF YORK-Award of Merit. Flowers variable between rosy pink and white, at times white, edged and tipped deep carmine; always beautiful and quite distinct, vigorous growth, good habit. Dwarfs, 2s.

QUEEN MAB (1896)-Soft rosy apricot, centre of the flower shaded orange, and the outside tinted rose and violet. It blooms with extraordinary freedom; most excellent for garden decoration and cutting purposes. 7s 6d.

SWEET BRIAR.

JANET'S PRIDE-Beautiful semi-donble flower, richly shaded with crimson-lake, and with broad stripes of light crimson, most beautiful in its colouring. F.C.C. Dwarfs, 1s. 6d.

RUGOSA VARIETIES.

AMERICA—The flowers are large, open, and of a lovely crimson-lake, large ovate fruit, and often covered with long spines. Dwarfs, 1s 6d.

ROSE-APPLES—Strong vigorous grower, flowers semi-double, large bold petals, pale carmine-rose, blooming during the whole summer and antumn; most remarkable for its berries, of a vivid black-erimson; a fine garden rose. Dwarfs, 3s. 6d. each. Award of Merit.

NEW SINGLE ROSES.

COOLING'S SINGLE CRIMSON BEDDER (1896)-A charming addition, quite distinct. A real perpetual, semi-dwarf in growth, beautiful glowing crimson, flowers very large, and produced in clusters; a decided acquisition. Dwarfs, 3s. 6d.

PAUL'S CARMINE PILLAR (1895)—This is a splendid new single rese, with flowers 4 or 5

inches across, of the brightest rosy-carmine, and produced so abundantly that the last year's shoots, some 10 to 12 ft. in length of growth, were covered from base to top with bunches of flowers from each eye or bud, the flowers on the bunches opening in succession, the display being kept up for nearly six weeks. Award of Merit. Strong plants from ground, 3s. 6d.; standards, 7s. 6d.

HYBRIDS OF ROSA RUGOSA.

BELLE POITEVINE—Magnificent, foliage deep green, large elegant flowers of a beautiful rose shade, and of exquisite perfume; of quick growth. Dwarfs, 2s.

ROSA CALOCARPA—Forming into splendid-shaped bushes, and covered in early spring with single flowers of a pretty pure rose colour, bright yellow stamens in centre, sweet pertume, deep red seed vessels towards the latter part of summer. Dwarfs, 3s.

NEW HYBRID SWEET BRIARS OF 1895.

Book about Roses. By Rev. Canon Hole. 2s. 6d.; post free, 2s. 9d. Rose Growing. By D. Gilmour. 1s.; post free, 1s. 2d.

SAL VIAS.

ERHAPS at no time of the year do gardeners find it more difficult to keep up a display of flowers than about the commencement of October, but if the following Salvias were once seen, and persons were determined to grow them, there would be no more scarcity of either the most intense blue, scarlet, purple, rose, striped, and several other intermediate colours, than there is of having in November the conservatory full of Chrysanthemums, and with not nearly so much trouble, for Salvias are much more easily propagated and grown.

GREENHOUSE VARIETIES.

1. SPLENDENS BRUANTI - Dwarfer, and flowers much brighter than the old variety, and produced in greater abundance.

2. PITCHERI, syn. AZUREA GRANDI-FLORA—Branching stems, 2 to 3 ft. in height;

colour a beautiful azure-blue.

ANGUSTIFOLIA-Lighter and larger than Pitcheri; flowers and spike not so compact.

3. BETHELI-Rose, shaded white; both the flowers and foliage are most lovely.

4. RUTILANS (Pineapple scented) -Growth neat and graceful; foliage is delightfully fragrant; pretty neat spikes of flowers of a lovely magenta colour.

6. SPLENDENS—The old variety.7. SPLENDENS INGENIEUR CLA-VENAD—Dwarf and very free flowering. 1s.

8. LEUCANTHA (barbata)-Woolly appearance; base of tubes rosy mauve, upper part of tubes pure white.

10. ALBO-CŒRULEA - Dwarfish habit;

long slender leaves of a deep green.

11. GESNERÆFLORA — Somewhat resembling the Gesnera; hright scarlet.

12. ELEGANS.

- DULCIS-Scarlet; very fine.
- HEERI-Red, shaded orange.
- GONDOTII.

GARDEN VARIETIES.

16. FULGENS-Glowingscarletflowers, 6d, FULGENS VARIEGATA - Distinct and pretty

17. FARINACEA-A most charming and pleasing hlue; grand for cnt flowers. Sow seed in March. 1s. per pkt.

18. PATENS - Bright hlne flower, for

horders or centres of heds a very handsome and useful variety. 6d. to 1s, each; 8s. pcr doz.
19. PATENS ALBA—Pure white, in all

other respects identical with Patens. 1s.

20. TRICOLOR-A white tube and mouth, with its lower segment scarlet and npper lip purple-rose; colonrs heautifully defined.

Those not priced, 6d. cach.

OTHER BEAUTIFUL VARIETIES.

- CONFERTIFLORA-Broad foliage.
- 27. INTERRUPTA.
- 29. SCHIMPERI, syn. COLEUS BARBA-TUS-Free flowering.

12 varieties, in strong bushy plants, for 9s

OBTUSA-Of a pleasing shade of rosy

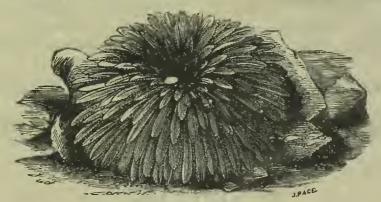

35. NIGRESCENS-Flowers are produced in very long drooping hranches of a dark purple colour, with deep lavender-hlue calyx. 1s.

Small plants of those not priced, 6d. each.

AXIFRAGAS.

INCRUSTED SECTION.

HE following are some of the choicest and most nseful of this group; many of them, from their quaint appearance and rarity, may be classed amongst the gems of the rock-garden, whilst others are especially valuable for making a groundwork or edging to fine foliaged plants in the summer flower-garden.

SAXIFRAGA LONGIFOLIA.

- 1. AIZOON, syn. INTACTA Greyishgreen.
 - 2. AIZOON MINOR-Greyish. 3. AMBIGUA—Yellow. 1s. 6d.

 - BURSERIANA—Silvery. 1s. 6d.
 BURSERIANA MAJOR—2s. 6d.
- CARINTHIACA—18.
- 9. CIRCUENTA-Leaves frosted. 9d
- 10. COCHLEARIS-1s.
- CRUSTATA—Grey leaves. 1s. 11.
- 12. DIAPENSOIDES-1s, 6d.
- HAUSMANNIANA-Very rarc. 2s 6d

- HOSTII.
- INTERMEDIA. 15.
- LANTOSCANA-1s. 16.
- LINGULATA.
- LONGIFOLIA VERA (Queen of the Saxifragas)-1s. to 2s. 6d.
 - 20. MACNABIANA-Of great merit. 1s
 - 22. PECTINATA-9d.

23. PYRAMIDALIS - For neatness and beanty it stands before any other. 9d. to 2s. each.

ROCHELIANA-1s. 24. ROSULARIS-6d.

25. 26. STURMIANA—1s. 6d.

VALDENSIS-1s. 27.

28. VANDELLI-3s. 6d.

All those not priced 6d. each; 4s. per doz.

HYPNOIDES OR MOSSY SECTION.

The plants contained in this section arc especially useful for forming a groundwork of green beneath fine foliaged plants or covering bare places on rockwork.

- ASPERA 29.
- CŒSPITOSA. 30.
- 31. CŒSPITOSA HIRSUTA.
- CERATOPHYLLA, syn TRIFURCATA 32. -Latest in flower. 9d.
- DECIPIENS. 33.
- DENSA. 34.
- GIBRALTARICA. 35.
- 36. HIRTA
- 37. HYPNOIDES.
- ATROPURPUREA -38. MOSCHATA Fine.
- NERVOSA.

- OBSCURA.
- OBSCURA VERNA. 41.
- PALMATA. 42.
- PEDATIFIDA 43.
- PROPENDENS. 44.

SOUVENIR-The largest and noblest of all bright mauve; very free.

SPRING BEAUTY-Dark blue; very free. March.

SWEETNESS-Wbite, margined rose, top petals light rose; extra fine. 6d.

SYLVIA-Pale primrose, good form; very free; early.

THE MEARNS-Rich plnm, npper petals edged white; effective.

TORY—Pale indigo-blue, dark blotch.

TRUE BLUE—Purplish blue self, the best hlue; very free.

VESTAL-Wbite; good hedder. April. WARRIOR-Similar to the Tory, with hetter

WAVERLEY-Bright violet, shaded purple. WM. HAIG-Rich purple, blue self; extra.

6d.WM. NEIL - Pale rose; a pleasing and

effective variety; distinct. WONDER-Soft pleasing shade of yellow;

good form; very free. YELLOW BOY-Fine yellow; vcry free.

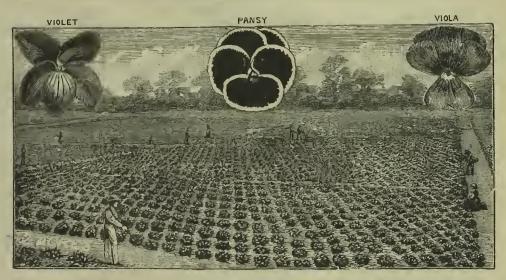

March.

YORK AND LANCASTER-White, distinctly striped with rich rosy purple; extra

All those not priced, 3d. each; 2s. 6d. per doz.; 10s. per 100; £3 10s. per 1,000; Clumps for immediate effect, price on application, per doz. or 100.

For others, see Bedding Pansies.

Many other varieties can he supplied.

A VIEW OF OUR TWO ACRES.

VIOLETS.

F there is one flower more than another that can lay claim to the honour of being everybody's favourite, it is the Violet; it cheers the most saddened spirits, and gladdens the most robust. We are pleased to say the hybridisers and the most anxious and hopeful seedling raisers are at work, and to those who present flowers double the size of our present kinds with a perfume, the whole universe owe at least their thanks. Violets, like all other flowers, have their wants, and if these wants are not supplied at the right time they become weak and nusatisfactory. Old plants must be divided early in April, and replanted in good, deeply-dug, and well-manured soil, sixteen inches from plant to plant for large growers; the double and smaller leaf kinds, twelve inches, with their roots well down so as not to suffer in dry weather, and at all seasons their runners must be kept cut off; they will then produce flowers such as are seldom seen.

DOUBLE WHITE VIOLETS.

BELLE DE CHATENAY — Pure white; large and fragrant. 6d. each; 5s. doz.

QUEEN—White, slightly fluted violet rose; highly fragrant; large flowers. 1s.

SWANLEY WHITE, syn. COMTE BRAZZA—A beautiful and useful white form of Neapolitan, fragraut, hardy, and free, much grown in America, to where we have exported it largely. 9d. each, 6s. doz.

Rooted little plants, 2s. 6d. per doz.; 15s. per 100. Cuttings, 9d. per doz.; 5s. per 100.

DOUBLE VARIETIES.

DE PARME—Pale lavender-purple, which is produced in great abundance; earlier than Neapolitan. The finest variety for growing in frames; very free.

DOUBLE RED-An old and well-known kind.

DUCHESS OF EDINBURGH—Very light ground, shaded; each petal tinted mauve, bordered with azure-blue. 1s.

KING OF VIOLETS—Dark indigo-blne; very large donble flowers; best out-doors.

LADY H. CAMPBELL—Only wants to be once seen and it will be universally grown as a late kind.

MADAME MILLOT — Colour a pleasing violet-purple, shaded carmine; very free. 1s.

MARGUERITE DE SAVOIE—Large double deep blue flowers; very free. 1s.

MARIE LOUISE — Fine variety; rich mauve-lavender blue, with a white eye; flowers large, and one of the best; a universal favourite. 9d. each; 6s. per doz.

MDLLE. BERTHA BARRON, syn VICTORIA—A fine, vigorous, compact grower; flowers freely produced, strongly scented, and of

a beautiful indigo-blue. 9d, NEAPOLITAN — Lavender, with a white eye; flowers produced in great abundance; very fragrant; in a cold frame a gem all the winter.

NEW YORK—Manve-coloured; for size and length of foot-stalks similar to Marie Louise; very fragrant and free. 9d. cach; 6s. per doz.

ODORATA RUBRA—Red coloured, short habit, very hardy; a great improvement on Blandyana.

PARMENSIS FLORE PLENO — White, striped with rose; large and double; a distinct

and pleasing kind.

PATRIE—Fine for winter; very deep purple-

violet, slightly streaked red in centre.
OUEEN OF VIOLETS—White, tinted violet-rose; highly fragrant; large flowers.

VENICE—Resembles New York; a fine variety, producing pretty rosette-shaped flowers.

All those not priced, 6d. each; 4s. per dozen. Special prices for large quantities.

GRAND NEW VIOLETS, SINGLE.

CALIFORNIA—Plant vigorons and absolutely free from disease; flowers single, immense in size, covering a silver dollar; colour violet-purple (does not fade); fragrance intense; flowers borne on strong stems 10 to 14 inches in length. We last season picked quantities of flowers from a single plant. The California Violet has been tested for two years, and found to thrive equally as well in England as in California, and fully bears out the above description. 6d. each; 5s. per doz.; 30s. per 100.

C. W. Mackinnon, Esq , Mussoorie, N.W.P., India, 13th January, 1897.

I received the 43 Roses in the most perfect condition, apparently as fresh as I used to get them from you when at Norwood, and I wish to thank you. I am looking out for the other plants you are sending me.

Representing Marie Louise, Neapolitan, De Parme, and Victoria, when well grown (156)

PRINCESS OF WALES.

PRINCESS OF WALES—This, in our opinion, is the largest and finest variety in cultivation. We had a quantity of plants growing and flowering all last winter and spring. Its blooms are more like a Viola than a Violet. We are accustomed to see the colour similar to Victoria Regina, but this is more of a decided bright blue; flower stalks 6 to 8 inches long, and standing almost erect; habit vigorous. We confidently recommend all growers and lovers of this family to obtain this variety at once. Award of Merit, R.H.S. 9d. each; 6s. per doz.; 35s. per 100.

PRINCESS BEATRICE — Somewhat similar to the above; flowers large, and equally as vigorous in habit of growth. 9d. each; 6s. per doz.

AMIRAL AVELLAN—A grand improvement on Odorata rubra, being brighter in colour and stronger in scent. 9d. each; 6s. per doz.

NEW SINGLE VIOLET, CALIFORNIA.

ARGENTÆFLORA-Colour white, tinged with pink, long footstalks, flowers small, strong grower, and should he in every garden. 6d. each; 5s. per doz.

DEVONIENSIS—Deep purple, and very sweet.

GLOIRE DE-BOURG-LA-REINE—A vigorons-growing variety. fine large flowers on long footstalks. 9d.

ODORATISSIMA-Its size and roundness of flower more resembles a Pansy, accompanied with a powerful odour. 6d. each; 4s. per doz.

RAWSON'S WHITE-White, tinged with pink; very dwarf and free.

SINGLE RED or PINK-Distinct.

THE RUSSIAN AND LONDON-Are of a much dwarfer growth, with small leaves, their runners become quickly interwoven, and in the early spring produce their flowers so thick as to give quite the appearance of a hedding plant. 3s. per doz.

VICTORIA REGINA—Is very similar, possessing a fine flower, long footstalks, and when well-

grown can he readily distinguished from all older varieties. 6d. each; 4s. doz.

WELLSIANA—F.C.C., R.H.S. An improvement on Victoria Regina and Odoratissima—larger

flowers, longer footstalk, and hlooms much more continuous.

WHITE CZAR—This variety occasionally changes, and for a time produces purple coloured flowers, but when it comes true, it is a useful single white; strong grower, free bloomer in the spring. 6d. each; 5s. per doz.

All those not priced, 6d. each.

VIOLETS IN POTS,

We have always a large quantity of fine plants in 5-inch pots, 8s. and 10s. per doz., £3 3s. per 100, of Swanley White, Marie Louise, and Neapolitan. Blooms all the winter when grown under glass. Fine clumps from ground now ready to be planted out in cold frames, 25s.; smaller, 18s. per 100.

GREEN CARPET BEDDING PLANTS.

Where the splendour of Carpet Bedding is desired to he in perfection these must be used.

HERNIARIA GLABRA-The darkest green of all the carpet bedding plants; very neat, close growth, one of the best for this pnrposc. 6d. each; 4s. per doz.; 20s. per 100. Crittings, hy post, 5s. per 100.

MENTHA PULEGIUM GIBRALTARI-CUM-Dwarf, dense, green growing plant; effective when snrronnded with brighter colonrs. 2s. 6d. per doz.; 12s. per 100; rooted cuttings, hy

post, 5s. per 100.

SEDUM LYDIUM-A different tint of green, never exceeding more than 3 in. high. 2s. 6d. per doz. Rooted little plants, 5s. per 100.

SEDUM GLAUCUM - Light bluc-green; for covering mounds of carth and margins of heds it is most useful, particularly in dry situations. Can he supplied cheap, 6d. each; 6s. per 100 from ground.

PYRETHRUM TCHIHATCHEWI-Dwarf moss-like growing plant for standing very dry weather. 6d. each; 4s. per doz. Cnt-

tings, hy post, 5s. per 100.

VERONICA REPENS (Alpina)-Another tint of pea-green, and in every way similar in growth. Never more than an inch high, and very effective. 2s. 6d. per doz.; 14s. per 100.

SMALL

EVERGREEN SHRUBS WITH VARIEGATED FOLIAGE.

EUONYMUS JAPONICUS AUREA MARGINATUS-Leaves green, hroadly and distinctly margined with gold; very showy; a very heautiful little shruh. 1s.

EUONYMUS JAPONICUS AUREA VARIEGATUS-Leaves dark greeu, with bright green-yellow blotch in centre. 6d. and 1s. each; 8s. pcr doz.

EUONYMUS JAPONICUS LATIFOLIUS VARIEGATUS-Leaves dark green, regularly margined with white. 1s.

EUONYMUS RADICANS VARIEGATUS -Leaves green, hroadly and heantifully margined hright silver; exquisite plant for edging to flower heds. 6d. to 1s. each; 7s. per doz.

HARDY EYERGREEN, DECIDUOUS, AND FLOWERING TREES AND SHRUBS.

For full List of the above, and also Fruit Trees, see Autumn Catalogue, post free on application.

A SELECT LIST OF HERBACEOUS

HARDY PERENNIALS & FLOWERING PLANTS.

SEVERAL ACRES.

OUR COLLECTION IS ONE OF THE LARGEST AND THE MOST COMPLETE IN ENGLAND.

For New and Rare Hardy Herbaceous Plants, see front of Guide.

N the wide range of hardy plants, consisting of several thousand species and varicties, some mere weeds, the following will be found all choice and most telling useful kinds, and such as should be in every garden. They are selected with the greatest care, and we think none choicer can be recommended. We have well-established plants, such as will travel with safety to all parts of the world, and give satisfaction.

THE SWANLEY COLLECTION OF HARDY PLANTS.

100 Plants in 100 varieties for 25s.

Collections of 100 nseful Border Plants, flowering at various seasons, 30s. and 50s.

The Bijou collection for the rock garden carefully selected. 50 plants in 50 varieties, 20s. Older and commoner sorts:—25 varieties for 7s. 6d.; 50 varieties, 14s.

Having had frequent proofs of the great difficulty experienced by many of our patrons and others, in making an effective and satisfactory selection of the above plants, we venture to think that we shall meet a general requirement of the present day, by offering at the above exceedingly low price our Swanley Collection of Hardy Herbaceous Plants, Florists' Flowers and Bulbs, carefully selected for the purpose of giving more or less bloom in the open garden during at least nine months of the year. The plants are all such as will live and increase in effectiveness from year to year in an ordinary border, and all are sufficiently hardy to thrive in any part of the United Kingdom.

We shall be happy to advise intending purchasers as to quantity of plants, &c., for any given beds or borders, if particulars arc sent as to dimensions, aspect, and soil.

ACÆNA NOVÆ-ZEALANDLÆ, syn. MI-CROPHYLLA-Dwarf spreading Alpine plant, brownish foliage, and rosy crimson heads of flower. 1 ft. 6d.

ACANTHOLIMON GLUMACEUM syn. STATICE ARARATI - Dark green spiny foliage, rosy-pink flowers; a useful rock plant.

ACANTHOLIMON VENUSTUM-Bright

pink; very pretty. ½ ft. 1s. 6d.
ACANTHUS CANDELABRUM—A very strong grower. 2 to 3 ft. 9d.

ACANTHUS MOLLIS—A handsome foliage

plant, with singular flowers. 3 to 4 ft. 6d. ACANTHUS LATIFOLIUS - Tall flower spikes, bold handsome foliage. 2 to 3 ft. 9d.

ACHILLEA ARGENTEA-Flowers snowwhite, leaves narrow, pinnatifid, clothed with a white tomentum. 1s.

ACHILLEA CLAVENNÆ-Hoary-jagged foliage; flowers white, compact tufts. 3 to 1 ft. 6d.

ACHILLEA EUPATORIUM, syn. FILI-PENDULA-Broad heads of yellow bloom; effective. 4 to 5 ft. 9d.

ACHILLEA MILLEFOLIUM ROSEUM-Very nsefnl, producing large heads of a deep lake colour; very free. 1 to 3 ft. 6d. each; 5s. per doz.

ACHILLEA MONGOLICA—Asa decorative plant one of the best; snow white flowers. 1½ ft. 9d.

ACHILLEA PTARMICA, FL. PL .- One of the most useful; pure white double flowers; for entting invaluable. 1 to 2 ft. 6d. each; 4s. doz.

ACHILLEA RUPESTRIS—Capital for the rock garden or borders, growing well in poor sandy soil. Is.

ACHILLEA SERRATA, FL. PL.—Donble

white flowers; fine for cutting. 6d. ACHILLEA TOMENTOSA—A neat creeping evergreen, large heads of bright yellow flowers. ½ ft. 6d. each; 5s. per dozen.

ACHILLEAUMBELLATA—Whitefoliaged edging or rock plant, neat; flowers white. 1/2 ft.

ACONITUM AUTUMNALE-Valuable as an autumnal blue-flowered plant. 3 ft. 9d.

ACONITUM NAPELLUS-Long spikes of blue flowers; very effective. 3 ft. 6d.

ACONITUM NAPELLUS ALBUM—Handsome white-flowcred variety. 4 ft. 1s.

ACONITUM NAPELLUS BICOLOR -Spikes, 3 to 4 feet high, blue and white flowers: effective. 4 ft. 6d. each; 5s. per doz.

ACORUS GRAMINEUS FOL. VAR. Useful foliage plant for damp situations.

ADONIS PYRENAICA - Flowers large;

bright yellow. 1 to 1½ ft. 1s. 6d.
ADONIS VERNALIS—Bright yellow;

fine spring flowering plants. 4 to 1 ft. 6d.

AGROSTEMMA FLOS JOVIS—Downy foliage, bright rose flowers. 1 ft. 6d. each; 4s. per doz.

> AGROSTEMMA CORONARIA ALBA-Flowers large, white. 1 to 2 ft.

AGROSTEMMA CORONARIA ATRO-PURPUREA - Crimson-purple; distinct and showy. 11 ft. 6d.

AJUGA BROCKBANKII — Dwarf plant, flowers deep blue. 1 ft. 9d.
ALSINE ROSANI — A pretty rock

plant, with pretty white flowers. & ft. 6d.

ALSTRŒMÉRIA AURANTIACA -Golden orange, streaked with red; fine for cutting. 2 ft. 6d. (See Bulb Catalogue.)

ALYSSUM PYRENAICUM—Dwarf dense habit; white flowers; choice. 1s.

ALYSSUM SAXATILE COM-PACTUM-One of the most valuable yellow flowering spring plants. ½ ft. 4d. each; 3s. per doz.

ADONIS VERNALIS.

ALYSSUM SAXATILE FOL. VAR.—A beantiful old variegated plant. ½ ft. 9d. eacb; 6s. doz.

ANCHUSA ITALICA—Deep sky-blue flowers; useful for becs. 3 ft. 6d.

ANDROSACE CARNEA—Dense cushions, rosy flowers. $\frac{1}{4}$ ft. 1s. 6d.

ANDROSACE SARMENTOSA-Compact rosettes of downy foliage, flowers rose, with white centre; one of the finest. 6d. each; 4s. doz.

ANDROSACE VILLOSA-White flowers, red cyes, soft silky foliage. 1 ft. 1s. 6d.

VITALIANA — Golden ANDROSACE yellow; distinct; dwarf. 1s. 6d.

ANEMONE ALPINA-Large white flowers; one of the finest hardy border plants. 11 ft. 1s.

ANEMONE APENNINA—Brilliant blne flowers in early spring; fine for massing. 1/2 ft. 6d. each; 5s. doz.

ANEMONE APENNINA ALBA — Pure white; fine. 1 ft. 1s.

ANEMONE BLANDA—Very deep blue; the earliest flowering; beautiful. $\frac{1}{2}$ ft. 1s.

ANEMONE HUDSONIANA-A pale rosecoloured American species. 1 ft. 1s.

ANEMONE JAPONICA - Handsome large red flowers; amongst the best of our autumnal flowers. 2 ft. 6d.

ANEMONE JAPONICA ALBA (Honorine Joubert)-Large pure white flowers, produced in great abundance until quite late in the autumn.

2 ft. 6d. eaeb; 4s. per doz.
ANEMONE JAPONICA ELEGANS

(Rosea)—Rose. 2 ft. 9d.
ANEMONE JAPONICA, "LADY ARDILAUN "-An improved and fine variety of this plant; pure waxy white. 1s.
ANEMONE JAPONICA RUBRA—Deep

red flowers. 1s.

ANEMONE JAPONICA, "WHIRL-WIND"—Semi-double form of the old kind; compact habit; good. 1s.

ANEMONE NARCISSIFLORA—One of

the most distinct; flowers white. $\frac{3}{4}$ ft. 9d.

ANEMONE NEMOROSA CŒRULEA (Robinsoniana)—Most beantiful sky-blue form of the Wood Anemone. 3 ft. 1s.

ANEMONE NEMOROSA ROSEA FL.PL. -A double rose-coloured form of the Wood Anemone. 6d.

ANEMONE NEMOROSA FL. PL.—Very

pretty. ½ ft. 6d. eacb; 5s. doz.
ANEMONE PALMATA (Lobata) (Cyclamen Windflower) - Bright yellow. 6d.

ANEMONE PALMATA ALBA — Pnre wbite; very early. 1 ft. 9d

ANEMONE PENNSYLVANICA-Strong growing variety; white flowers. 13.ft. 6d.
ANEMONE PULSATILLA (Pasque-flower) -Deep purple flowers, covered with long silky hairs; a general favonrite, 3 ft. 9d.

ANEMONE RANUNCULOIDES early; flowers golden yellow. ½ ft. 6d.
ANEMONE RIVULARIS—Strong grower,

baving white flowers with purple anthers. 11 ft. 9d. 1 1 ft.

ANEMONE SYLVESTRIS (The Snowdrop Windflower) - Desirable for spring decoration; large pure white flowers. 2 ft. 9d.

ANEMONE VERNALIS (Shaggy Pasque Flower)—Large white flowers, externally of a bluisb purple. ½ ft. 1s. bluisb purple.

ANTENNARÍA TOMENTOSA (Snow Plant)—Silvery-leaved edging plant; very useful. 6d. each; 3s. pcr doz.

ANTHEMIS AIZOON—Deeply cnt silvery

foliage; a fine rock plant. 9d.
ANTHEMIS KELWAYI—Rich yellow flowers; compact growth. $1\frac{1}{2}$ ft. 6d.

ANTHERICUM LILIAGO (St. Bernard's Lily)-Large tufts of grassy foliage, and spikes of delicate white flowers. 2 ft. 6d.

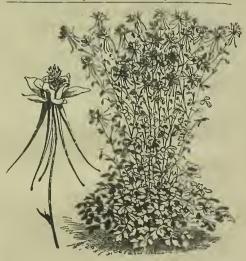

ANTHERICUM LILIASTRUM (St. Bruno's Lily)-Spikes of large pure white flowers issning from tufts of long narrow grass-like foliage; very fragrant. 2 ft. 9d.

ANTHERICUM LILIASTRUM MAJOR -A fae-simile of St. Bruno's Lily, but double the size, both in foliage and flower; one of the very best hardy plants. 2 to 3 ft. 1s.
ANTHYLLIS MONTANA—Dwarf

ornamental rock plant; pink flowers. ½ ft. 1s. AQUILEGIA—Hybrids, from best varietles. 6d. each; 3s. per doz.

AQUILEGIA CALIFORNICA-Handsome, flowers scarlet and green. 23 ft. 9d.

AQUILEGIA CANADENSIS - A pretty and useful variety. 1s. each; 6s. per doz.

AQUILEGIA.

AQUILEGIA CHRYSANTHA-Longspurred flowers of a clear yellow, the petals being of a deeper tint than the sepals. 21 ft. 6d.

AQUILEGIA CŒRULEA-Blue and white, lovely; from the Rocky monntains. 11 ft. 1s.

AQUILEGIA GLANDULOSA-One of the most beantiful; flowers large, of a rich deep blue, pure white corolla. 3 ft. 9d.

AQUILEGIA GRANDIFLORA ALBA-Large pure white flowers; one of the best. 1s.

AQUILEGIA SKINNERI - Dwarf, and compact, flowers red and green. 9d.

AQUILEGIA VULGARIS ALBA FL. PL. -A double white form, and deserving of a place in every collection. 9d.

ARABIS ALBIDA. 6d. each; 4s. per doz.

ARABIS ALBIDA FOL. VAR.— Very pretty. 1 ft. 6d. each; 4s. per doz.

ARABIS LUCIDA FOL. VAR.—For a permanent edging or spring bedding one of the hest plants in cultivation. 6d. each; 4s. per doz. ARABIS ANDROSACEA-Achoice Alpine,

flower white, on stems 2 in. high. 6d. ARENARIA BALEARICA—One of the

dwarfest of plants, forming a dense green earpet npon stones; white flowers. 6d.

ARMERIA LAUCHEANA—Fine heads of

crimson flowers. 3/4 ft. 6d.
ARENARIA MONTANA—A most useful rock plant; white. 1 ft. 9d.

ARENARIA PURPURASCENS-Purple flowers; dwarf. 9d.

(Thrift), Charming ARMERIA ALBA. little Alpine plants, 6d. each; 4s. per doz. forming dense tufts ARMERIA RUBRA. of minnte foliage; very useful and 6d each; 4s. per doz. pretty.

ARMERIA CEPHALOTES RUBRA -This and the two following form a group of Giant Thrifts; splendid border plants, flowers rosy red. 9d.

ARMERIA PLANTAGINEA, syn. SCOR-ZONEÆFOLIA-Delicate rose. 6d.

ARMERIA PLANTAGINEA RUBRA-Dark rose; distinct foliage. 9d.

ARNEBIA ECHIOIDES (The Prophet Flower)-A showy Boragewort; flowers bright golden yellow with conspicuous black blotches;

quite hardy and showy. 1½ ft. 1s. 6d.

ARNICA MONTANA — Orange-yellow flowers; a tufted plant $\frac{3}{4}$ ft. 9d.

ARTEMISIA ARGENTEA - Ornamental

feliage, finely divided silver leaves. 11 ft. 1s. ARUM ITALICUM-Producing handsome

foliage in winter and spring. 6d, each; 5s, per doz. ARUNDO CONSPICUA-Strong growing grass, fine companion plant to the Pampas Grass;

well snited for isolating on a lawn. 1s. 6d.
ASCLEPIAS INCARNATA—Umbels of pink flowers; sweet seented; useful for bees 3 ft. 6d. 1111111

ASCLEPIAS TUBEROSA-Rich orange; flowers in antumn. '1 to 2 ft 9d.

ASPERULA ODORATA (Sweet-scented Woodroff)-A plant that will thrive best under the shade of trees in moist soil. 1 ft. 6d.

ASPHODELUS LUTEUS, syn. ASPHO-DELINE LUTEA -- Spikes of yellow flowers, 3 feet in height; narrow grass-like foliage. 6d.

ASPHODELUS RAMOSUS (King's Spear) —A bold and striking plant, spikes of white flowers; distinct. 3 ft. 9d.

ASTERS—See Collection.

ASTILBE RIVULARIS— Elegant plant, hearing long racemes of white flowers. 3 ft. 9d. ASTRAGALUS HYPOGLOTTIS ALBUS -A fine free-growing prostrate plant. \frac{1}{4} ft. 9d. ASTRAGALUS MONSPESSULANUS-Purple flowers, of a shrubby nature. Ift. 9d. ASTRANTIA MAJOR (Black Masterwort) -Showy; compact heads of pink and white flowers. 2 ft. 9d.

ASTRANTIA MINOR—Pretty and useful. 6d. AUBRIETIA DELTOIDEA- For edging and rockwork; violet-blue flowers. 6d. each;

AUBRIETIA DELTOIDEA CROATICA-Habit compact flowers large and fine. 1s.

AUBRIETIA GRÆCA, IMPROVED-One of the finest; compact habit; flowers large and fiue. 9d. each; 6s. per doz.

AUBRIETIA HENDERSONI-Of a deep violet-purple colour; very free; most effective.

ft. 6d. each; 4s. per doz. AUBRIETIA LEICHTLINI-Dwarf habit;

of a carmine rose shade; distinct. ½ ft. 1s.
AUBRIETIA PURPUREA VARIEGATA -An elegant rock or edging plant. 6d.

AUBRIETIA ROSEA-Soft rose-pink, neat

and compact.

d compact. $\frac{1}{2}$ ft. 9d. AUBRIETIA VIOLACEA—The hest of its class; dark violet, compact hahit. 9d. each; 6s. doz.

BAPTISIA AUSTRALIS-Blue pea-shaped flowers, fine horder plant. $2\frac{1}{2}$ ft. 9d.

BETONICA GRANDIFLORA. 1 ft. 6d. BETONICA ROSEA NANA—Neat growing plant, bearing spikes of pink flowers. 6d.

BOCCONIA CORDATA (Plume Poppy)-

One of the finest hardy plants. 6 ft. 9d.
BUPHTHALMUM CORDIFOLIUM— Foliage large; golden orange flowers. 3 ft. 9d. BUPHTHALMUM SALICIFOLIUM Flowers golden yellow, on stems 2 ft. in height. 6d.

CALAMINTHA GRANDIFLORA FOL. VAR .- One of the very old-fashioned hedding and border plants, known as Variegated Mint.

6d. each; 4s. per doz.

CALTHA PALUSTRIS FL. PL. (Double Marsh Marigold)-Fine for a moist spot; golden yellow flowers; showy and attractive. 1 ft. 9d. CALLIRHOE INVOLUCRATA - Showy, trailing habit; large crimson flowers. 6d.

CAMPANULA ABIETINA-Deep purplish hlue; dwarf and neat. I ft. 1s.

CAMPANULA CARPATICA—Large erect blue flowers. 1 ft. 6d.

CAMPANULA CARPATICA ALBA-Producing pure white flowers. 1 ft. 6d.

CAMPANULA CARPATICA PALLIDA-

Pale blue; pretty. 1 ft. 6d.

CAMPANULA GARGANICA—Sheets of purplish flowers, fine for rockwork. 1 ft. 9d.

CAMPANULA G. F. WILSON - Hybrid hetween C. pulla and turbinata; dark blue; dwarf and compact. 1 ft 1s. 6d.

CAMPANULA GLOMERATA CŒRULEA

AND ALBA. 6d. each.

CAMPANULA GRANDIFLORA (Platyoodon)-Large blue flowers in early autumu; effective. 2 ft. 9d.

CAMPANULA GRANDIFLORA ALBA-Large white flowers. 2 ft. 1s.

CAMPANULA GRANDIFLORA FL. PL. -Large hlue semi-double flowers. 1s.

CAMPANULA GRANDIS—Large hlue salver-shaped flowers. 2 ft. 9d.; 6s. doz.

CAMPANULA GRANDIS ALBA-Very free growing; useful for cutting. 2 ft. 6d. eacb; 5s. per doz.

CAMPANULA HAYLODGENSIS-A charming rock plant of great merit, fine blue ft. 1s.

CAMPANULA LATIFOLIA—Stout stems; large blue flowers in great ahundanee. 3 ft. 6d. CAMPANULA LATIFOLIA MAC-RANTHA-An extra fine form of the preceding.

CAMPANULA HENDERSONI-A hybrid of great merit; flowers large, of a pretty mauve shade, 1 ft. 9d.

CAMPANULA HOSTII-A native of the Alps; fine rock plant. 1 ft. 1s.

CAMPANULA ISOPHYLLA ALBA-A dwarf species, purc wbite flowers. ½ ft. 9d. CAMPANULA MACRANTHA ALBA-

Long white spikes; a noble border plant. 1s. CAMPANULA NOBILIS ALBA - 1 ft.

6d. each; 5s. per doz.

CAMPANULA PULLA-Charming when seen in a mass; deep purple flowers. 1 ft. 9d. CAMPANULA PERSICIFOLIA—Flowers blue. 2 ft. 6d.

CAMPANULA PERSICIFOLIA ALBA FLORE PLENO-Flowers pure wbite; valuable for cut flowers. 2 ft. 6d. caeh; 4s. per doz.

CAMPANULA PERSICIFOLIA ALBA

GRANDIFLORA (Backhouse's Var.)—Fine pure white flowers, fully half as large again as those of the old type, and lasting very long when cut; a grand variety. 2 ft. 1s.

CAMPANULA PERSICIFOLIA CORO-

NATA ALBA— A beautiful free-flowering variety. 9d. each; 6s. per doz.

CAMPANULA PORTENSCHLAGIANA, syn. MURALIS-Distinct and pretty. ½ ft. 6d.

OAMPANULA PERSICIFOLIA ALBA FL. PL.

WALLFLOWER (DOUBLE).

CAMPANULA PUMILA, syn. PUSILLA-

ft. 6d. each; 5s. per doz.

CAMPANULA PUMII
neat and distinct. 4 ft 6d. PUMILA ALBA-Very

CAMPANULA PYRAMIDALIS (Chimney Campanula)—A fiue plant for the back of the berbaceous border, or for pot culture, forming a pyramid composed of unmerous stems 4 to 5 feet in height, each stem crowded with large blue salver-like flowers. 6d.

CAMPANULA PYRAMIDALIS ALBA—

Pretty. 4 to 5 ft. 6d.
CAMPANULA RHOMBOIDEA—Flowers deep blue, on slender stems. 1 ft.

CAMPANULA TURBINATA-Large bell-shaped blnish purple flowers. 1/2 ft. 9d.

CAMPANULA URTICÆFOLIA FL. PL.-

A very old and useful form. 1s.

CAMPANULA VAN HOUTTEI-A charming hybrid, immeuse dark blue flowers 3 in. in length. 2 ft. 9d.

CARDAMINE PRATENSIS PLENA-Growing freely in any damp situation on the rockery and border; purplish colour, changing to snowy-whiteness. 1 ft. 9d. to snowy-whiteness.

CARDAMINE TRIFOLIATA—Very pretty

white-flowering spring plant. 3/4 ft. 6d. CARDUUS HETEROPHYLLUS — Very large purple flowers; ornamental. 3 ft. 9d.

CATANANCHE BICOLOR-Free-growing effective border perennial; flowers blue and white. 2 ft. 6d. each; 5s. doz.

CATANANCHE CCERULEA — Easily

growu, free blooming, nseful; blue. 2 ft. 6d. CENTAUREA GLASTIFOLIA-Graceful

habit; flowers golden yellow. 1s. CENTAUREA MACROCEPHALA — A strong growing form, large bright yellow flowers.

CENTAUREA MONTANA (The Perennial Cornflower)—Blue, very useful for cutting purposes. 1½ ft. 6d. purposes. 11 ft.

CENTAUREA MONTANA ALBA-Very

useful. 11 ft. 6d.

CENTAUREA MONTANA LADY FLOR-ENCE HASTINGS—A new creamy white form, very useful for cutting. 1½ ft. 1s.

CENTAUREA MONTANA RUBRA-Red flowers, quite distinct from the form usually sold under this name. 9d.

CENTAUREA RUTHENICA—Useful border plaut; flowers pale yellow. 3 ft. 1s.

CEPHALARIA ALPINA-A sulphurflowered Scabious; fine border plant. 4 ft. 9d. CERASTIUM TOMENTOSUM — A wellknown rock or carpeting plant. 6d. each;

3s. per doz. CHEIRANTHUS ALPINUS - Forming dense enshious covered with sulphur coloured

flowers. 1 ft. 6d.

CHEIRANTHUS CHEIRI LUTEUS PLENUS (Double Yellow Wallflower)—A free-flowering old favourite. 14 ft. 9d.

CHEIRANTHUS MARSHALLI-Orange colour; fragrant; useful for cutting. 1 ft. 9d. CHELONE OBLIQUA ALBA-A white flowered variety. 3 to 4 ft. 9d.

CHELONE OBLIQUA, syn. PURPUREA (Snake's-head). 3 to 4 ft. 9d.

CIMICIFUGA RACEMOSA - Handsome foliage, loug feathery spikes of white flowers.

3 to 5 ft. 1s. CLEMATIS INTEGRIFOLIA-A herbaceous species, with elegant bell-like purple 9d.

COREOPSIS GRANDIFLORA-Yellow; a large free-flowering variety. 3 to 4 ft. 9d.

COREOPSIS LANCEOLATA - A handsome kind, flowering nearly all the summer; bright yellow. 2 ft. 6d.

CORYDALIS NOBILIS-The handsomest of this family; flowers rich golden yellow.

1 to 1 ft. 1s.

CRUCIANELLA STYLOSA-A ueat trailing plant; globular heads of rose flowers. 6d. CHRYSANTHEMUM-Forsummer-flower-

ing varieties, see Catalogue.

CHRYSANTHEMUM LATIFOLIUM-One of the best late Pure white, yellow centre, hardy Marguerites. 3 ft. 9d.

CHRYSANTHEMUM LEUCANTHE-MUM -Semi-duplex; a distinct and useful plant for eutting; flowers pure white, double. 1 to 2 ft. 9d.

CHRYSANTHEMUM MAXIMUM (True) One of the most useful Perennials in commerce; large, well formed, pure white flowers. 2 ft. 9d.

CHRYSANTHEMUM ULIGINOSUM -

See Parethrum Uliginosum.

CISTUS-See Flowering Shrub-like Plants. CORONILLA IBERICA-A capital rock or border plant; large yellow pea-shaped flowers; trailing habit. 9d.

CORONILLA ROSEA—Strong growing, for

banks and stony places. 1 ft. 9d.

CYCLAMEN—The greenhouse varieties are familiar to everyoue, but how few have any idea of the modest beauty of the hardy species; they only require planting in light loamy soil, in a shady position. \(\frac{1}{4}\) to \(\frac{1}{2}\) ft. high.

CYCLAMEN AFRICANUM (Macrophyl-

lum)-Large red flowers in autumn. 1s.

CYCLAMEN ATKINSI ALBUM-White; 1s. winter flowering.

CYCLAMEN ATKINSI PURPUREUM-

Bright purple. 9d. OYCLAMEN COUM-Red; flowers in Feb-

1s. ruary. CYCLAMEN EUROPÆUM - Summer flowering, rosy pink; very freo. 6d.

CYCLAMEN HEDERÆFOLIUM-Rose, foliage marbled; autnmual; oue of the best. 9d. CYCLAMEN HEDERIFOLIUM ALBUM -Pnre white. 1s.

CYCLAMEN IBERICUM-White flowers, bright purple spot at the base. 9d.

CYCLAMEN REPANDUM VERNUM-Deep reddish crimson. March. 9d.

CYPRIPEDIUM ACAULE (Stemless Lady's Slipper)—Flowers rose colour, varying in shade to almost white, but invariably tinted with rose. ½ ft. 1s. 6d. to 2s. 6d.

CYPRIPEDIUM CALCEOLUS (English Lady's Slipper)-Sepals and petals of a brownish purple, and the lip of a clear bright yellow. Î ft. 1s. and 1s. 6d.

CYPRIPEDIUM MACRANTHUM (Siberian Lady's Slipper)—Flowers of a rich purplish crimson colour. 1 ft. 2s. 6d. and 3s. 6d.

CYPRIPEDIUM PARVIFLORUM-Fragrant flowers, with a bright yellow labellum; sepals and petals of a brownish purple. 11 ft.

CYPRIPEDIUM SPECTABILE -- Labellum is much inflated; delicate rose colour, sepals and petals white. One of the best species for all purposes. $1\frac{1}{2}$ ft. 1s. 6d. and 2s. 6d.

DAISIES -See Collection.

DELPHINIUMS—See Collection.

DIANTHUS ANNULATUS-A very beautiful rock plant. 1 ft. 1s.

DIANTHUS ALPINUS (Alpine Pink)-Rose flowers, spotted crimson. $\frac{1}{4}$ ft. 1s. 6d.

DIANTHUS BARBATUS MAGNIFICUS - Large heads of deep crimson; double flowers. 6d. DIANTHUS CŒSIUS (Cheddar Pink) .-Rose colonred; very fragrant. 1 ft. 6d.

DIANTHUS CRUENTUS-Deep crimson-

carlet. 1 ft. 9d.

DIANTHUS FRAGRANS. 1 ft. 6d. DIANTHUS NEGLECTUS - One of the best; bright rosy piuk; compact tufts.

DICTAMNUS FRAXINELLA - Curious red flowers; fine border plant. 3 ft. 9d.

DICTAMNUS FRAXINELLA ALBA (Burning Bush)-White, fragrant. 9d.

DIELYTRA (DICENTRA) EXIMIA - A charming spring-flowering plant, raceines of drooping reddish-purple flowers; fine for spring decoration. 11 ft. 9d.

DIELYTRĀ FORMOSA— Also a very useful

and pretty variety. 12 tt. 6d.

DÎELYTRA SPECTABILIS-One of the finest spring-flowering plants, either for border or greenhouse, that we possess; well known. 2 ft. 9d.

DIELYTRA SPECTABILIS ALBA-White, faintly flushed pink; beautiful. 11 ft. 2s. 6d.

DIGITALIS GRANDIFLORA, syn. AM-BIGUA—Yellow-flowered perenuial Foxglove. 3 to 4 ft. 6d.

DODECATHEON JEFFREYANUM, syn. LANCIFOLIUM—The largest of this group; drooping rose-colonred flowers, with yellow centres. 1 ft. 9d. and 1s.

DODECATHEON MEADIA ELEGANS Purple flowers, suitable for the rockery or shady position. $\frac{3}{4}$ ft. 1s.

DODECATHEON MEADIA (The Ameri-Cowslip) - Bearing umbels of purple flowers; form of flower somewhat like the Cyclainen; quite hardy. 1 ft. 6d.

DODECATHEON SPLENDIDUM (Shootlng Star)-Deep crimson colonr; a little gem for a cool, shady spot. 1 ft. 1s.

DONDIA EPIPACTIS, syn. HACQUETIA -Umbels of yellow flowers; iu spring likes a damp position. $\frac{1}{2}$ ft. 9d.

DORONICUM AUSTRIACUM - Bright golden yellow; very effective. 13 ft. 6d. each; 5s. per doz.

DORONICUM CLUSII-Rich yellow flowers, very free and effective. 11 ft. 6d.

DORONICUM PLANTAGINEUM EX-CELSUM, syn. HARPUR CREWE - A grand variety, producing freely large, bright yellow flowers; the finest for cutting purposes 2 to 3 ft. 6d.

DRABA AIZOON -- Moss-like growth; small yellow flowers. 1 ft. 9d.

DRABA AIŽOIDES — A pretty yellow spring-flowering rock plant. 1 ft. 91.

DRABA BRUNLÆFOLIA - Dark folinge, yellow flowers; a useful rock plant, \(\frac{1}{4}\) ft. ls.
\(\DRACOCEPHALUM\) RUPRECHTI—

Lilac-hlue. 1 ft. 9d. DRACOCEPHALUM VIRGINICUM -Pink flowers along the two-thirds the height of

stems. 21 ft. 9d.

DRYAS OCTOPETALA-A creeping evergreeu plant; white flowers and yellow stainens; pretty. 1s.

ECHINACEA PURPUREA (Rudbeckia) -Very stately antumn flowering perennial, with large reddish purple flowers on stems 3 feet in height. 9d.

ECHINOPS RITRO (Globe-Thistle) - A handsome foliage plant, baving also globular heads of rich blue flowers. 2 ft. 9d.

ECHINOPS RUTHENICUS - Blue; a

showy border plant. 2 to 3 ft. 9d. ECHINOPS SPHŒROCEPHALUS — Flower beads white. 6d.

EPILOBIUM ANGUSTIFOLIUM-Adapted for sbrubberies, horders, &c. 3 to 4 ft. 6d.

EPILOBIUM DODONÆI, syn. HALLERI. Pretty rose coloured, narrow leaves. 1 ft. 1s. EPILOBIUM FLEISCHERI—Rosy purple flowers; useful for rockery. 1 ft. 1s.

EPIMEDIUM ALPINUM (Barren Wort)— Yellow and erimson; elegant group of rock or Gd. border plants. 1 ft.

EPIMEDIUM MACRANTHUM - White, tinged violet. 9d.

EPIMEDIUM RUBRUM-Reddish brown,

EPIMEDIUM NIVEUM—Capital plant forforeing; white. 1 ft. 9d.

EPIMEDIUM PINNATUM—Bright yellow. 1 ft. 9d.

EPIMEDIUM SULPHUREUM-Pale yellow. 9d.

EREMURUS BUNGEI - Long spikes of straw-coloured flowers, with conspicuous anthers; very rare and beautiful. 7s. 6d.

EREMURUS HIMALAICUS - Spikes of pare white flowers; hardy and free flowering. 5 ft. 5s. and 10s. 6d.

EREMURUS OLGŒ-Dense spikes of rosy

flesb-coloured flowers. 3 ft. 5s.

EREMURUS ROBUSTUS-Of a lovely pink, sweet scented, massive spikes, 7 to 8 feet high, native of Turkestan. Small plants, 3s. 6d.

ERIGERON AURANTIACUS - Large bright orange flowers, on stems 9 inches high, 9d.

ERIGERON GLABELLUS - Blue and yellow flowers; dwarf. 1 ft. 6d.

ERIGERON PHILADELPHICUM-Free flowering rose coloured variety. 6d.

ERIGERON SPECIOSUS SUPERBUS-Large blue flowers, yellow centres; fine for the autumn. 2 ft. 9d.

ERINUS ALPINUS-Rose colour, suitable for old walls, &c. 4 ft. 6d. each; 4s, per doz. ERINUS ALPINUS ALBUS—White. $\frac{1}{4}$ ft. 9d.

ERODIUM MACRADENIUM, syn. GLANDULOSUM - Fern-like foliage rosecolonred flowers, blotched black. 1 ft. 9d.

ERODIUM MANESCAVI-A showy handsome species, parplish red flowers. 1 ft.

ERYNGIUM OLIVERIANUM, syn. AMETHYSTINUM - Should he in every collection; stem and flowers a fine amethystine hlue. $2\frac{1}{2}$ ft. 1s.

ERYNGIUM GIGANTEUM - Effective. 13 ft. 6d. each; 5s. per doz.

ERYNGIUM MARITIMUM (Sea Holly)-Pale blne; glaucous foliage. 1½ ft. 1s.

EUPATORIUM PURPUREUM-Branching heads of purple flowers. 6-7 ft. 1s.

EURYBIA GUNNIANANA-Erect muchbranched shrub, aster-like flowers of snowy

whiteness. 2 ft. 2s. ERYNGIUM ALPINUM — Of a lovely metallic blue, stem as well as the hracts being of the same lovely shade. $1\frac{1}{2}$ ft. 1s.

ERYNGIUM PLANUM — Good border plant; distinct, 2 ft. 9d.

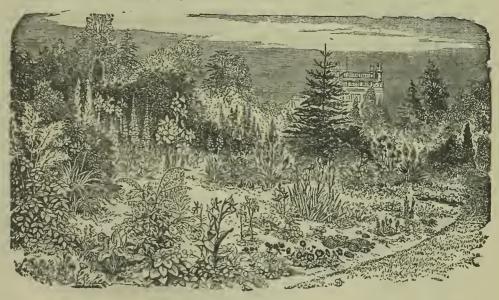

ERODIUM REICHARDI-White flowers;

a pretty little Alpine. \frac{1}{4} ft. ls. FERULA COMMUNIS—Attractive during the early Spring. When it has arrived at maturity, it is one of the grandest hardy foliage

plants. 5 ft. 1s. FRANCOA APPENDICULATA-Spikes of

pink flowers. 2 ft, 1s. FRANCOA RAMOSA—Fine racemes of white flowers. $1\frac{1}{2}$.2 ft. 1s.

FUNKIA FORTUNEI-Blue-green fo iage; distinct, 1 ft. 1s. 6d.

THE HARDY FLOWER OARDEN.

FUNKIA LANCEOLATA MARGINATA -Belonging to a beautiful genus of haudsome

foliage plants. I ft. 9d. FUNKIA OVATA, syn. HEMEROCAL-LIS CŒRULEA—Large green foliage, flowers purple. 6d.

FUNKIA SIEBOLDI—Ornamental. 11 ft

FUNKIA SUBCORDATA GRANDI-FLORA- Broad green leaves and noble spikes of pure white flowers. $1\frac{1}{2}$ ft. 9d.

FUNKIA UNDULATA FOL. VAR.—1 ft.

GAILLARDIA GRANDIFLORA — See Collection.

GALEGA OFFICINALIS-Of free growth.

GALEGA OFFICINALIS ALBA—Strong growing white, pea-shaped flowers; very useful

for cutting. 3-4 ft. 6d.

GENISTA HUMIFUSA — Deep Yellow

flowers, prostrate habit. 1s. 6d.

GENÍSTA TINCTORIA FL. PL.—Suitable

for the rockery. 9d. GENISTA TRIQUETRA (Triangularis)-Curious trigonal prostrate stems, and yellow pea-shaped flowers. 1s.

GENTIANA ASCLEPIADEA - Spikes of

dark purplish blue. 2 ft. 9d.

GENTIANA ACAULIS-The Gentianella; charming cusbions of leathery glossy foliage. erect bell-shaped flowers of intense blue. 1 ft. 6d. each; 5s. per doz.

GENTIANA ACAULIS.

GENTIANA ANDREWSI-Rich purplish blue: one of the handsomest. 1-2 ft. 1s. GENTIANA CRUCIATA—A vigorous growing species, flowers deep blue. 1-11 ft. 6d.
GENTIANA GELIDA—Tufts a foot high.

with large light blue heads. Is.
GENTIANA LUTEA (The Great Yellow Gentian) — Rich yellow flowers, bold habit. 3-4 ft. 1s.

GENTIANA PNEUMONANTHE (Heath Gentlan)—Light blue flowers; fine. 3-1 ft. 9d.

GENTIANA VERNA-It forms dense tufts of deep green glossy foliage, and in early spring is covered with brilliant blue flowers, with a white or yellow eye; succeeds best in a rich loamy soil. 4 ft. 1s. GERANIUM—See Collection.

GEUM COCCINEUM PLENUM-One of the finest of our hardy perennials, large double flowers of a dazzling scarlet. 1½ ft. 9d. GEUM MINIATUM—Distinct; rich orange

coloured flowers. 11 ft. 9d.

GEUM MONTANUM-Useful for rock work or border; compact tufts; clear bright yellow. 1 ft. 9d.

GILLENIA TRIFOLIATA—Large panicles of piuk and white flowers. 2-3 ft. 1s.

GLAUCIUM LUTEUM, syn. FLAVUM-Useful for winter decorative bedding. 6d.

GLOBULARIA CORDIFOLIA-Fine rock plant; evergreen foliage, blue flowers GLOBULARIA TRICHOSANTHA -

Flowers dark blue, in globular heads. 3 ft. 6d. GNAPHALIUM LEONTOPODIUM (The Edelweiss) - A curious Alpine species, producing beads of flowers enveloped in a soft silky substance like cotton-wool. Easily grown on a raised border or piece of rockwork, in very sandy soil mingled with stones. ½ ft. 9.l.

GUNNERA MANICATA-Large, han isome

foliage. 4-5 ft. 2s. 6d.

GNAPHALIUM LEONTOPODIUM.

GUNNERA SCABRA—A native of the Andes. A fine plant for open spaces, on lawns, or the margin of lakes. 3.5 ft. 1s. and 1s. 6d.

GYNERIUM ARGENTEUM (Pampas Grass). 1s. to 2s. 6d.

GYPSOPHILA CERASTIOIDES—A pretty trailing plant; flowers white, streaked violet. 4 foot. 1s.

GYPSOPHILA PROSTRATA — Compact trailing babit, white flowers; a charming took plant. ½ ft. 6d. each; 5s. per doz.

GYPSOPHILA PANICULATA—Forming a symmetrical bash about 2 feet bigh, and covered with miniature white flowers. 6d.

HARDY FERNS-See Collection.

HARDY HEATHS—In variety. 12s. to 18s. doz.

HARPALIUM RIGIDUM (Helianthus)—One of the best of our autumn plants; flowers large, of a bright golden yellow, black disc; free and showy. 3 ft. 6d. each; 4s. per doz.

HARPALIUM RIGIDUM (Miss Mellish's Variety)—The best of all the family. 1s.

HEDYSARUM OBSCURUM—A brilliant and compact perennial; 1 ft. 9d.

HELENIUM AUTUMNALE — Flowers large, bright yellow, and produced in abundance; yery useful for cutting purposes. 5-6 ft. 6d.

very useful for cutting purposes. 5-6 ft. 6d. HELENIUM BOLANDERI—Dwarf habit, with large yellow flowers, centre black. 5-6 ft. 9d.

HELENIUM GRANDICEPHALUM—Yellow; very vigorous, 1-1½ ft 9d.

HELIANTHEMUMS—See Collection. HELIANTHUS DECAPETALUS. 4.5 ft. 6d. each; 5s, per doz.

HELENIUM BOLANDERI.

GYNERIUM ARGENTRUM.

HELENIUM PUMILUM—Of a dwarfer habit than the above; free. $\frac{3}{4}$ ft. 9d.

HELIANTHUS MUL-TIFLORUS GRANDI-PLENUS (Soleil d'Or)—Large double yellow flowers; the finest of this class. 9d.

HELIANTHUS OCCI-DENTALIS — Rich yellow, dark centre. 2½ ft. 1s.

HELIANTHUS LÆTIFLORUS — Rich golden yellow; free, 3 ft. 9d.

HELIANTHUS MULTIFLORUS (The Great Perennial Single Sunflower)—Growsfrom 3 to 4 feet high, and has a brilliant effect planted in masses, in sbrnbby borders, and other places. 4.5 fr. 6d. each; 5s. per doz.

HELIANTHUS MULTIFLORUS.
PLENUS (The Double Perennial Sunflower)
—A vigorous growing perennial, large double deep yellow flowers; very nseful for entting.
4 ft. 6d. eacb; 5s. per doz.

HELIANTHUS STRUMOSUS — Small flowers, useful for cutting. 3-4 ft. 9d.

HELIOPSIS SCABRA—Suitable for mixed border; flowers bright orange. 3 ft. 6d.

HELLEBORUS ATRORUBENS (Lenten

Rose)—Bright rosy purple, 1 ft. 1s. HELLEBORUS CAUCASICUS PUNCTA-TUS-Very free, rosy crimson flowers, spotted

deeper. 1 ft. 1s.

HELLEBORUS COLCHICUS "COCCI-NEUS"-Widely expanded bell-shaped flowers of a clear purplish earmine colour; very floriferous and robust in habit. 1 ft. 3s. 6d.

HELLEBORUS COLCHICUS ROSEUS-A rosy purple coloured hybrid of fine vigorous growth, flowers widely expanded. 1 ft. 2s. 6d. HELLEBORUS FŒTIDUS-Greenflowers;

a pretty winter foliage plant. 1 ft. 9d. HELLEBORUS GUTTATUS — White, freely spotted purple. 1 ft. 2s. 6d.

HELLEBORUS NIGER (Christmas Rose) -Perfectly hardy, and if planted in the garden and taken up and potted when it hecomes large clumps, and placed in a cold frame, it will continue to give a profusion of flowers for two months, with no other trouble than the ordinary watering. 1s. 6d. each; 15s. per doz.; smaller, 12s. per doz.

HELLEBORUS NIGER ALTIFOLIUS (Maximus)-Very large and fine, far surpassing the type for cutting purposes. 1-2 ft. 1s. 6d. and

HELLEBORUS GUTTATUS LEICHT-LINI-One of the finest yet raised; very large; pure white, covered with small rosy-purple spots. 2s. 6d.

HELLEBORUS NIGER ANGUSTI-FOLIUS (St. Bridgid's Christmas Rose)-Very large, free blooming, of the purest white. 1s. 6d. and 2s. 6d.

HELLEBORUS NIGER MAJOR-Wonderfully free-flowering; large white flowers. 1s. 6d. and 2s. 6d.

HELLEBORUS OLYMPICUS - White,

slightly tinged green. 1s.

HELLEBORUS ORIENTALIS - Deep purple-red; one of the most effective. 1s. each; 9s. per doz.

PALLIDUS — Creamy HELLEBORUS

white, tinged green; free. 1s. 6 f.

HELLEBORUS PURPURASCENS-Flowers large, dove-eoloured inside and out; one of the earliest in bloom, $\frac{3}{4}$ ft. 2s. 6d.

HELLEBORUS VIRIDIS - Sea green,

handsome foliage. 1 ft. 1s. HELLEBORUS WILLIE SCHMIDT-Pure white; one of the hest. 1 ft. 2s. 6d.

HEMEROCALLIS DISTICHA FL. PL .-Bronzy yellow; flowers large and double. 3 ft. 9d. HEMEROCALLIS DUMORTIERI Flowers soft rich yellow; a gem for the border

or rockery; useful for eutting. 1 ft. 9d. HEMEROCALLIS FLAVA (Day Lily) Golden yellow, very fragrant; fine for cutting and forcing. 3 ft. 9d. each; 7s. 6d. per doz. HEMEROCALLIS FULVA—Large tawny-

orange flowers and handsome foliage. 3 ft. 6d.

HEMEROCALLIS KWANSO FL. FOL. VAR.—Ornamental foliage; fine. 1s. 6d.

HEMEROCALLIS MIDDENDORFIANA - Terra-cotta coloured flowers; very useful for cutting; distinct, 21 ft. 1s.

HEMEROCALLIS THUNBERGI-Deep sulphury-yellow; fragraut; very useful for eucting. 2½ ft. 1s.

HEPATICA TRILOBA-

Single blue 29 å ft. Single white (9.9 Single red 2.5 Double red Double blue. 1s. 6d.

HEPATICA ANGULOSA - Largest and

earliest: sky-blue. 1/2 ft. 6d.

HESPERIS MATRONALIS—See Rockets. HEUCHERA SANGUINEA (Alum Root)--One of the best garden plants; exquisite flowers for cutting; light coral-scarlet, dwarf, compact,

branching growth, 12-2 ft. 9d. HIERACEUM AURANTIACUM— Flowers bright orange; fine for cutting. 1 ft.

HIERACEUM VILLOSUM—Large goldenyellow flowers, suitable for rockwork or border. $\frac{1}{2}$ ft. 9d.

HIPPOCREPIS COMOSA-Growing freely in any exposed part of the rockwork; yellow.

1 ft. 6d.

HUTCHINSIA ALPINA -- A neat little plant, with shining leaves and pure white flowers. 6d. HYPERICUM CALYCINUM (Rose of Sharon, St. John's Wort)-Bright ye'low flowers. 1 ft. 6d.

HYPERICUM MOSERIANUM-Very fine;

bright yellow flowers. 2-3 ft. 1s.

HYPERICUM PATULUM-Forming neat

and well-shaped bushes. 3 ft. 1s.

HYPERICUM REPTANS—A pretty trailing species, useful for rockwork; large flowers.

IBERIS CORRŒFOLIA-One of the finest of the evergreen Candytufts; pure white, flowers early in spring; very useful for cutting. 3 ft.

6d. each; 5s. per doz. IBERIS GIBRALTARICA HYBRIDA-Colour silvery white, tinged pink, plants completely covering themselves solid with bloom.

§ ft. 9d.

IBERIS LINIFOLIA-Very compact grow-

ing variety. 1s.

IBERIS SEMPERFLORENS. 6d. each;

5s. per doz.

IBERIS SEMPERVIRENS FLORE PLENO (Double White Perennial Candytuft) -For edgings, beds, borders, rockwork, &c. It is a dwarf, compact and beautifully-rounded bush. 6d.; 4s. doz.

INULA GLANDULOSA - Large yellow flowers; fine border plant. 2 ft. 9d.

INULA HELENIUM - Large heads of bright yellow flowers. 1-13 ft. 9d.

IRIS-See Collection.

ISOPYRUM THALICTROIDES - White

flowers, Maidenhair-like foliage. 1s.

LATHYRUS GRANDIFLORUS (Biflorus) -The finest of the Perennial Peas, flowers very large, of a bright crimson-scarlet, produced in abundance. 4 ft. 1s.

LATHYRUS LATIFOLIUS (The Perennial Pea)-Having red flowers in bunches. 4 ft. 1s.

LATHYRUS LATIFOLIUS ALBUS-One of the finest white flowers in cultivation for

cutting phrposes. 4 ft. 1s. 6d.

LATHYRUS LATIFOLIUS SPLEN-DENS-A five dark variety. 4 ft. 1s. 6d.

LAVENDULA SPICATA (Lavender). 6d. each; 4s. per doz.

LIATRIS PYCNOSTACHYA-Long spikes of purple flowers. 3 ft. 1s.
LIATRIS SPICATA—Purple. 1½ ft. 6d.

LILIES-See Collection.

LINARIA ALPINA-Purple and orange flowers: neat trailing habit; effective. 6d.

LINARIA CYMBALARIA (Ivy-leaved Toad Flax)—Pretty for dry sunnv spots. 6d.

LINARIA DALMATICA - Rich goldenyellow; very striking and free. 9d.

LINARIA PILOSA-A dwarf, frec-flowering perenuial, well adapted for covering walls and rockwork; flowers lilac colour. 9d.

LINUM ARBOREUM — Free flowering,

requiring a snnny position on borders or rock-work, in sandy, well-drained soil. 1 ft. 1s. LINUM FLAVUM (Luteum)—An iuvalu-

able border or rock plant. 1-13 ft. 9d.
LINUM MONOGYNUM (The New Zealand White Flax.)-Large pure white flowers. 1 ft.

LITHOSPERMUM PROSTRATUM-Rich blue; one of the best rock plants. 1 ft 9d. LOBELIAS-See Collection.

LOTUS CORNICULATUS FL. PL.—Pretty. 6d. cach; 4s. per doz.

LUPINUS ARBOREUS (Tree Lupin)— Fine yellow. 2-4 ft. 9d.

LUPINUS FOXII-Dark purple and white; fine for cutting. 1s.

LUPINUS NOOTKATENSIS-Blue and

white: dwarf variety. 1\frac{1}{2} ft. 9d.

LUPINUS POLYPHYLLUS — A grand border plant. 4 ft. 6d.

LYCHNIS FLOS-CUCULI ROSEUS PIENUS.

GEM. 4 5 THIS FLOWER. CUT

LONG 4 AND LASTING IN WATER FLOWERS OPENING WHEN TIME

LUPINUS POLYPHYLLUS ALBUS-A showy plant for borders. 4 ft. 6d.
LYCHNIS ALPINA—Rose coloured; dwarf

and pretty. ½ ft. 6d.

LYCHNIS CHALCEDONICA FL. PL .-Immense heads of double scarlet flowers; fine for entting. 3 ft. 9d.

LYCHNIS CHALCEDONICA ALBA FL.

PL.—White; very fine. 3 ft. 1s. 6d.

LYCHNIS DIOICA RUBRA FL. PL.-A very handsome neat border plant; large double erimson flowers, fine for massing and cutting purposes. 11 ft. 6d each; 4s. per doz.
LYCHNIS FLOS CUCULI ALBA

PLENA - Snow-white flowers, beautifully

fringed; useful for the border, exhibition, or eutting purposes. 11 ft. 9d.

LYCHNIS FLOS - CUCULI ROSEUS PLENUS-A free flowering showy variety, with bright rose-coloured flowers; most useful for cutting purposes. $1\frac{1}{2}$ ft. 9d. LYCHNIS HAAGEANA—In variety. 1 ft.

6d. each; 5s. per doz. LYCHNIS VESPERTINA PLENA—Fine, double white; very free hloomer; useful for eutting. 2½ ft. 1s.

LYCHNIS VISCARIA SPLENDENS

PLENA -Spikes of very double red flowers. 1 to $1\frac{1}{2}$ ft. 6d.

LYSIMACHIA CLETHROIDES - Pure

white; very effective. 2 ft. 6d.

LYSIMACHIA NUMMULARIA AUREA

(Golden-Leaved Creeping Jenny)-6d.

LYTHRUM ROSEUM SUPER Fine. 3 to 4 ft. 6d. each; 5s. per doz. SUPERBUM-

LYTHRUM SALICARIUM ROSEUM-Long hranched spikes of rosy-pink flowers; a useful border plant. 3 to 4 ft. 9d.

MALVA MOSCHATA ALBA-Flowers pure white and very fragrant. 2 ft. 6d.

MEGASEA CORDIFOLIA-Foliage large, spikes of bright rose flowers. 1 ft. 6d.

MEGASEA CORDIFOLIA PURPUREA -Rich purple flowers; the finest of this genns.

 $1\frac{1}{2}$ ft. 9d. and 2s. 6d.

MEGASEA PURPURASCENS - Light purple flowers, tall stems; searce. 1 ft. 1s. 6d. MEGASEA LIGULATA—Early flowering;

piukish-lilac. 1 ft. 9d. MEGASEA STRACHEYI—Pretty blushpink flowers; a select frame plant. 1 ft. 1s. 6d. MERTENSIA SIBERICA - Drooping elusters of light blue flowers. 1 ft. 1s.

MERTENSIA VIRGINICA (Pulmonaria)

-Flowers purplish blue colour. 1\frac{1}{2} ft. 9d.

MIMULUS CARDINALIS - Very showy
and effective; flowers scarlet 1 ft. 1s.

MONARDA DIDYMA, syn. FISTULOSA AND KALMIANA (Bee Balm) — Searlet; fragrant. 2 ft 6d.

MONARDA DIDYMA ALBA — A white flowering form of the above, showy and

attractive. 6d.

MONTBRETIA "FIERY STAR"-Habit robust, most floriferous, producing in long succession hrilliant vermilion widely-expanded flowers. 3 ft. 1s.

MONTBRETIA "GOLDEN SHEAF"-A vast improvement on Crocosmæflora aurea, having larger, more expanded, golden-yellow flowers, and a dwarf compact hahit; excellent for entting.

For other varieties of Montbretia see Bulb

Catalogue.

MORINA LONGIFOLIA - Highly ornamental, both in foliage and flowers. 21 ft. 9d. MYOSOTIS, in variety—See Summer flower-

ing plants, MYOSOTIS IMPERATRICE ELIZA-BETH-Colour very rich. 3 ft. 9d. each; 6s.

NIEREMBERGIA RIVULARIS — Large pure white flowers; dwarf, slender, creeping stems. 2 in. high. 9d.

CENOTHERA FRASERI and YOUNGI-

Both very showy. 1\frac{1}{2} ft. 9d. each. ŒNOTHERA FRUTICOSA Large deep yellow flowers; fine. 1 to 11 ft. 9d.

CENOTHERA MACROCARPA.

CENOTHERA MACROCARPA (Evening Primrose) - Deep golden yellow flowers. 1/2 ft. 6d. ŒNOTHERA PLŒRIMI — By far the finest of the yellow Evening Primroses. 1 ft. 6d. CENOTHERA RIPARIA. 1 ft. 6d. each; 5s. doz.

CENOTHERA SPECIOSA - Free-growing large white fragrant flowers, and for horders few ean he found to equal it. 1 to 13 ft. 9d. each; 6s. per doz.

CENOTHERA TARAXACIFOLIA-One of the prettiest of the dwarf Evening Primroses; large white flowers changing to red when fading. 1 ft. 6d.

OMPHALODES LUCILLE-Delicate blue Sowers; a heantiful Alpine. 1 ft. 1s. 6d, and

OMPHALODES VERNA-Charming little plant; blue. $\frac{1}{2}$ ft. 6d. each; 5s. per doz.

OMPHALODES VERNA ALBA- | ft. 6d. each; 5s. per doz.

PAPAVER NUDICAULE (ICELAND POPPY).

ONONIS ROTUNDIFOLIA (Rest Harrow) -A free-flowering and effective border plant; will thrive in sandy soils. $1 \frac{1}{2}$ ft. 9d.

ONOSMA TAURICA—Bright yellow; very fragrant. 3/4 to 1 ft. 1s. 6d.
OPHIOPOGON SPICATUM—A neat evergreen, with grassy leaves and spikes of white flowers. 9d.

OPUNTIA RAFINESQUEI (Prickly Fig) -A truly hardy Cactus, with yellow flowers; indispensable for the rockwork. 1s. 6d.

OROBUS AURANTIACUS (Luteus) Bright orange flowers; very distinct. 11 to 2 ft. 1s. 6d.

OROBUS CANESCENS-One of the most

showy; blue purple, 1 ft. 1s.
OROBUS LATHYROIDES — Numerous spikes of small blue flowers, closely arranged; a

showy plant. 2½ ft. 0d.
OROBUS VERNUS—Purple pea-shaped flowers; one of the prettiest spring flowering plants. 1 ft. 9d.

OSTROWSKIA MAGNIFICA-The giant bnll-flower from Central Asia; flowers bell-shaped; mauve-lilac and white. 3 to 4 ft. 2s. 6d.

OURISIA COCCINEA-Spikes of drooping scarlet flowers; a gem for a moist shady spot. i ft. 9d.

PÆONIA MOUTAN (Tree Pæonies)—See Collection.

PÆONIAS, HERBACEOUS-See Collec-

PANSIES—In great variety—See Collection. PAPAVER BRACTEATUM-Large brilliant crimson-scarlet flowers, black blotch at base of each petal; fine for borders. 3 ft. 9d.

PAPAVER NUDICAULE-Showy forming tufts of bright yellow flowers. 1 ft. 6d.

PAPAVER NUDICAULE ALBUM - A pretty white variety of the preceding; fine for cutting. 1 ft. 6d.

PAPAVER NUDICAULE COCCINEUM FL. PL. - New donble flowering form of the bright orange-scarlet variety of the Iceland Poppy. 1 ft. 1s.

PAPAVER NUDICAULE MINIATUM-Brilliant orange-scarlet flowers; one of the most showy of the Iceland Poppies. 1 ft. 6d.

PAPAVER ORIENTALE — Immense deep crimson flowers, black blotch. 3 ft. 6d.

PAPAVER ORIENTALE "BLUSH QUEEN "- Beautiful soft rosy-pink flowers; more erect in growth than Orientale. F.C.C. $3\frac{1}{2}$ ft. 1s.

PAPAVER ORIENTALE "PRINCE OF ORANGE " - Dwarf, compact habit; clear orange-scarlet flowers; exceedingly handsome. 1 ft. 9d.

ORIENTALE " SALMON QUEEN "-Of a charming soft salmon-scarlet shade. 2 ft 9d.

PAPAVER ORIENTALE "SEMI-PLENA"—Rich crimson flowers. 1s.

PENTSTEMONS (Florist's varieties)—See Collection.

PENTSTEMON BARBATUS COC-CINEUS-A desirable plant. 3 ft. 6d.

PENTSTEMON HETEROPHYLLUS-Lovely sky-blue flowers, at times tinted rose; dwarf. 1s.

PENTSTEMON OVATUS—A good horder plant quite hardy, and a fine blue. 3 ft. 9d.

PENTSTEMON PUBESCENS - Lilac, with white mouth; a good border kind. I ft 9d. PENTSTEMON SCOULERI — Flowers large and inflated, of a lovely bluish-lilac; perfectly hardy, easily grown. 2 ft. 1s 64.

PHALARIS ARUNDINACEA FOL. VAR.

(Lady Grass)—Pretty. 6d. PHLOX AMŒNA. 1s.

PHLOX CANADENSIS - Pale blne;

slender-growing species. 1 ft. 9d.

PHLOX DOUGLASI, var. DIFFUSUS-Dense-spreading tufts, delicate pink flowers: from the Cascades of Northern United States (gritty and very sandy well-drained soil). 2s. 6d.

PHLOX NELSONI - Snow white flowers.

6d.

PHLOX OVATA-Rosy purple flowers, late in spring; one of the best hardy plants. 1 ft. 9d. PHLOX SETACEA sym. FRONDOSA—Bright rose-coloured flowers. ½ ft. 6d.
PHLOX SETACEA "ALDBOROUGH-ENSIS"—Pale lilac; very distinct. 9d.

PHLOX SETACEA ATROPURPUREA-Purplish rose-coloured flowers, crimson eye;

6d. each; 4s. per doz.
PHLOX SETACEA "BRIDE"—Pure

white, red centres; very conspicuous. 9d. PHLOX SETACEA "COMPACTA"-

Lovely rosc; effective. 9d. PHLOX SETACEA "FAIRY"—Pure white,

with a red eye; free. 9d.

PHLOX SETACEA "GRANDIFLORA"-

Rich mauve; distinct. 9d.
PHLOX SETACEA "MODEL" — Bright

rosy carmine, neat habit; effective. 9d. PHLOX SETACEA "PALLIDA" — Rose,

shaded lilac; flowers large. 9d.
PHLOX SETACEA "PERFECTION"-

White, purple centrc. 9d.
PHLOX SETACEA "VIVID"—Fiery rosc colour, rich carmine centre; the hrightest of the group. 1s.

PHLOX VERNA-Deep red. 1/2 ft. 5s. per

PHLOXES (Florist's varleties), Early and

Late Flowering-See Collection. PHORMIUM TENAX (New Zealand Flax) -Perfectly hardy; a splendid green foliage plant. 1s. 6d. and 2s. 6d.

PHORMIUM TENAX VARIEGATUM -Alternate bands of green and golden yellow, running the entire length of the leaf; one of the finest foliage plants; hardy in warm, sheltered positions. 2s. 6d and 5s. each.

PHORMIUM TENAX ATROPURPUREA -Leaves narrower and more erect; purple

foliage. 3s. 6d.

PHYGELIUS CAPENSIS-Very effective spikes of long tuhular flowers of a rich vermilion; yellow throat. 3 to 4 ft 9d.

PHYSALIS ALKEKENGI (Winter Cherry) -White flowers, succeeded by nnmerous trans parent red berries. 1 ft. 6d.

PHYSOSTEGIA VIRGINIANA-A handsome plant; rosy-lilac. 2 ft. 6d.

PITYROSPERMA ACERINUM-Spikes of white flowers, 3 ft. in height, late in autumn. 9d.

PLUMBAGO LARPENTÆ-A pretty ornament for rockwork, hanks, &c. 9d. each; 7s. 6d. per doz.

PODOPHYLLUM EMODI - Large green foliage, flowers creamy white, succeeded by bright scarlet fruit; thrives best in shade. 1 ft.

PODOPHYLLUM PELTATUM—Beantiful wrinkled leaves, small white flowers; shady position. ½ ft. 1s.

POLEMONIUM CŒRULEUM (Jacob's Ladder)-Elegant fern-like foliage. 6d. POLÉMONIUM CŒRULEUM ALBUM.

6d.POLEMONIUM HIMALAICUM-A noble plant for the mixed border, strong grower; should be in every collection. 2 ft. 1s.

POLEMONIUM REPTANS—Valuable blue spring flowering plant. 1 ft. 9d.

POLEMONIUM RICHARDSONI, syn. HUMILE-A beautiful hardy perennial; lovely sky-blue flowers. 1½ ft. 9d.
POLYGONUM BRUNONIS — Useful for

its pink flowers and coloured foliage; dwarf.

1 ft. 6d.

POLYGONUM COMPACTUM - White flowers, much hranched stems. 2 ft. 9d.

POLYGONUM SACHALIENSE - Tall stout stems and very large foliage; a plant of suh-tropical appearance, very useful for the margins of waters, shrubbery, horders, &c. 1s.

POLYGONUM VACCINIFOLIUM-Pink flowers, late in autumn; dwarf and pretty. } ft.

9d.

POTENTILLAS (Double)—See Collection. POTENTILLA FORMOSA-Bright cherryred flowers in profusion. 1 ft. 6d.

PRIMULA-See Collection.

PYRETHRUMS, DOUBLE AND SINGLE -See Collection.

PYRETHRUM ULIGINOSUM, syn. SEROTINUM - Producing large pure white flowers; a fine plant for autumn decoration; useful for cutting. 5 ft. 6d.

PULMONARIA AZUREA—Early flowering; fine clear blue. 1 ft. 9d.
PULMONARIA SACHARATA—Prettily

marbled leaves, red and violet tubular flowers.

RANUNCULUS ACONITIFOLIUS PLE-NUS (Fair Maids of France)-Flowers pure white, very double; grows freely in any sitnation. 1 ft.

RANUNCULUS ACRIS FL. PL. (The Old Bachelor's Button) - Double golden yellow flowers; will grow in any damp shady corner.

3 ft. 6d.

RANUNCULUS AMPLEXICAULIS-Large white flowers; very distinct. 1 ft. 9d.

RANUNCULUS MONTANUS-A pretty Alpine plant; flowers yellow. 9d.

RANUNCULUS RUTÆFOLIUS-White flowers, dark yellow centre. 3 ft. 1s. -

RANUNCULUS SPECIOSUS FL. PL.-Immense double golden yellow flowers, produced in abundauce. 1 ft. - 1s.

RAMONDIA PYRENAICA—Flowers of a

pretty violet-rurple, with a bright orange eye; easily grown, perfectly hardy, shady-damp spot.

RHEUM EMODI-A gigantic leaved plant. 4 ft. 1s.

RHEUM PALMATUM-Large and handsome foliage, fine for isolating on lawns. 5 ft. 1s.

ROCKETS — Hesperis matronalis alba plena and purpurea plena-They are as showy and as beantiful as any Stock, quite hardy, and bloom twice the length of time, and for cut flowers are amongst some of the hest hardy plants. 2 ft. 6d. each; 4s. doz.

RUDBECKIA CALIFORNICA—Light yellow flowers in autnmn; very distinct. 5 ft. RUDBECKIA LACINIATA-Yellow Mar-

gueritc-like flowers. 3½ ft. 6d.
RUDBECKIA NEUMANII—Showy golden yellow and black flowers; very nseful for cutting purposes. 2 ft. 6d. each; 4s. per doz. RUDBECKIA SUB-TOMENTOSA—Com-

pact heads of clear yellow flowers, with a distinct dark centre; very free, useful for cutting. 3 to 4 ft. 9d.

SALVIA OFFICINALIS AUREA. 6d.

SALVIAS-See Collection.

SANTOLINA INCANA—Neat, dwarf, and compact. 1 ft. 6d. cach; 4s. per doz,

SAPONARIA OCYMOIDES - Trailing perennial; bright rose-coloured flowers; invaluable for covering large stones.

ft. 6d.
SAPONARIA OCYMOIDES, var. SPLEN-

DIDISSIMA-Flowers large, circular, and deep resy crimson in colonr; fine for rockwork. 1s. SAXIFRAGAS-In variety. (See Collection.)

SCHIZOSTYLIS COCCINEA - A handsome semi-bnlbous plant, the flowers, which are produced late in the autumn, are of a bright erimson; good for cutting purposes. 11 to 2 ft. 6d. each; 4s. per doz.; 30s. per 100.

SCABIOSA CAUCASICA—Beautiful heads of lilac-blne flowers. 9d.

SCUTELLARIA MACRANTHA-A showy dwarf horder plant, flowers blue. 9d.

SEDUMS-See Collection.

SEMPERVIVUMS—See Collection. ()

SENECIO DORONICUM-Large golden yellow flowers; fine for critting. 11 to 21 ft. 6d.

SENECIO PULCHER - An exceedingly vigorons hahit, and perfectly hardy; brilliant purplish crimson flowers, with a golden yellow disc, of a good form and substance. 2 to 3 ft. 9d.

SHAMROCK-The true variety from Ireland. 6d.

SIDALCEA CANDIDA - Long spikes of white flowers. $2\frac{1}{2}$ ft. 6d.

SIDALCEA MALVÆFLORA-Useful for cutting. 2 ft. .6d. each; 5s. per doz.

SILENE ACAULIS-A dwarf Alpine herb; pink flowers. 9d.

SILENE ACAULIS ALBA—A pretty rock plant; pure white flowers. 9d.

SILENE ALPESTRIS-A charming evergreen rock or border plant, glossy white flowers; fine for massing. 6d. each; 5s. per doz.

SILENE MARITIMA FL. PL.—Prostrate tufts of glaucons foliage, scarcely an inch in height, bearing double flowers as large as the old "Double White Pink." 3/4 ft. 9d.

SILENE SCHAFTÆ-A neat trailing autumn species, rosy purple flowers; fine for massing. ½ ft. 9d.

SISYRINCHIUM GRANDIFLORUM —

Rich purple bells in February. 3 ft. 9d. SISYRINCHIUM GRANDIFLORUM ALBUM-Pure white flowers. Both of these are amongst the elite of spring flowering plants. 3 ft.

SMILACINA BIFOLIA-Pure white, flowers like a miniature Lily of the Valley. 1 ft. 9d.

SOLDANELLA ALPINA-Forms a mass of dark green leathery foliage; bell-shaped flowers on slender stems of a bluish purple, beautifully fringed. $\frac{1}{2}$ ft. 9d. and 1s.

SOLDANELLA MINIMA - Forming a deuse tuft, pretty fringed bluish flowers. 1s. 6d. SOLDANELLA MONTANA—Larger than Alpina, but much finer flowers. $\frac{1}{4}$ ft. 1s.

SOLIDAGO VIRGAUREA (Golden Rod) -A very useful autumn blooming plant. 6d. SOLIDAGO VIRGAUREA NANA-Neat and effective, bright golden yellow flowers.

 $1\frac{1}{2}$ ft. 9d.

SPIGELIA MARILANDICA-Crimson and yellow flowers, of much interest and beauty. damp shady position in peaty soils suits it well. 1 ft. 1s.

SPIRÆA ARUNCUS-A useful border or pot plant, feathery panicles, composed of in-numerable small white flowers. 3-4 ft. 9d. and 1s.

SPIRÆA ASTILBOIDES-A fine species; elegant dense plumes of pure white; well adapted for the border or for forcing. 2-21 ft. 1s. and 1s. 6d.

CRISPIFOLIA (Bullata) — A SPIRÆA charming rock or border plant, crisp leaved, and carmine budded. 1 ft. 1's.

SPIRÆA GIGANTEA (Kamtschatica)-Feathery creamy-white plumes, large palmate leaves. 8-10 ft. 1s. 6d.

SPIRÆA JAPONICA—As useful for the border as it is for pots. 2 ft. 6d.

SPIRÆA JAPONICA AUREA RECTI-CULATA — Handsome varicgated foliage; a useful pot or border plant. 1s.

SPIRÆA JAPONICA COMPACTA—Dense plumes, double the size of the ordinary variety.

6d.

SPIRÆA PALMATA-Distinct and beantiful, palmate leaves, and strong bright red flower stems, surrounded by numerous hroad corymbs of beautiful deep crimson flowers. 23-3 ft. 6d. and 9d. SPIRÆA PALMATA ALBA — A most

charming plant; flowers pure white. 2 ft. 6d.

SPIRÆA PALMATA ELEGANS-A very distinct and pretty plant; soft rose. 2½-3 ft.

SPIRÆA VENUSTA-Lovely deep rosy carmine flowers; very useful for entting. 3-31 ft.

SPIRÆA ULMARIA FOLIA VARIE.

GATA-Very pretty. 2 ft. 6d.

SPIRÆA ULMARIA FL. PL. 2½ ft. 6d. SPIRÆA FILIPENDULA FLORE PLENO—Corymbs of double white flowers, with a slight creamy tinge. The pretty fern-like foliage is exceedingly attractive during the whole year, and is very useful for cutting. 1½ ft. Strong clumps, 1s.; small plants, 6d.
STATICE INCANA—Enormous heads of

flower, hlue, white, crimson, and purple. 1 ft.

STATICE LATIFOLIA (The Great Sea Lavender)—Forming an immense branching panicle 2 ft. aeross, composed of small blue flowers; nseful for cutting. 21 ft. 9d.

STATICE LIMONIUM—Dwarf, free flowering, deep blue. 1 ft. 9d.

STATICE GMELINI - Small dark blue

flowers; onc of the hest. 1 ft. 9d.

STENACTIS SPECIOSA - Large, showy, pale purple flowers with a yellow centre. 2 ft.

STIPA PENNATA-Very elegant grass. 6d. STOKESIA CYANEA-Light blue Centanrea-like flowers. 1 ft. 9d. and 1s. SYMPHYTUM BOHEMICUM—Reddish-

purple flowers; handsome. 1-11 ft. 9d.

SYMPHYTUM OFFICINALE ARGEN-TEUM VARIEGATUM - Large handsome foliage, highly ornamental. 2 ft. 9d.

SYMPHYTUM OFFICINALE AUREUM VARIEGATUM-Gold variegation. 2 ft. 9d. THALIOTRUM ADIANTIFOLIUM -Perfectly hardy; in delicacy of structure it is equal to the Adiantums or Maidenhair Fern. 1 ft.

THALICTRUM ANEMONOIDES-Pure white flowers, nearly an inch across, neat and dwarf; sandy peat. ½ ft. 9d.

THALICTRUM AQUILEGIFOLIUM—

AQUILEGIFOLIUM-

Cream coloured flowers. 3 ft. 6d.

THALICTRUM AQUILEGIFOLIUM RUBRUM -Flowers and foliage alike ornamental; fine for cutting. 3 ft. 1s.

THALICTRUM GLAUCUM-Deep green,

minute foliage. 2 ft. 6d.

THERMOPSIS MONTANA—Yellow pea-shaped flowers.. 2½ ft. 6d.

THYMUS LANUGINOSUS-Greyish colonred foliage. 6d. each; 4s. per doz.

MARGINATUS ELEGAN-THYMUS TISSIMUS-A compact and effective plant, the best of all the garden variegated Thymes. 6d. each; 4s. per doz.

ROTUNDIFOLIUS — Useful. THYMUS

6d.; 4s. per doz.

THYMUS SERPYLLUM ALBUM-Snowy white; one of the prettiest rock plants. § ft. 6d.

THYMUS SERPYLLUM, var. CINEUS-A variety of the Mountain Thyme, but with deeper and more hrilliant flowers,

forming sheets of rich crimson. \(\frac{1}{8}\) ft. 9d,

THYMUS VARIEGATUS—Each leaf is varicgated with silver, and for spring gardening;

a very beautiful plant. 6d.

TIARELLA CORDIFOLIA (Foum Flower) —White flowers like a small Spirea; very beautiful in pots, perfectly hardy. $\frac{3}{4}$ ft. 6d.

TRADESCANTIA VIRGINICA ALBA

MAJOR-The best white variety; a fine border

plant. 11 ft. 9d.

TRADESCANTIA VIRGINIOA RUBRA PLENA—A showy and highly decorative group of horder plants; free. 1½ ft. 6d. to 9d.

TRILLIUM ERECTUM-Brownish purple. $\frac{3}{4}$ ft. 1s.

TRILLIUM GRANDIFLORUM - Pare white, the largest of this group; one of the best of our spring flowers. $\frac{3}{4}$ ft. 1s.

TRILLIUM GRANDIFLORUM MAJOR -A splendid giant variety of an already bean-

tiful plant. 3 ft. 2s.

TRITOMA (Kniphofia)-Torch Lily, Red Hot Poker

TRITOMA BURCHELLI-Early flowering, dark red passing to orange, large spikes. 23-3 ft.

TRITOMA CAULESCENS — Yucca-like lcaves and growth, reddish orange flowers; effective. 4 ft. 2s. 6d.

TRITOMA CORALLINA-Dwarf; coralred, shading into orange-red, 2 ft. 1s.

TRITOMA H. CANNELL-Immense long spikes, of a bright coral-red. 4 ft. 3s. 6d.

TRITOMA MACOWANII—A dwarf species, rich golden orange, passing to a bright orangered. 2\frac{1}{2} ft. 1s.

TRITOMA NOBILIS—Fine spikes of scarlet and yellow. 5-6 ft. 2s. 6d.

TRITOMA PFITZERI-A splendid rich erimson; a really first-class variety. 2-3 ft.

TRITOMA ROOPERI - Large spikes of bright scarlet-orange; robust and free flowering.

2½-3 ft. 1s.
TRITOMA SAUNDERSI—Deep red, tipped yellow; beantiful foliage, and noble spikes. 4-5 ft. 1s. 6d.

TRITOMA UVARIA GLAUCESCENS-Large spikes of flowers of a bright orange and searlet colonr. 23-3 ft. 1s.

TRITOMA UVARIA GRANDIFLORA-Deep erimson and orange flowers, the last in bloom. 4 ft. 1s.

TROLLIUS ASIATICUS-Orange. 2ft. 9d. TROLLIUS EUROPÆUS - Well known. 1 ft. 6d. each; 5s. per doz.

TROLLIUS GIBSONI-Superior to Japonicus. 1s. 6d.

TROLLIUS GIGANTEUS—Lemon coloured. 2 ft. 9d.
TROLLIUS LODDIGESIANUS—A fine

form of Europæus; pale yellow. 21 ft. 9d. TROLLIUS NAPELLIFOLIUS - Yellow flowers. 2 ft. 1s.

TROPÆOLUMS-See Collection.

TUSSILAGO FRAGRANS (Winter Heliotrope)-Resembles in appearance and odour the Heliotrope, and will continue blooming as long as the frost holds off. 1 ft. 6d.

TUSSILAGO FARFARA VARIEGATA-

Pretty variegated foliage. 3 ft 9d.

VALERIANA PHU AUREA — A strong growing border plant. 6d. each; 4s. per doz.
VANCOUVERIA HEXANDRA-Plumes

of pretty, erect, snow-white flowers; useful for

rockwork. 1 ft. 1s.

VERATRUM ALBUM—One of the finest bardy foliage plants. 2 ft. 9d

VERATRUM NIGRUM— A noble plant ; very distinct: blackish-purple flowers. 3-4 ft. 1s.

VERBASCUM CHAIXI (Orientale) bold stately perennial; yellow flowers, with a purple centre; very effective as single specimens in the sbrubbery or mixed borders. 3 ft. 9d.

22

22

VERONICA AMETHYSTINA—One of the very best of the taller growing species; clear blue. 11 ft. Strong elumps, 6d. each; 4s. per doz.

VERONICA INCANA-Grey or silvery foliage. 13 ft. 6d. each; 4s. per doz.

VERONICA GENTIANOIDES - Slaty blue; very distinct. 1 ft. 6d.
VERONICA GENTIANOIDES

ELEGANTISSIMA-6d. each; 4s. per doz. VERONICA GUTHREANA-Deep blne;

very dwarf. 1s. VERONICA LONGIFOLIA VAR. SUB-SESSILIS-Dense erect spikes, of a deep rieb blue $1\frac{1}{2}$ ft. 6d. each; 4s. per doz.

VERONICA MARITIMA ALBA — A very distinct and free-flowering white variety. 6d. VERONICA PECTINATA-A pretty trail-

ing kind. 6d.
VERONICA PROSTRATA — Dark green foliage, in compact tufts, and numerous spikes of deep blue flowers. 6d.

VERONICA REPENS-Dense close growing creeper. 6d.

VERONICA RUPESTRIS - One of the finest of rock plants. 6d.

VERONICA SPICATA - Long elegant spikes of the richest blue. 6d.

VERONICA SPICATA ROSEA-A neat and nseful plant for mixed border, bearing pyramidal spikes of light rose coloured flowers. 6d.

VERONICA PULCHELLA FOL. VAR.-

VERBASCUM OLYMPICUM - Flower spikes from 6 to 8 feet in beight, clear yellow flowers; large woolly leaves. 1s.

VERBASCUM PHŒNICEUM-Very effective and free growing; purple flowers. 2 ft. 9d. VICIA PYRENAICA—Dense dwarf tangled

stem, large crimson pea-shaped flowers. 1 ft. 1s. VINCA MINOR AUREA MARGINATA -A pretty variegated Periwinkle. 6d.

VINCA-Single blue. 6d.

VINCA—Donble. 6d.

VINCA MAJOR ELEGANTISSIMA --Useful for large rockwork. 6d. each; 4s. per doz. VIOLAS, TRICOLOR and ODORATA-For full list, see Collection.

WALDSTEINIA TRIFOLIA - A pretty rock plant; golden yellow flowers. 1 ft. 9d.

ZAUSCHNERIA CALIFORNICA-One of the best autumn plants. 1 ft. 1s.

ZAUSCHNERIA CALIFORNICA SPLENDENS - Flowers intense vermilion. 1 ft. 9d.

Collections of 100 useful Border Plants, flowering at various seasons, 30s. and 50s.

LINARÆFOLIUS-Lavender-blue, very floriferons. 2-3 ft. 1s.

LONGIFOLIUS VAR. FORMOSUS— A dense bush with rose-coloured flowers, habit neat and dwarf; very distinct. 2 ft. 9d.

NOVÆ-ANGLIÆ—Large purplish blne flowers. 3-4 ft. 9d.

NOVÆ-ANGLIÆ ROSEA — Flowers purplish red; very fine. 4-5 ft. 9d.

NOVI BELGI-In variety. 9d, and 1s. 6d.

POLYPHYLLUS—White flowers, very pure, flowers in August. 4 ft. 9d.

PTARMICOIDES—Deuse heads of milk-white blossoms. 1-14 ft. 9d.

PULCHERRIMUS -Much branched panieles of whitisb fringed flowers. 5 ft.

SALSUGINOSA — Bluish white. $1\frac{1}{2}$ ft. 9d.

SHORTII — Small azure blue flowers, leaves cordate. 1½-2 ft. 9d.

SPECTABILIS—Very pretty, bright violet flowers; neat habit. 1 ft. 9d.

STELLATUS—Flowers blue, yellow eye; plant very dwarf and compact; useful for front row of the border. \(\frac{1}{2} - \frac{3}{4} \) ft. \(\frac{7}{2} \) 9d.

TRINERVIS—White, with purplish and yellow dise. 3 ft. 1s.

TURBINELLUS-Manve, very free. 3 ft. 1s. 6d.

VERSICOLOR—White, changing to purple, very floriferous. 5-6 ft. 9d.

FEW SELECT HARDY AQUATICS.

Those marked * may be grown in the greenhouse.

ACORUS CALAMUS-Long green foliage, somewhat resembling an Iris. 6d.

ACORUS GRAMINEUS FOL VAR .-Variegated foliage, useful for margins of lakes or streams. 9d.

ALISMA PLANTAGO (Water Plantain)— Perfectly hardy, producing rosy white blooms from June to September. 6d.

*APONOGETON DISTACHYON (Water Hawthorn)—A beautiful plant; white flowers having the scent of May blossom. ls.

BUTOMUS UMBELLATUS (Flowering Rush)-Large umbels of pink flowers. Is.

HOTTONIA PALUSTRIS (Water Violet)-Pale blue flowers; beautiful. 6d.

HYDROCHARIS MORSUS RANÆ—A pretty and scarce native plant; will succeed best in stagnant pools. 9d.

*LIMNOCHARIS HUMBOLDTI—Yellow,

deep orange centre; most charming. 1s.
MENYANTHES TRIFOLIATA — White, sweet scented flowers. 9d.

MYOSOTIS PALUSTRIS (The Water Forget-me-Not)-Flowers blue, and continues in bloom throughout the summer. 6d.

NUPHAR ADVENA (Striped Water Lily) -Very beautiful. 2s. 6d. to 5s.

NUPHAR LUTEUM (Yellow Water Lily)

-A well-known native plant. 1s. to 3s. 6d.
NUPHAR PUMILUM, syn. N. KALMIANA (The Small Water Lily)—Yellow; a

pretty little plant for small basins. 1s. 6d.

NYMPHÆA ALBA (White Water Lily)-

NYMPHÆA MARLIACEA CHROMA-TELLA—Canary yellow, very double, foliage large, spotted reddish brown. 6s.

NYMPHÆA ODORATA (Sweet-scented Water Lily)-White, very fragrant and beautiful. 1s. 6d.

ROSEA - Splendid rose-NYMPHÆA coloured; a most levely hardy aquatic. 5s.

PONTEDERIA CORDATA (Pickrell) — Perfectly hardy, producing fine tufts of blue flowers from June to August. 1s. 6d.

SAGITTARIA JAPONICA, FL. PL.-A large flowering form, pure white, and very double. 2s. 6d.

SAGITTARIA SAGITTIFOLIA (Arrowhead)—A bold plant; rosy white flowers 9d. STRATIOTES ALOIDES (Water Soldier)

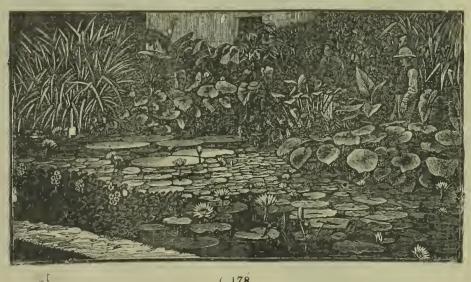

-A singular and very handsome plant, with white flowers; does not require any soil, but floats perfectly detached. 9d. and Is.

TYPHA ANGUSTIFOLIA-Narrow-leaved Cat's Tail. 1s.

TYPHA MINIMA-A neat little plant for small lakes. 2s.

*VILLARSIA NYMPHÆOIDES, LIMNANTHEMUM NYMPHÆOIDES — Another floating plant, with golden yellow flowers. 9d.

VILLARSIA RENIFORMIS, syn. MENY-ANTHES EXALTATA - Strong growing; flowers yellow; distinct and pretty.

Coloured-leaved Plants for Effective Bedding.

HESE small-growing pretty little plants are rather tender, and require to be treated the same as the Coleus, well hardened off, and planted in a warm sheltered situation. They are admired by every one, and no carpet beds are complete without them.

*SAINTPAULIA IONANTHA—One of the most charming stove plants introduced of late years. It helongs to the family of the Gesneriaceas, and was found on the Usamhara Mountains in East Africa. The tiny plants form a flat rosette of deep green hairy leaves, which are similar in form to those of the Gloxinia, hut smaller in all parts, and most reddish hrown anderneath. The flower stems, 2 to 4 inches in length, are crowned by heantiful deep blue flowers, hearing a closc resemblance in form as well as in colonr to those of the sweet-scented violet; stamens deep golden-yellow. Will bloom continually throughout the year. The seed is extremely fine, and requires similar treatment to that of the Streptccarpus. Per pkt., 1s. 6d.; plants, 1s. 6d. each.

SEDUM AZOIDEUM VARIEGATUM— Ornamental plant. 6d.,

JAPONICUM, VAR.OF "FABARIUM," FOL. VAR .- Each leaf marked with white.

SIEBOLDI-Of a thick substance, with wax-like blotch in the centre of each leaf. 9d.

SIBTHORPIA EUROPÆA (Cornish Moneywort) - A splendid little trailing plant for the rockery in conscrvatorics; foliage small. 6d.

ODORATUM - Foliage beautifully scented. 6d. each.

EUROPÆA ARGENTEA MARGIN-ATA-Very elegant. 1s. each.

STATICE HALFORDII - A superb blue variety, useful for the decoration of the greenhouse. 2s. 6d. aud 3s. 6d. each. IMBRICATA-2s. 6d. and 3s. 6d. each.

STREPTOCARPUS REXII. 1s. 6d, each.

HYBRIDS... We have a fine stock of seedlings of various shades, plants that will be sure to bloom this seasou. 1s. 6d. each; 15s. per

*STROBILANTHES DYERIANUS -Brilliant and exquisite colouring. It is of easy growth, and most useful as a decorative plant. 1 .. each.

*TILLANDSIA (VRIESIA) SPLENDENS.

*TABERNÆMONTANACORONARIAFL. PL.-Resembling the Gardenia in growth and

fragrance, pure white double flowers. 2s. 6d.
*TRADESCANTIA ZEBRINA—Easy growth, dark foliage, and makes a very effective contrast with brighter colours. 6d. each; 4s. per doz.

*ALBO VITTATA-Prettily marked, of a silvery white; very clear. 1s. *MULTICOLOR-Most beautifully varie-

gated with purple, lake, and white. 9d.

STOVE AND GREENHOUSE CLIMBERS.

Those marked thus * are for the Stove.

ABUTILONS—See Collection.

ACACIA DEALBATA. 2s. 6d. LONGIFOLIA MAGNIFICA. 3s. 6d.

VERTICILLATA. 2s. 6d.

*ALLAMANDA NOBILIS. 3s. 6d.,

*GRANDIFLORA. 5s. *HENDERSONII. 2s. 6d.

*SCHOTTII. 2s. 6d.

*WARDLEANA. 2s. 6d. WILLIAMSII. 3s. 6d. cach.

*ARISTOLOCHIA GIGAS. 2s. 6d.

GIGAS VAR. STURTEVANTII-A most extraordinary plant. It blooms with wonderful freedom and always proves a sensational object of the greatest interest. Awarded a First-Class Certificate. 5s.

*ORNITHOCEPHALA 5s. ASPARAGUS DECUMBENS. 2s. 6d.

PLUMOSUS. 1s. 6d. to 2s. *PLUMOSUS NANUS. 1s. 6d. and

*TENUISSIMUS. *BIGNONIA VENUSTA. 3s. 6d.

*CAPENSIS.

*CAPREOLATA.

2s.6d. each. *GRANDIFLORA.

*SPECIOSA. BOUGAINVILLEA GLABRA (Sanders' variety). 2s. 6d.

*GLABRA. 2s. 6d. *SPECIOSA. 2s. 6d. SPLENDENS. 2s. 6d.

*CAMPSIDIUM FILICIFOLIUM. 2s. 6d.

*CISSUS AMAZONICA. 3s. 6d. *DISCOLOR. 1s. 6d.

CLEMATIS COCCINEA. See Hardy Climbers. CRISPA. INDIVISA LOBATA. 2s. 6d.

*CLERODENDRON BALFOURII. 2s. 6d. *SPLENDENS SPECIOSISSIMA. 3s. 6d.

COBÆA SCANDENS-Violetivy. 1s. 6d. SCANDENS VARIEGATA. 1s. 6d. and 2s. 6d.

CONVOLVULUS MAURITANICUS. 6d. *CORYNOSTYLIS HYBANTHUS ALBI FLORUS. ös.

*DIPLADENIA AMABILIS. 5s.

*BOLIVIENSIS. 3s. 6d.

*BREARLEYANA. 3s. 6d.

*INSIGNIS. 3s. 6d. *ORNATA. 5s.

*PROFUSA. 5s. *SPLENDENS. 5s.

*FICUS BARBATUS. 2s. 6d. MINIMUM. 1s. and 1s. 6d. *REPENS. 1s. and 1s. 6d.

HABROTHAMNUS (Cestrum)-AURANTIACUS. 1s. 6d. ELEGANS. 1s. 6d.

FASCICULATUS. 1s. 6d. *HOYA PELLA. 1s. 6d. *CARNOSA. 1s. 6d.

GLOBULOSA. 1s. 6d. *IMPERIALIS. 2s. 6d.

*JASMINUM GRACILLIMUM. 1s. 6d.

GRANDIFLORUM. 1s. 6d. KENNEDYA—Of sorts, 2s. 6d., 3s. 6d., & 5s. LAPAGERIA ALBA 7s. 6d. to 21s. each.

ROSEA. 3s. 6d. and 5s. *MANETTIA BICOLOR. 1s. 6d.

MYRSIPHYLLUM ASPARAGOIDES (Smilax). 1s.

*PASSIFLORA CARDINALIS. 2s. 6d. CONSTANCE ELLIOTT. 1s. aud 1s. 6d.

PASSIFLORA—continued. HYBRIDA FLORIBUNDA. 2s. 6d. *PRINCEPS. 2s. 6d. COMTE DE NESSELRODE. 1s. 6d. IMPÉRATRICE EUGÉNIE. 1s. 6d. EYNSFORD GEM. 2s. 6d. each. MUNROII. 1s. 6d. NEWMANNI. 1s 6d. ALATA. 2s. 6d. VITIFOLIA, 2s. *PLUMBAGO CAPENSIS. 1s. RHYNCHOSPERMUM (TRACHELOS-PERMUM) JASMINOIDES. 1s. 6d.

*SMILAX MACROPHYLLA VARIEGATA 2s. 6d. SOLANUM JASMINOIDES. 1s. 6d. and 2s. 6d. *STEPHANOTIS FLORIBUNDA, "EL-VASTON" VAR. 2s. 6d. TACSONIA EXONIENSIS. 1s. 6d. VAN VOLXEMII. 1s. 6d. *TECOMA JASMINOIDES. 1s. 6d. JASMINOIDES GRANDIFLORA.

*THUNBERGIA LAURIFOLIA. 2s. 6d. TROPÆOLUMS. See Collection.

The following three are most beautiful little trailing plants; for a warm greenhouse or stove nothing exceeds their beauty. The two latter varieties ready in March.

*TORENIA ASIATICA - The strongest grower, producing innumerable small Pansy-like flowers of a striking purple and white. 1s.

*TORENIA FOURNIERI-Very similar, but | yellow. 1s. 6d.

with a more upright closer growth, and is one of our most useful flowering plants. 1s.

*TORENIA BAILLONI—Same in growth as preceding, differing only in flower, being of a bright

PLANTS FOR THE DECORATION OF THE CONSERVATORY OR SUB-TROPICAL GARDENING.

EITHER IN GROUPS OR AS SINGLE SPECIMENS.

ARALIA (FATSIA) JAPONICA (Sieboldi). 1s. 6d. and 2s. 6d. (FATSIA) **JAPONICA** (Sieboldi) variegata. 2s. 6d. GRACILLIMUM. 5s.

CHABRIERI, syn. ELVEODENDRON CHABRIERI-A most elegant table plant. 2s. 6d. each. VEITCHII. 5s.

DRACÆNA AUSTRALIS. 2s. 6d. to 7s. 6d.; fine plants, 10s. 6d. to 15s.

A. F. Angus, Esq., Bank of Montreal, Winnipeg, Canada,
17th January, 1897.

I was charmed with the plants you sent me last year. They came as a perfect revelation to all the good people here. They were truly gorgeous, and I was exceedingly well satisfied with them.

The members of this useful genus of dwarf shrnb-like plants have been so far too much neglected, when their beauty and general value for the decoration of hot dry positions where not many things will thrive are taken into consideration. The only wonder is that they are not grown by everybody.

BULBOUS PLANTS. (IN POTS,)

AMARYLLIS AULICA — Very pretty. Useful for the greenhouse. 3s. 6d. to 5s.

AMARYLLIS FORMOSISSIMUS (Jaoobæa Lily)-Crimson. 9d. each; 7s. 6d. per doz.

ARUM SANCTUM (The Black Calla, Arum Palestinum, or Solomon's Lily) — These magnificent flowers often measure more than a foot in length, by 5 to 8 inches in width; the inside colonr is of the richest velvety purplishblack imaginable, while the outside is of a pleasing green. 2s. 6d.

BABIANAS-A collection of 16 of the finest varieties. Per pot of 3 hulbs, 9d.

BEGONIAS-The finest collection in enltivation; also a great quantity of seedlings bloomed and unbloomed. See Collection.

CALOCHORTI (Butterfly and Star Tulips) -A fine collection. 1s. to 1s. 6d.

CHIONODOXA LUCILÆ - Pretty blue flowers. 6s. per doz.

CROCOSMA AUREA - Bright orange in autumn; extra fine. Per pot, several bulbs, 9d. EUCHARIS AMAZONICA—One of the best white-flowering stove plants, 1s. to 2s. per hulb; flowering plants, 10s. 6d., 15s., and 21s. each.

CANDIDA — 1s., 1s. 6d., and 2s. 6d. MASTERII-2s. 6d.

FREESIA REFRACTA ALBA-The fragrance of these charming flowers is most agreeable; pure white; a gem for foreing. Per pot of 3 bulhs, 2x.

LEITCHLINI-Per pot of 3 bulbs. 1s. 6d. HABRANTHUS ADVENUS COCCINEUS -Large umbels of deep purplish red flowers. 1s.

FULGENS - Deep blood-crimson;

very large flowers. 2s. 6d. PRATENSIS—Brilliant scarlet. 2s. 6d. HYACINTHUS (GALTONIA) CANDI-CANS-Hardy. 6d. each; 4s. per doz.

IRIS—See Collection. ISMENE CALATHINA (Sea Daffodil)-White trnmpet-shaped flowers; very fragrant. 9d.

UNDULATA—Pure white, beautifully fringed. 9d.

IXIA-A collection of 30 of the finest. Per pot of 3 bulhs. 6d.

LACHENALIA TRICOLOR. Per pot, 5 hulbs in each, 2s.

LILIES-See Collection.

MONTBRETIA POTTSI - Orange-scarlet; tnbular flowers, borne on one-sided spikes; three bulhs in each pot. 9d.

CROCOSMIÆFLORA - Orange-red; exceedingly free and hardy. 1s.

CROCOSMIÆFLORA ELEGANS— Bright yellow flowers, exterior ver-milion and yellow. 1s. 6d. pot.

For other varieties, see Bulb List. NARCISSUS-A fine collection of border

varieties, in pots; price on application. CORBULARIA MONOPHYLLUS — Silver white; early bloomer. Per pot of 3 bulbs, 1s.

JUNCIFOLIUS-Dwarf species; rich yellow flowers; neat. 6d.

TRIANDRUS (Cyclamen Daffodil)-Very rare and heautiful. Per pot, 3

bulbs in each, 2s. 6d.
ORNITHOGALUM ARABICUM — Large heads of white flowers, with deep black centre. 6d.

AUREUM-A miniature species, with golden-yellow flowers; rare. Per pot containing several bulhs, 2s. 6d.

OXALIS-A collection of the most useful and effective varieties. Per pot of 5 roots, 1s. PANCRATIUM CARRIBEUM-The hest of all the section. 1s. 6d.

ILLYRICUM - Large white flowers; fragrant. 1s.

MARITIMUM-White; fragrant; fine pot plant. 6d. each.

PARVIFLORUM—Large white flowers; fragrant and showy. 9d.

RICHARDIA ÆTHIOPICA (Calla), the well-known Arum Lily. 9d., 1s., and

ALBO-MACULATA-Leaves beautifully spotted. 9d.

HASTATA-Yellow, with dark centre. 2s. 6d.

SPARAXIS-A collection of 12 of the finest varieties. Per pot of 3 bulbs, 6d. TIGRIDIA-See Collection.

TRICHONEMA SPECIOSUM-Large carmine flowers, of a satiny texture, issuing from tufts of slender grassy foliage. Per por of 3 bulbs, 1s.

SPECIOSUM ALBUM - Pure white effective. 9d. each.

TRITONIA-A collection of 10 of the finest varieties. Per pot of 3 bulbs, 9d. TROPÆOLUMS-See Collection.

Rev. F. J. PRIDEAUX, Lensden Vicarage, Ashburton,

11th November, 1896.

I am more than pleased with everything I have had from your establishment.

TUBEROSE (POLIANTHES).

CULTURAL DIRECTIONS.—Pot into 4's, place in 65 degrees temperature, hottom heat; keep moist until roots have made a growth, then increase temperature from 70 degrees to 80 degrees. When full of roots, re-pot into 6-inch pots, and place near the glass; after bloom spike appears, place them in a cooler house; train up under the glass. They must be well syringed, and amply supplied with liquid manure.

AMERICAN (Double)—For choice buttonhole bouquets, &e., no other flowers are of more value at all seasons than the Tubcrose, and sbould be used in succession in every forcing-house during the winter. 2s. per doz.

AFRICAN (Double)—Direct from the Cape; have bloomed beautifully with us all the snmmer, and can highly recommend them.

Started in pots, 4s. per dozen. Fine dry Bulbs, 2s. 6d. dozen VALLOTA PURPUREA (Great Scarboro' Lily)—Splendid Amaryllis-like flower; heautiful summer flowering plant. 1s. to 1s. 6d.

WATSONIA—Long spikes of flowers, resembling *Gladioli*. A collection of 7 very fine varieties, 6d. each.

ZEPHYRANTHES CANDIDA (Lily Daffodil)—Large, silver-white flowers. 1s.

CARINATA—The finest of the genus, deep rose colour. 1s.

TREATI—White slightly tinged with rose 1s.

POLYANTHUS. PRIMROSES, DOUBLE PRIMROSES, SINGLE PYRETHRUM, GOLDEN. SILENE PENDULA. SILENE COMPACTA VIOLAS, in vars.

Prices for large quautities on application. See description of the above in their respective classes.

COLLECTION OF BEDDING PLANTS FOR THE DECORATION OF THE FLOWER GARDEN ON AND AFTER 20th MAY.

For the convenience of persons who have not the time to make their own selections, we beg to say, in the first place, our whole attention is devoted to this branch of Horticulture; and as we have all kinds of new and best bedding plants as soon as they are out, and propagate them in large quantities, and only the very best older varieties are allowed to remain in our nursery, we have good reason for saying they will include plants that cannot be equalled by other florists.

Best Collection, comprising 250 Plants, left to our selection, for 50s.; half the quantity for 25s; quarter the quantity for 14s.

They will consist of Plants embodied in this Catalogue. Packing, 4s., 2s., and 1s. 6d., according to Collection.

N.B.—All kinds of bedding plants will be considerably lowered in price after the 1st of May. A List, and special arrangements for large quantities, on application.

PLANTS FOR THE DECORATION OF THE COLLECTION OF CONSERVATORY,

100 Showy Plants of our selection from this Catalogue for 35s.

If this Collection is shifted into larger pots as soon as received, and with the ordinary amount of attention, they will make a grand display through the season. They will be packed as closely as possible, so the cost of the carriage will be but trifling. At this cheap rate all orders must be accompanied with the amount. The Collections will be sure to give satisfaction.

GREENHOUSE DECORATION AND FOR CUT FLOWERS.

We have an almost unlimited supply of the following Flowering Plants to offer at the proper seasons, in pots full of flower, or coming on.

BOUVARDIAS-In great variety. 8s. to 15s. per doz.

BULBS-Dutch, in great variety. See

CALCEOLARIAS. 12s. to 18s. per doz. CARNATIONS, TREE—In variety. 12s.

to 18s. per doz. CINERARIAS. 6s. to 18s. per doz.

CYCLAMEN PERSICUM-In variety. 6s. to 18s. per doz.

DEUTZIAS. 9s. to 18s. per doz.

DIELYTRA. 12s. to 18s. per doz. GLOXINIAS. 12s. to 24s. per doz. LILY OF THE VALLEY (Convallaria)-

Strong; imported. 6s. to 18s. per doz. PELARGONIUMS-Forcing. 12s to 24s. per doz.

PINKS—Forcing, in variety. 6s. per doz. PRIMULA—Double white. 12s. to 24s. per doz.

PRIMULAS-Single varieties. 6s. to 12s. per doz.

ROSES-6 and 7-inch pots. 18s. to 30s. per doz.

ROSES, TEAS-6 and 7-inch pots. 36s., and 42s. per doz.

SOLANUMS-Full of berries. 12s, to 18s. per doz.

SOLOMON'S SEAL (Polygonatum)—Good strong erowns; useful for foreing. 4s. and 6s. per doz.

SPIRÆA JAPONICA. 9s. to 18s. per doz. ZONAL PELARGONIUMS - Fell flower. 12s., 18s., to 24s. per doz.

Our LILY OF THE VALLEY is quite equal to the engraving

HOW TO MANAGE PLANTS, ROOTED CUTTINGS, AND SEEDLINGS SENT BY POST.

HERE persons have the convenience and sufficient experience for nursing small plants, and enjoy seeing them grow, we strongly recommend their having them sent by post, as every care is taken to grow them in such a temperature, &c., that there is no risk about their doing well with a

small amount of ordinary care, if the appended instructions are carefully followed.

It must be remembered that plants are like young children; they must be carefully looked after, fed, clothed, and trained in the way they should go, and a little common sense exercised to ascertain their clothed, and trained in the way they should go, and a little common sense exercised to ascertain their requirements, and to guard against enemics. And should they be forgotten, and get with others of had character, it is surprising how quickly they will partake of the same habits and disease, and will soon die in sorrow and disgrace. A sweet-smelling hot-bed rather on the decline is preferable, with the heat at ahout 65 degrees. When you receive a box of rooted cuttings or plants, immerse them in water at the same temperature from one to two hours. When they are all refreshed, proceed to pot them into small pots, using nice, warm, sandy soil. See that the roots are separated and spread naturally out in the soil without injuring them, pressing the soil firmly. Place them in the frame, keep them shut close for a few days, be careful of damp, and admit air as they get established. Let them he slightly dried each day, but do not allow them to flag from too much air or sup. And if a them be slightly dried each day, hut do not allow them to flag from too much air or sun. And if a person possesses a stove, or even a warm greenhouse, there is no more difficulty in getting them to grow under an air-tight hand-glass or wooden box with the top covered with glass, than those of their own striking or raising,

AZALEAS, 2s. 6d. and 3s. 6d. each.
HARDY GHENT AZALEAS. 24s. and 30s. per doz.
AZALEA MOLLIS—In variety. 18s., 24s., and 30s. per doz.

RHODODENDRONS—Best whites, scarlets, &c., unusually well set with bloom huds. 24s., 30s., 40s., and 50s. per doz.

CAMELLIAS.

Price, 14 inches high, 2s. 6d.; 18 inches, 3s. 6d.; 24 inches, 5s. each.

We have some to offer, 2 feet 6 inches to 3 feet high, 7s. 6d and upwards.

We have a few extra fine plants of ALBA PLENA, in 8-inoh pots, well set with buds,
5s. and 7s. 6d. each.

NEW YEAR'S PRESENTS OF SPLENDID PLANTS

JUST COMING INTO FLOWER.

We have some thousands of winter early-blooming plants.

HYACINTHS, strong, in 5-inch pots. 10s. per doz.

TULIPS, strong, 3 and 4 in a pot. 9s. per doz.

CROCUS, full of roots. 8s. per doz.

NARCISSUS, double. 8s. per doz.

LILY OF THE VALLEY, very strong. 9s. per doz.

CINERARIAS, showing flower. 9s. per doz.

PRIMULAS, showing flower. 9s. per doz.

CYCLAMEN, beautifully coming into flower. 12s. to 18s. per doz.

CALCEOLARIA. 9s. and 18s. per doz.

DUTCH AND OTHER BULBS.

The finest and cheapest, and we hope our patrons will favour us with their orders—we are sure the Bulbs will give every satisfaction.

Our Autumn Catalogue of all the most useful Bulbs and Winter-flowering Plants, with reduced prices of New and other Plants, ready and posted to all customers in September. Should any fail to receive it, please send us a post-card.

All through the autumn, winter, and spring, a large quantity of Flowering Plants, &c., always kept ready for immediate effect for all purposes.

Orchid Baskets, Rafts, and Cylinders made to order.

ORCHIDS. By H. A. Burberry (Gardener to Rt. Hon. Joseph Champerlain, M.P.)

Latest edition, 5s.; post free, 5s. 6d.

Fine Grown Canes, 5s., 7s. 6d., aud 10s. 6d. each.

GRAPE

BOOK ON VINES. By A. Barron. 5s.; by post, 5s. 6d. (200)

CUT FLOWER DEPARTMENT

(PRIVATE TRADE ONLY).

Have your Cut Flowers direct from us, the ACTUAL PRODUCERS, you thus effect a great saving. We have erected a large and spacious building for the reception and making up of Flowers. All kinds, large or small quantities, even to a 9d. (post free) button-hole flower, are regularly sent by post to all parts of Europe.

The advantage, in both price and freshness, in having them direct from the actual growers is something considerable, particularly as a Post Office official meets five trains per day from Swanley at Holborn, and immediately conveys postal matter to the Chief Office.

Wedding and other Bouquets from 7s. 6d. upwards; Wreaths from 10s. 6d. upwards; and Funeral Crosses from 10s. 6d. upwards. Loose Flowers, also Foliage and Ferns for Table and other decoration.

Orders for Cut Flowers from 2s. 6d. upwards can be sent by Letter or Parcel Post.

Boxes of mixed Cut Flowers, with Ferns, sent daily to all parts of the United Kingdom, 2s. 6d., 5s., 7s., and 10s.

PERFECT MUSHROOM SPAWN.

Having every facility, and to be quite sure that nothing but the best shall come from us, we collect samples from all sources where manufactured, immediately test which is the best, and purchase largely; consequently, all our customers succeed, most of them far above their expectations. At this moment we have a large stock, and beyond all question the finest ever offered.

Per brick, 6d., postage 4½d.; per peck, 1s. 6d., postage 1s.; per bushel, 5s.

"A Practical Treatise on the Cultivation of Mushrooms," by J. Wright, F.R.H.S.

Price 1s.; post free, 1s. 2d.

STRAWBERRIES.

What a lovely refreshing fruit! And when we hear it is the firm belief of the highest in the medical profession that if we were to eat more we should hear less of gout, rheumatism, and other pains; and seeing how easy Strawberries are to grow, it should be the set determination of all to cultivate their own, and have them with all their beautiful freshness, morning and evening, as long as possible, and when so, they are one of the greatest charms that mankind can possess.

NEW STRAWBERRY.

"ROYAL SOVEREIGN."

CERTAINLY THE BEST IN CULTIVATION.

This variety has now been grown and tested and subjected to all kinds of conditions and seasons, and has fully confirmed everything previously said of it; so that it is now universally admitted on all sides to be the hest introduction since Sir J. Paxton, and should he extensively planted in every garden.

Small Runners, 3s. per 100
Fine Selected Runners, 4s. per 100;

Fine Plants in small pots, 15s. per

LEADER.

First-Class Certificate from the Royal Horticultural Society, May 14th, 1895.

An enormous handsome mid-season Strawberry of rich Pine-like flavour.

This is undoubtedly the finest mid-season Strawberry yet introduced. The fruit is of enormous size, wedge-shaped or hluntly conical in shape, of a hright crimson or carmine shade of colour, flesh and skin firm, and of a dark scarlet tint throughout, the seeds set in shallow basins projecting beyond the surface, the fruit travelling well—flavour very rich and Pine-like, with a pleasant aroma—plant very compact in babit, and a robust grower, foliage smooth with very downy footstalks. The variety was raised from Latest of All crossed by Noble, and inherits the good qualities of both its parents—combining the rich flavour and enormons size of Latest of All with the prolific habit and vigour of Noble—and will undoubtedly make its mark as a handsome main crop variety. For forcing purposes Leader is likely to be in great request, for which purpose we recommend it to follow Royal Sovereign. It forces very freely, the trusses setting well, with little if any artificial fertilisation, and its compact habit is a great point in its favour.

First-Class Certificates from the Royal Horticultural Society, June 11th, 1895; Royal Botanic Society, June 11th, 1895; York Gala, June 19th, 1895.

A most distinct richly-coloured second early variety of enormous size, wedge-shaped, and of a rich Queen-like flavour; a worthy companion to Leader, ripcning before that variety, and following closely on Royal Sovereign.

Strong Plants in Pots, £3 15s. per 100; 12s. per dozen. Strong Open Ground Runners, £3 per 100; 9s. per dozen.

Carmichael's Royal Seedling Strawberries, PRINCESS OF WALES. PRINCE OF WALES.

5th July, 1896.

Dear Mr. Carmichael,-The Princess desires me to thank you very much for the delicions Strawherries you were so kind ss to send her, and the Princess is very proud that they should be called by her name.-Yours very truly, CHARLOTTE KNOLLYS. Dear Mr. Carmichael,—The Strawberries (Prince of Wales) arrived in capital order, and were

much liked, and I am desired by the Princess to thank you for so kindly sending them.—Yours truly, Charlotte Knollys.

12, Fettes Row, Edinburgh, 25th July, 1896.

Having recently resided in Edinburgh, I have had many opportunities of seeing these Strawberries grown, and of testing them in Mr. Carmichael's private garden at Warriston Park, and have much pleasure in bearing the following testimony to their merit:—

Prince of Wales-Waterloo crossed with British Queen. Larger size, rich flavour, Queen foliage, dwarf habit, very prolific, not so dark as Waterloo, vigorous constitution; one of the very best late Strawberries.

Princess of Wales-Latest of All crossed with Frogmore Late Pive. Full size, dwarf habit, fine Queen flavour, excellent constitution .- D. T. Fish, F.R. H.S., Editor of Cassell's Popular Gardening, &c.

THESE RUNNERS (very early) were all hand laid, and are now bedded out. They will be sent out in strict rotation as the orders arrive. As the Stock is limited, early orders are solicited.

Price 12s. per dozen; 50s. for 50; £5 per 100.

EMPEROR WILLIAM.

We had this with very beautiful fruit, shape and colour very similar to Sir J. Paxton, on May 25th, 1896. It has every appearance of being the very earliest large-fruiting kind grown.

For many years Noble has held sway as the carliest Strawberry, and with all its faults has well repaid the growers by the very high price made owing to its early ripening; but the flavour never was satisfactory, and heing rather soft-fleshed, did not travel well. The variety we now offer is purch scaling that the satisfactory is proposed to the satisfactory of the satisfactory. was satisfactory, and neing rather soft-nessed, did not travel well. The variety we now offer is much earlier than this old favourite, ripening quite ten days in advance of it, flesh much firmer and of a delicious flavour; it is also very hardy and most robust in constitution. So hardy is it that the blooms seem to stand several degrees of frost without harm; it is also of a very dwarf habit, so may be planted rather closer than some varieties; fruit of good size and highly coloured. Every one requiring early fruit cannot dispense with this grand improvement on all early varieties up-to-date

2s. per dozen; 15s. per 100. In pots, 5s. per dozen.

STEVEN'S WONDER.

The earliest variety in cultivation, and very prolific solid fruit, good flavour, high perfume, grand forcer. Awarded First-Class Certificates, Royal Horticultural Society and Royal Botanic Society, 1895. We are pleased to be able to state that everyone who has grown this grand early variety pronounces it to be the best for earliest forcing.

Strong Plants in Pots, 25s. per 100; 4s. per dozen. Strong Runners, 10s. per 100; 1s. 6d. per dozen.

GENERAL COLLECTION OF STRAWBERRIES.

AUGUSTE NICAISE-Fruit of this variety has been repeatedly shown in fine condition.

BICTON PINE—Conical shape, white fruit; distinct; large. 3s. 6d. per 100.

BIDWELL-Early; good flavour; very free.

BRITISH QUEEN-The best-flavoured fruit in cultivation, should be grown in every garden.

CARDINAL-Good, distinct; second carly.

COMPETITOR-Very large; splendid Strawherry.

COUNTESS (Dr. Roden)-Large second early; fruit good colour and flavour, of handsome eockscomb shape. First-Class Certificate from the Royal Horticultural Society.

COUNTS-A really good old variety; does splendidly in our fields, and produces cnormons crops.

DR. HOGG-Similar to British Queen; fine variety; should be tried everywhere.

DUKE OF EDINBURGH-Large, handsome; deep crimson; juicy. EDOUARD LEFORT-A very pleasing oue and highly recommended.

ELEANOR (syn. Oxonian)—This produces enormons crops in our fields, and is one of the hest market kinds.

ELTON PINE-One of the best late varieties in cultivation, except perhaps Latest of All. 3s. 6d. per 100.

EMPRESS OF INDIA-(New) good flavour; hright searlet; requires good culture.

FILBERT PINE-Rich; hardy; prolific.

GEORGE RUNDLE-As good flavour as British Queen, with a strong robust growth; a very important variety in every garden.

GROVE END SCARLET-Small, hut it certainly makes the most delicious jam of any variety in cultivation; where home-made jam is a consideration, this is of great importance. 2s. 6d. per 100.

GUNTON PARK-(New) very prolific; maroon-crimson. JAMES VEITCH-Very large fruit.

KEEN'S SEEDLING-One of the best for forcing and small gardens.

LA FRANCE-(New) rich flavonr; one of the hest foreigners ever sent ont.

LA GROSSE SUCREE-Sweet flavour; one of the hest for forcing.

LATEST OF ALL-As its name denotes, it is several days later than any other variety; free; fruit large; good cropper.

LAXTON'S No. 1-Very early, an improvement on Noble.

LENNING'S WHITE-White; jnicy flavour; fiue; distinct.

LORD SUFFIELD-(New) rich flavonr; free and large.

MADAME STRULENS-Splendid colour.

NOBLE-Very early and free; fine, hold fruit; should be grown in every garden to give the two first pickings. 3s. 6d. per 100.

OXONIAN syn. ELEANOR—Which see.

PRESIDENT-One of the best; a general favourite for all purposes.

SCARLET QUEEN-Very attractive; Queen flavour; a favourite with many.

SENSATION—Very large. 2s. per 100. SIR CHAS. NAPIER—One of the very best for forcing.

SIR J. PAXTON-This is the variety so popular thronghout Kent for field and market. Special prices for large quantities.

SOUVENIR DE BOSSUET-Fine eolour, large fruit, agreeahly acid; late. 6s. per 100. THE ALBERT-Very attractive, useful kind; well worth a place.

VARIEGATED—Beautifully white variegated.

VICOMTESSE H. DE THURY (syn. Garibaldi) - Although small, it is one of the best in cultivation to answer all general purposes, soil, and climate. 3s. 6d. per 100. WATERLOO-The darkest coloured fruit of any, and for dessert indispensable.

WHITE KNIGHT—Flesh very white and pretty, strong grower.
WHITE PINEAPPLE—Blush coloured; flavour very rich and sweet; fair cropper, habit good. Rooted Runners from fruiting plants, all best rooted and picked, 4s. per 100; selected, 5s. per 100, except those priced. In small pots, to fruit the first season, 12s. to 14s. per 100; iu 5 and 6-inch pots, for foreing, 25s. to 40s. per 100.

Special Prices per 1,000, 50,000, and 100,000.

HAUTBOIS AND ALPINE STRAWBERRIES.

ALPINE WHITE.

COMTESSE DE FRETIAKOFF-A good cropper.

CRIMSON GALLANDE.

HOLLOND'S GLORY.
ROYAL HAUTBOIS—An immense cropper;
good of its kind.

TRIOMPHE D'ORLEANS-Large Hauthois.

3s. 6d. per 100; 6d. per dozen.

Other named varieties supplied at current prices.

RASPBERRIES.

SUMMER-FRUITING KINDS.

CARTERS' PROLIFIC—Large; red; a splendid kind, requires the ground well prepared and manured, otherwise it soon dies out. 2s. per dozen, 10s. per 100, 40s. per 1,000.

FALSTAFF-Large; red; well flavoured; vigorous; very prolific. 2s. per dozen.

HORNET-Large; rcd; first elass. 2s. 6d. per dozen.

NORTHUMBERLAND FILLBASKET—Large; red; strong grower and abundant bearer. 2s. per dozen, 16s. per 100.

NORWICH WONDER-Of strong growth, fine fruit; a capital variety. 1s. 6d. per dozen, 8s. per 100, 30s. per 1,000.

WHITE ANTWERP-Very sweet; useful for dessert. 1s. per dozen, 8s. per 100.

Prices and sample for large quantities on application.

NEW KINDS.

BAUMFORTH'S SEEDLING—An improved Northumberland Fillbas'et; one of the best. Planting canes, 2s. 6d. per doz., 15s. per 100. Fruiting canes, 4s. per doz., 21s. per 100.

LORD BEACONSFIELD. KEIGHLEY QUEEN. LORD BERESFORD.

PRINCE OF WALES. SUPERLATIVE (3s. per doz.).

Prices on application.

AUTUMN FRUITING AND YELLOW VARIETIES.

BAGLEY'S PERPETUAL-Red; prolifie; very good Autumn bearer.

BELLE DE FONTENAY-Red; late fruiting. 1s. 6d. per doz.

GOLIATH - Dark red; fine fruit; prolifie.

GREGG-A black variety of excellent quality; a great bearer; very hardy. 1s. 6d. each.

MERVEILLE DES QUATRE SAISONS (Yellow, October) — Freely producing fruit up to November; large and fine.

MAMMOTH.
MAXWELL.
NEWMAN'S THORNLESS.
OHMER.
1s. 6d, to 2s. 6d. each.

RATHBONE. SNYDER. TAYLOR'S PROLIFICATION. THE LAWTON. WILSON'S EARLY.

FOR ALL SEEDS SEND FOR A CATALOGUE.

CANNELLS' REAL MANURE.

Double production of everything is obtained by using it. Nothing is so important in every part of the garden as two or three applications during the season. It gives more than satisfaction to whatever it is applied to, and in most cases trebles the size, making the whole garden the treasure of one's life.

1-lb. tins, 1s., per post, 1s. $4\frac{1}{2}d$.; 3-lb. tin, 2s. 6d., per post, 3s. $1\frac{1}{2}d$.; 6-lb. tin, 4s. 6d., per post, 5s. 6d. In bags—14-lbs., 7s.; 28-lbs., 12s. 6d.; 56 lbs., 23s.; 1 cwt., 42s,

DIRECTIONS FOR USE.

FOR LAND IN GOOD CULTIVATION AND GROWING CROPS.—Three-quarters of an ounce to the square yard, one and-a-half hundredweight to the acre. Mix with treble its quantity of fine, slightly damp soil, and scatter it regularly; you can see to a line how far it has been put.

FOR FOOR LAND AND POTATOES.—Three to four hundredweight to the acre.

FOR POTTING.—One ounce to the bushel of good compost, and thoroughly mix.

Top Dressing.—Two ounces to a bushel of good soil.

Liquid Manure.—Half ounce to a gallon of water, and increase it a little twice a week until the plants are well in flower. On each occasion pot or water two or three without the Real Manure, and watch the difference; it will show one way to get money, and the other to lose it.

TO LADIES AND GENTLEMEN IN REQUEST OF GARDENERS.

Our Mr. H. Cannell, Senr., gives personal daily attention to all applications for Gardeners (good all-round men). His wide connection, being a large employer, makes him intimately acquainted with most of the best practical and deserving men in the country, and he would feel a real pleasure in assisting and fitting in the right man to fill the situation for which any lady or gentleman may require him.

(208)

GARDENING WORKS.

Amateur's Handbook on Gardening. Cloth, 2s. I'd.; post free, 2s. 9d.

Book about Roses. By Rev. Canon Hole. 2s. 6d.; post free, 2s. 9d.

Book on Vines. By A. Barron. 5s.; by post, 5s. 6d

Cactus Culture for Amateurs. By W. Watson. 5s.; post free, 5s. 4d.

Carnations and Picotees. By E. S. Dodwell. 1s. 6d.; post free, 1s. 7d.

Chrysanthemums and their Culture. By E. Molyneux. 1s.; post free, 1s. 2d.

Ferns. By J. Birkenhead. 1s.; post free, 1s. 3d.

How to Grow Fruit and Vegetables. By G. Garner. 1s.; post free, 1s. 2d.

Mushrooms. By J. Wright. 1s.; post free, 1s. 2d.

Orchids. By H. A. Burberry. 5s.; post free, 5s. 6d.

Profitable Fruit Growing. By J. Wright. 1s.; post free, 1s. 3d.

Rose Growing. By D. Gilmour. 1s.; post free, 1s. 2d.

Sweet Scented Flowers and Fragrant Leaves. By Donald McDonald. 5s. 6d. post free.

Table Decorations. By Wm. Low. 3s. 6d.; post free, 3s. 9d.

Tomato Growing. By Iggulden. 1s.; post free, 1s. 3d.

Tuberous Begonias. By B. Ravenscroft. 1s.; post free, 1s. 3d.

Vegetable Culture. By A. Dean. 1s.; post free, 1s. 2d.

WORKS BY THE LATE SHIRLEY HIBBERD.

Amateur Rose Book, 3s. 6d.; post free, 3s. $10\frac{1}{2}d$.

"Flower Garden, 3s. 6d.; post free, 3s. $10\frac{1}{2}d$.

"Greenhouse and Conservatory, 3s. 6d.; post free, 3s. $10\frac{1}{2}d$.

Kitchen Garden, 3s. 6d.; post free, 3s. 10 d.

Profitable Gardening, 3s. 6d.; post free, 3s. 10½d.

The Fern Garden, 3s. 6d.; post free, 3s. 9d.

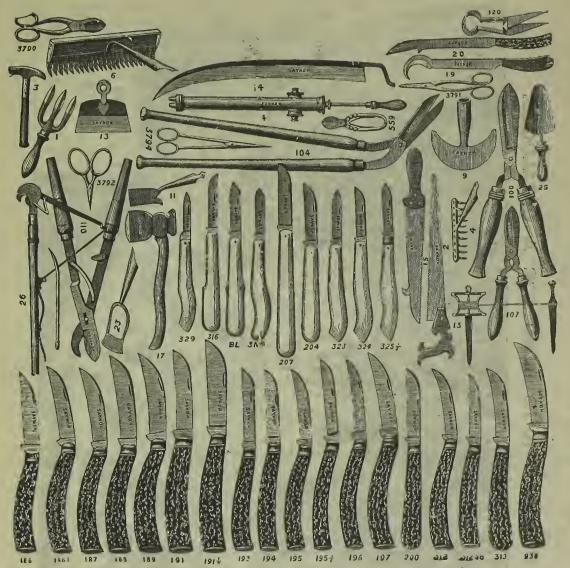

Field Flowers, 3s. 6d.; post free, 3s. 9d.

Rustio Adornments, 10s. 6d.; post free, 11s.

The Ivy, 5s.; post free, 5s. 4½d.

Encyclopædia of Gardening, 3s. 6d.; post free, 3s. 10\frac{1}{2}d. Special Manures for Garden Crops, 2s.; post free, 2s. 3d.

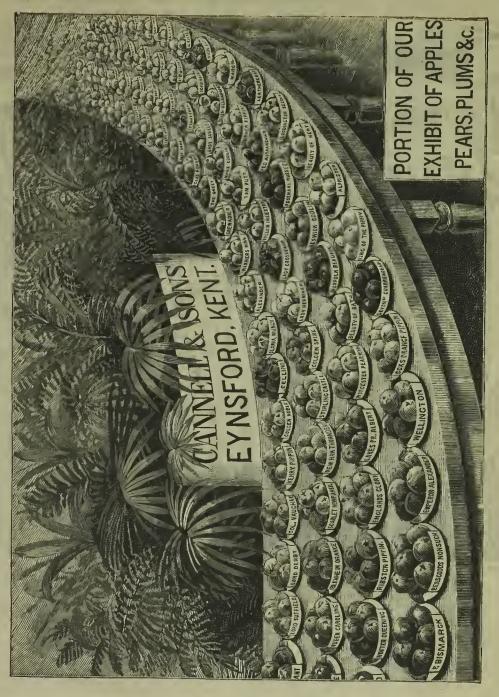

PRUNING AND BUDDING KNIVES, SCISSORS, &c.

Warranted by the Makers, and specially made for Horticultural Purposes.

SUCCESSFUL EXHIBITOR.

One Year's Winnings.

C. J. WHITTINGTON, Esq., Elmhurst, Bickley, whose gardener the photo represents with his highly creditable honours won at various shows, and whose garden we have had the pleasnre of supplying for years with all that is required from the Seedsman and Nurseryman. Mr. and Mrs. Whittington are devotedly fond of their garden and all its productions, and everything is carried on by mutual consent, agrecably to all concerned; and, so far as the garden, it can be safely said it is at all seasons a model of beauty, and certainly reflects much upon the care and thought of the principals. The engraving proves the skill and moral character of Mr. Payne, which our rising generation of gardeners would do well to take as a pattern.

We are Importers and Exporters of all New and Choice Plants and Seeds from and to all parts of the World.

A VIEW OF H. CANNELL & SONS' PACKING DEPARTMENT.
